

SURTRUCK

CORPORATE PROFILE

FIREFIGHTING SECTION

SURTRUCK is a leading manufacturer of **municipal cleaning** and **firefighting vehicles**, delivering innovative, high-performance solutions for urban services and emergency response. Based in Seville, Spain, SURTRUCK combines advanced engineering with a deep understanding of real-world operational needs to develop vehicles that are reliable, sustainable, and tailored to each client.

OUR ABILITY to adapt to specific market needs—combined with a **HIGHLY SKILLED** team, **ADVANCED TECHNOLOGY**, and reliable **AFTER-SALES SERVICE**—positions us as a leading provider in the municipal and emergency vehicle sectors. We offer high-value, durable solutions that meet the demands of both local and international markets, reinforcing our role as a competitive force in the industry.

INNOVATION is

at the core of SURTRUCK's identity. Our multidisciplinary team continuously develops tailored solutions to meet the evolving needs of municipal services and emergency response. We invest in R&D to enhance performance, sustainability, and efficiency—resulting in pioneering equipment such as our specialized cleaning vehicles for industrial and energy sectors.

Through strategic collaborations and a forward-thinking approach, SURTRUCK delivers practical innovation that adds real value for clients across global markets.

SURTRUCK holds

five utility patents that underscore its commitment to innovation in fire protection and cleaning equipment:

Forced-Opening Door ([U202231512](#))

Vertical Pump for Irrigation and Flushing Tanks ([U201531155](#))

Extruded Aluminum Panel Structure ([U201831778](#))

Flushing Nozzles Design ([052271123](#))

Battery Recharging in ECO Cleaning Models ([U201631248](#))

ISO 9001: Quality Management System

This certification reflects SURTRUCK's focus on delivering high-quality products and services. It ensures a robust framework for continuous improvement, customer satisfaction, and consistent product performance.

ISO 14001: Environmental Management System

SURTRUCK is committed to environmental sustainability. The ISO 14001 certification demonstrates that the company manages its environmental responsibilities, striving to reduce its environmental impact and comply with applicable environmental laws and regulations.

ISO 45001: Occupational Health and Safety Management

SURTRUCK prioritizes the safety and well-being of its employees. ISO 45001 certification indicates that the company has established effective management systems to minimize workplace risks and improve health and safety conditions.

Initial Assessment Certification (UCA)

SURTRUCK has earned certification from the Automotive Certification Unit (UCA) for the management systems and production procedures of vehicles in categories N1, N2, N3, O1, O2, O3, and O4, ensuring compliance with industry standards for vehicle manufacturing.

Carbon Footprint Registration

SURTRUCK has calculated and registered its carbon footprint with the Spanish Ministry of Agriculture, Food, and Environment. This reflects the company's commitment to managing its greenhouse gas emissions and improving its environmental performance.

Affiliation with the Andalusian Emissions Compensation System (SACE)

SURTRUCK is an active participant in the Andalusian Emissions Compensation System (SACE). As part of this commitment, SURTRUCK has signed agreements with SACE, contributing to the creation of a carbon footprint knowledge network and compensating for its emissions.

CE Certification

SURTRUCK products are CE certified, ensuring that they comply with European Union safety, health, and environmental protection standards, which is critical for selling products across European markets.

At Surtruck, we believe that urban firefighting demands smarter, faster, and more sustainable solutions.

Our Firefighting Division is dedicated to delivering maximum efficiency and exceptional performance, designing vehicles that empower fire brigades to respond faster, operate safer, and perform better — even in the most demanding urban environments.

Thanks to cutting-edge design, advanced technology, and a customer-focused approach, **Surtruck is the trusted partner** for leading firefighting services across Europe.

Our innovative range includes:

•**LIGHT URBAN PUMPERS (BULS):**

Agile, compact, and powerful, engineered for narrow streets and fast deployment.

•**FAST FIVE:** One of the world's narrowest and most efficient fire trucks, combining maneuverability with full operational capacity.

•**ECO-FIRE:** A 100% electric fire engine, setting a new benchmark for environmentally responsible firefighting.

EVERY SURTRUCK VEHICLE IS A PROMISE: MAXIMUM EFFICIENCY, PROVEN PERFORMANCE, AND TOTAL COMMITMENT TO SAVING LIVES AND PROTECTING CITIES.

OUR PRODUCT RANGE

Our firefighting vehicle range is built on the principles of **operational efficiency**, **adaptability**, and **sustainability**, offering **customized solutions** to meet the evolving demands of fire brigades, municipalities, and emergency service providers.

LIGHT URBAN FIRE TRUCK.

Crew Cab – SURCAB – 2000 L – Power Take-Off (PTO).

HEAVY RURAL FIRE TRUCK.

Crew Cab – Original Chassis - 3500 L - Power Take-Off (PTO).

RESCUE UTILITY TRUCK

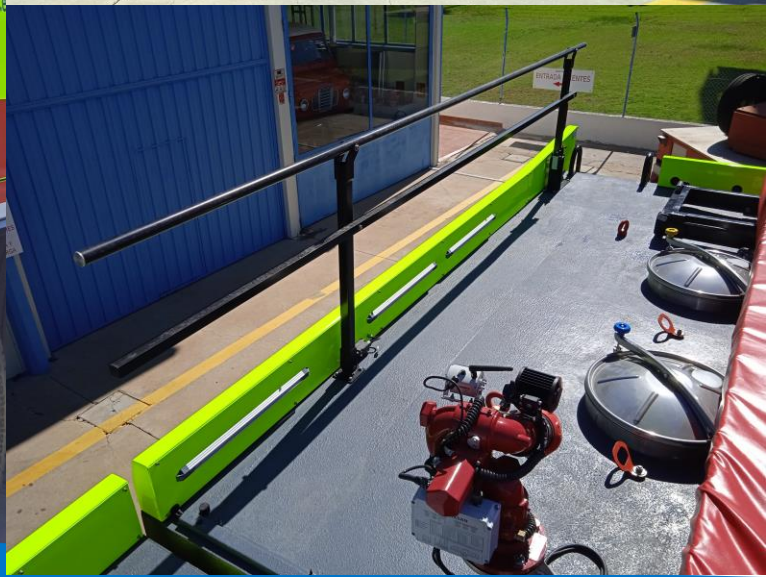

Crew Cab – SURCAB

HEAVY WATER TANKER

12000 L - Power Take-Off (PTO).

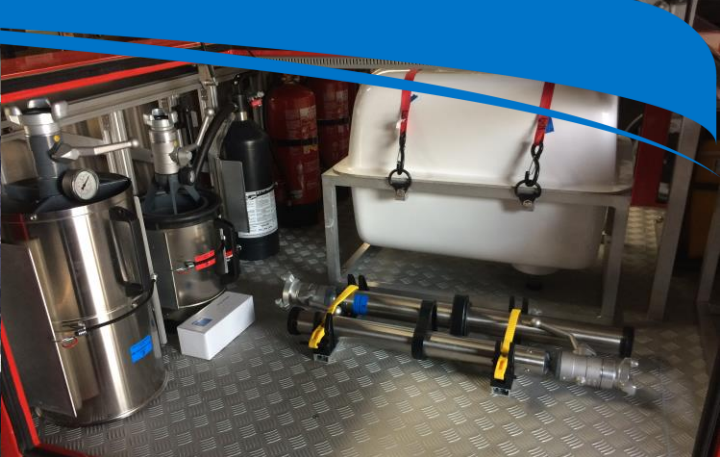

HEAVY WILDLAND FIRE TRUCK

3500 L - Power Take-Off (PTO).

SPECIALIZED TRAILERS

SURTRUCK®

A DECISION MADE IN THE

FUSO RANGE

THE SMALLEST FIREFIGHTING
VEHICLE ON THE MARKET

LIGHT URBAN FIREFIGHTING VEHICLE (SINGLE-CAB CONFIGURATION)

This compact firefighting vehicle is specifically engineered to access the narrowest streets and ensure a quick and effective response in even the most challenging urban environments. Equipped with the latest safety features and technologies.

Currently, it is the only firefighting vehicle of its size that complies with UNE EN:1846 standards for emergency and rescue vehicles, guaranteeing the highest safety and performance levels.

Operating in the Town Hall of Barbate and the Granada Fire Consortium.

FAST FIVE VEHICLE

CREW CAB - SURCAB

Designed and manufactured by Surtruck, the FAST FIVE rapid-intervention vehicle is already in frontline service with the Town Halls of Seville and Jaén.

Built on a compact 4x4 chassis, this lightweight, high-mobility appliance carries a full five-person crew and delivers instant response capability across urban, peri-urban and rural environments. Its narrow track and tight turning radius allow it to navigate historic city streets, industrial yards and forest tracks with equal ease.

TECHNICAL ASSISTANCE VEHICLE

The Technical Assistance Vehicle (TAV) by Surtruck is a highly versatile support unit engineered to provide operational reinforcement during firefighting, rescue, and civil protection incidents. Built on a customizable chassis platform, the TAV serves as a mobile logistics, tools, and power supply hub for technical interventions.

This vehicle is specifically designed to support fire brigades, emergency response teams, and municipal services in a wide range of scenarios—from traffic accidents and industrial incidents to natural disasters and urban rescue operations.

ELECTRIC

LIGHT URBAN FIRE TRUCK

Designed and manufactured by Surtruck, the FAST FIVE rapid-intervention vehicle is already in frontline service with the Town Halls of Seville and Jaén.

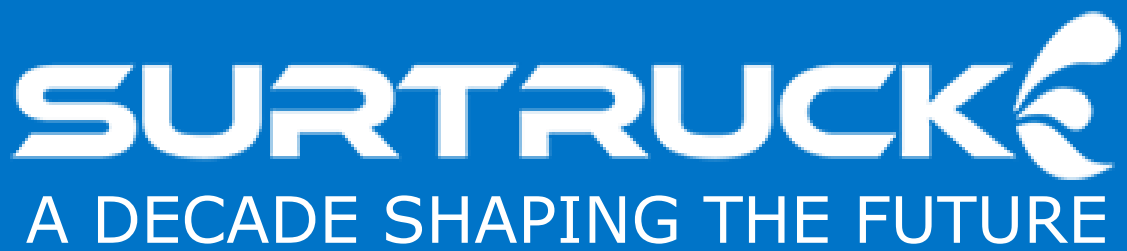

Built on a compact 4x4 chassis, this lightweight, high-mobility appliance carries a full five-person crew and delivers instant response capability across urban, peri-urban and rural environments. Its narrow track and tight turning radius allow it to navigate historic city streets, industrial yards and forest tracks with equal ease.

PERSONALIZED ROAD AND STREET CLEANING VEHICLES

Specializing in personalized road and street cleaning vehicles, we ensure that each solution is crafted with precision, efficiency, and reliability to meet the specific demands of your operations. Our team is committed to delivering high-performance vehicles that enhance productivity while maintaining the highest standards of quality and compliance.
