

# BiOT

Biosense intelligent technology

Thanks to **Innovation Norway**.

**Grant 2021/335056 – BIOT- Intelligent Biosense device**

Duration 1 year Jul,1 2022 - June 30, 2023

Total: 118,164 € EEA grant: 98,706 €

**Grant 2023/380592 – Restricted Call Application – BIOT AI**

Duration 5 months Dec,1 2023 - Apr 30, 2024

Total: 72,720 € EEA grant: 61,085 €

The logo features the word "Biot" in a bold, yellow, sans-serif font. The letter "o" is replaced by a stylized yellow robot head icon with a black center and small protrusions. The background is split vertically: the left side is dark grey with faint, overlapping leaf shapes, and the right side is green with similar leaf shapes. Three horizontal grey lines cross the entire image.

**Biot**

**40% of biological agents** (bacteria, fungus, etc) spread through contact with non disinfected surfaces... air quality -> replication vector

- 10- E. Coli
- 9- Clostridium Botulinum
- 8- Salmonella
- 7- Vibrio cholera
- 6- Tetanus
- 5- Klebsiella
- 4- Staphylococcus
- 3- Syphilis
- 2- Streptococcus
- 1- Tuberculosis

Ex. A Bacteria is duplicating from 4 to 20 minutes

Poor air quality hurts your health from 20mins exposure

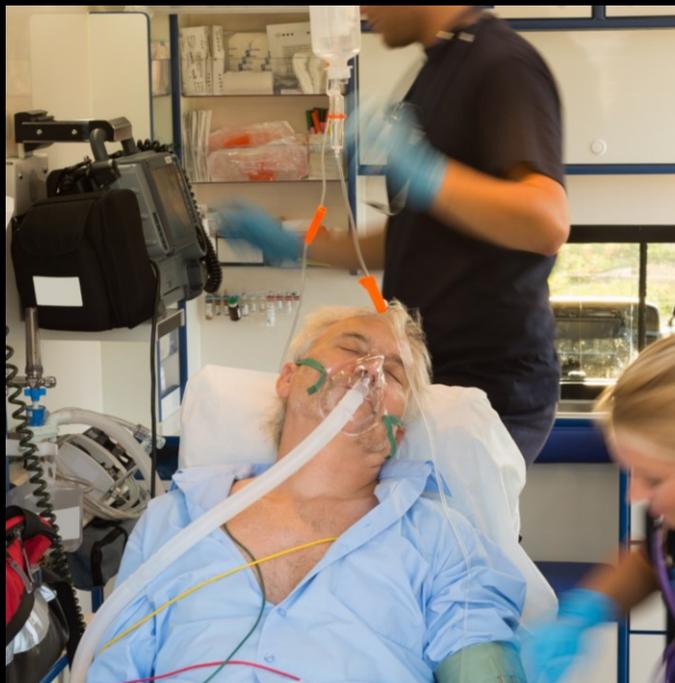

## RESULTS

higher infestation trend  
people get allergic or sick  
waste of money

Clean services managed superficially

- no info about area clean and IAQ level
- no QUALITY CHECK after cleaning

## HEALTH IMPACT (year)

- 829 000 people estimated deaths
  - 297 000 deaths children aged under 5
- 2.8 million infected people treatments costs >\$2 billion a year

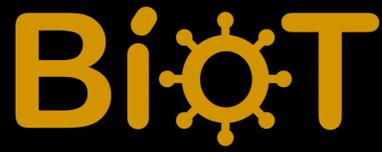

## ENVIRONMENT IMPACT

Yearly **3 million liters of surface disinfectants (7MUSD)** generating > **300.000 tons** of GHG emissions

**7.7%** annual grow for such emissions

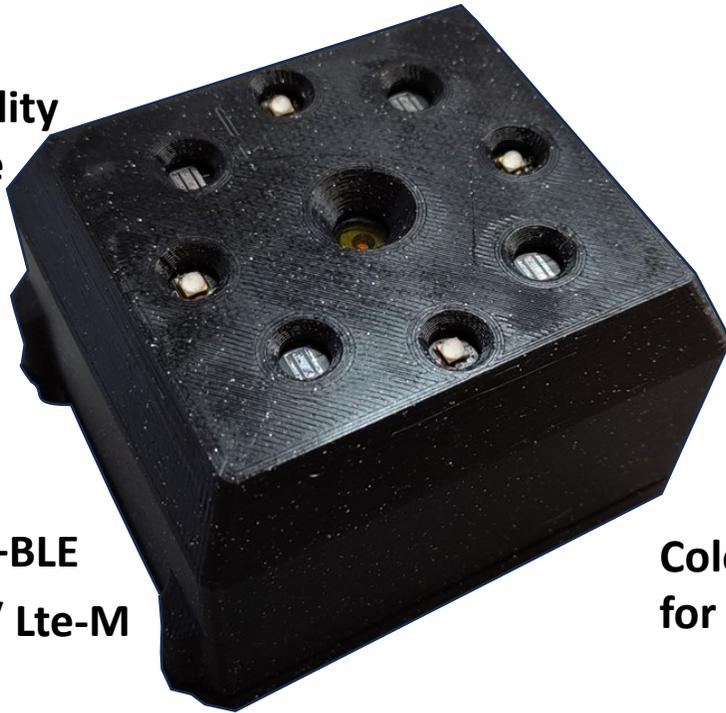

**Biosense & IOT**  
cleaning guardian

**Hyperspectral area scanning technology**  
**3x sensitive than eye perception**

**Air quality  
module**

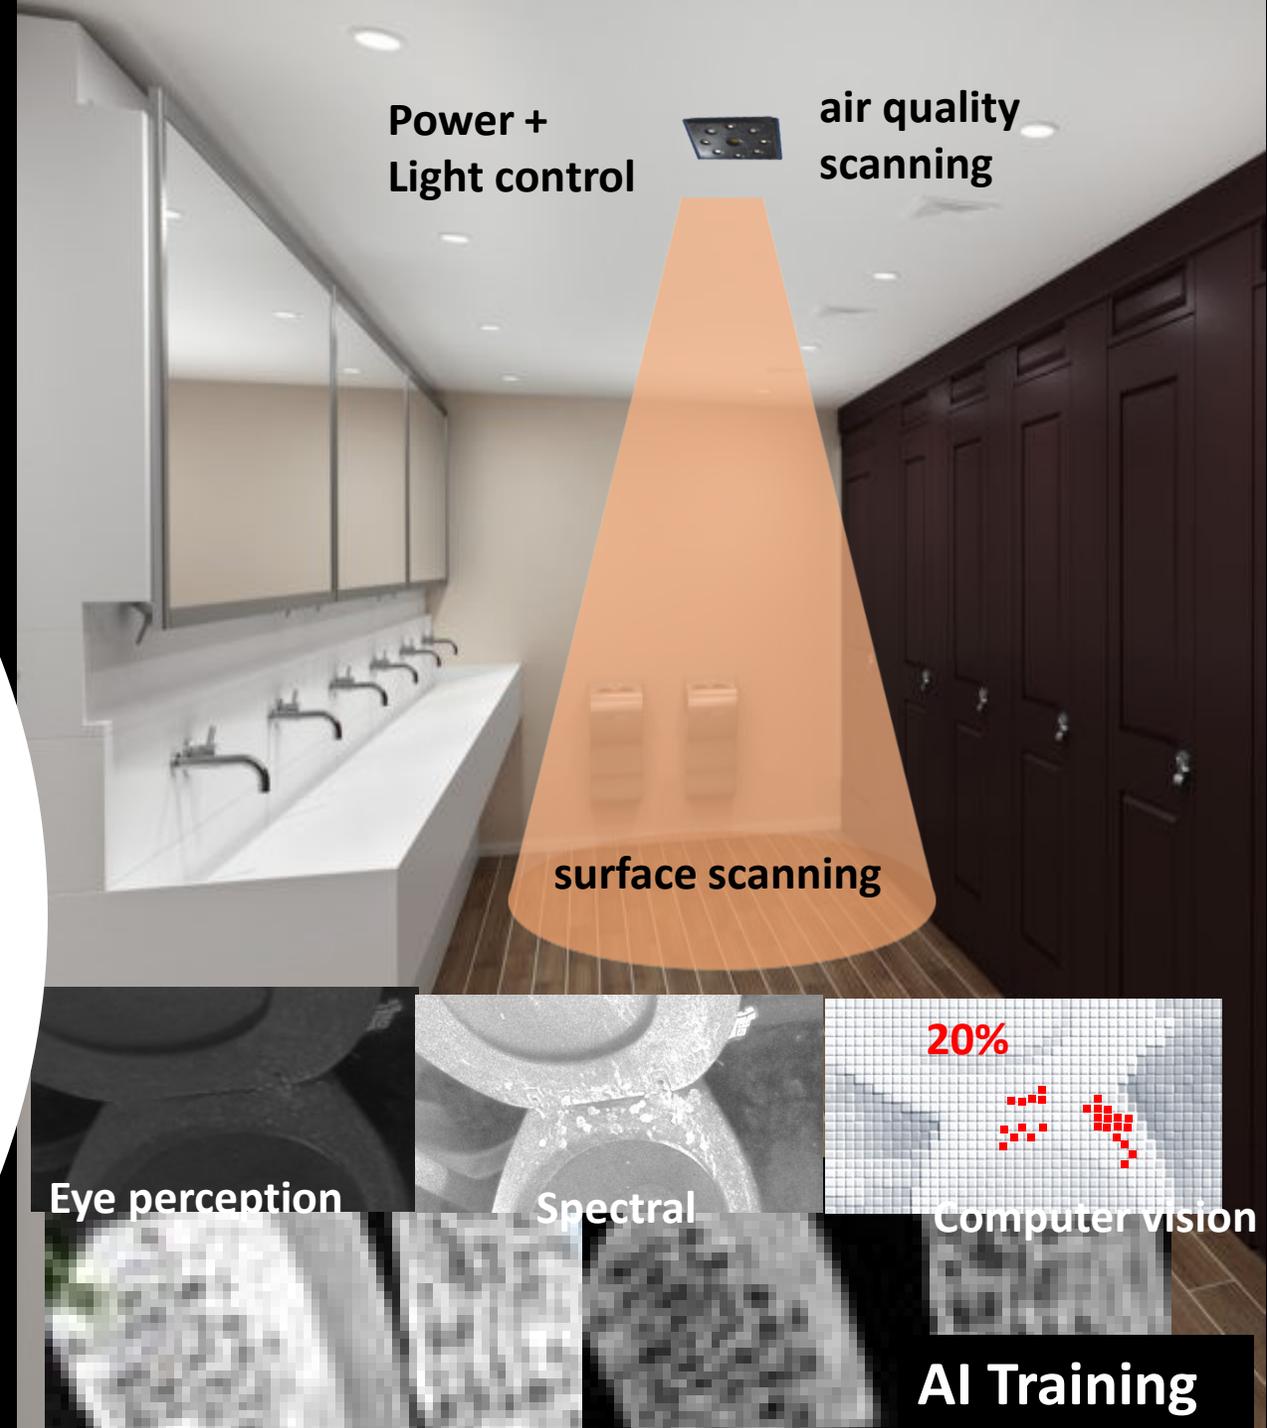

**Power + Light  
switch control**

**Wifi +BLE  
Nb-Iot / Lte-M**

**Colored status light  
for level**

**Spectral scanning**

**Power +  
Light control**

**air quality  
scanning**

**surface scanning**

**20%**

**Eye perception**

**Spectral**

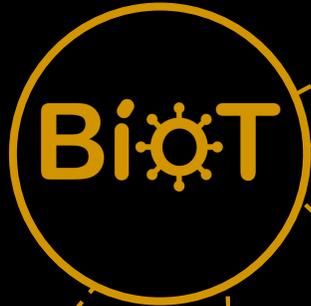

**Computer vision**

**AI Training**

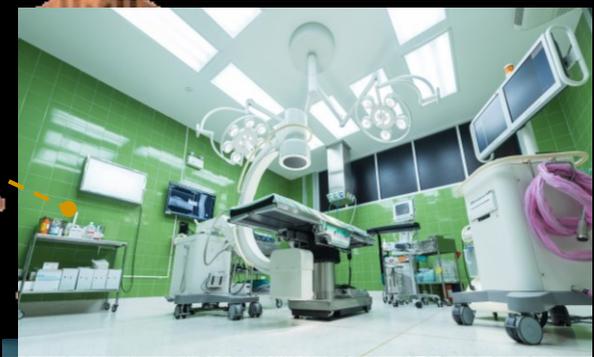

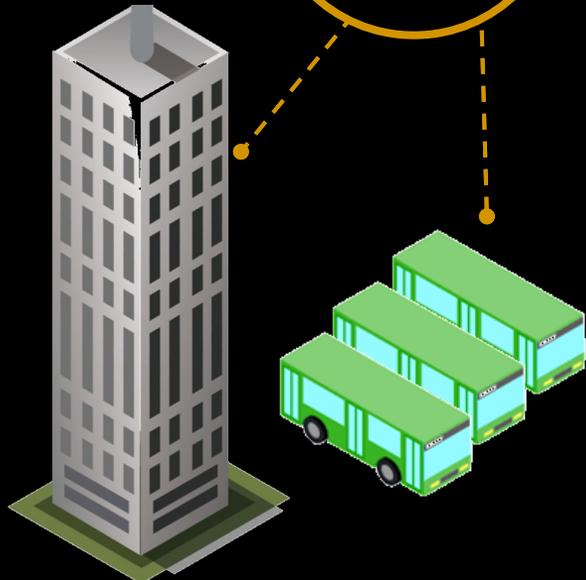

# Biological monitoring service

- Alerts & call for action
- Optimized cleaning activity
- Reducing substances and emissions

AI support for identifying various infested areas  
Analytics (devices, janitors, people)

30% less cleaning costs and emissions

# Market and competitors

## European market size

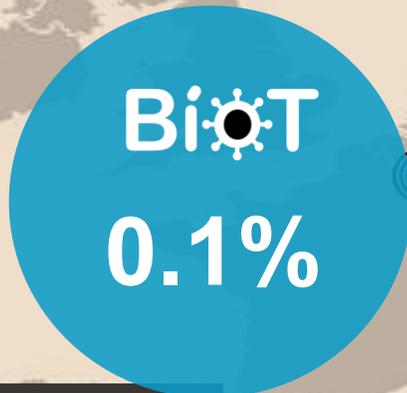

9.2M sqm office/schools spaces

24,290 hospitals in Europe

692,207 buses, trains

## Competition

- no such devices on the market
- dummy UV lamps or IAQ sensors

## Channels

- B2B - Facility management companies
- B2B2C - Service Providers: TELCO
- B2C - Web stores

## BIOT (devices)

Office/School buildings → 10 K

Hospitals → 10 K

# Business overview

## Key partners

- Factories
- Electronics suppliers
- Online retailers

## Key activities

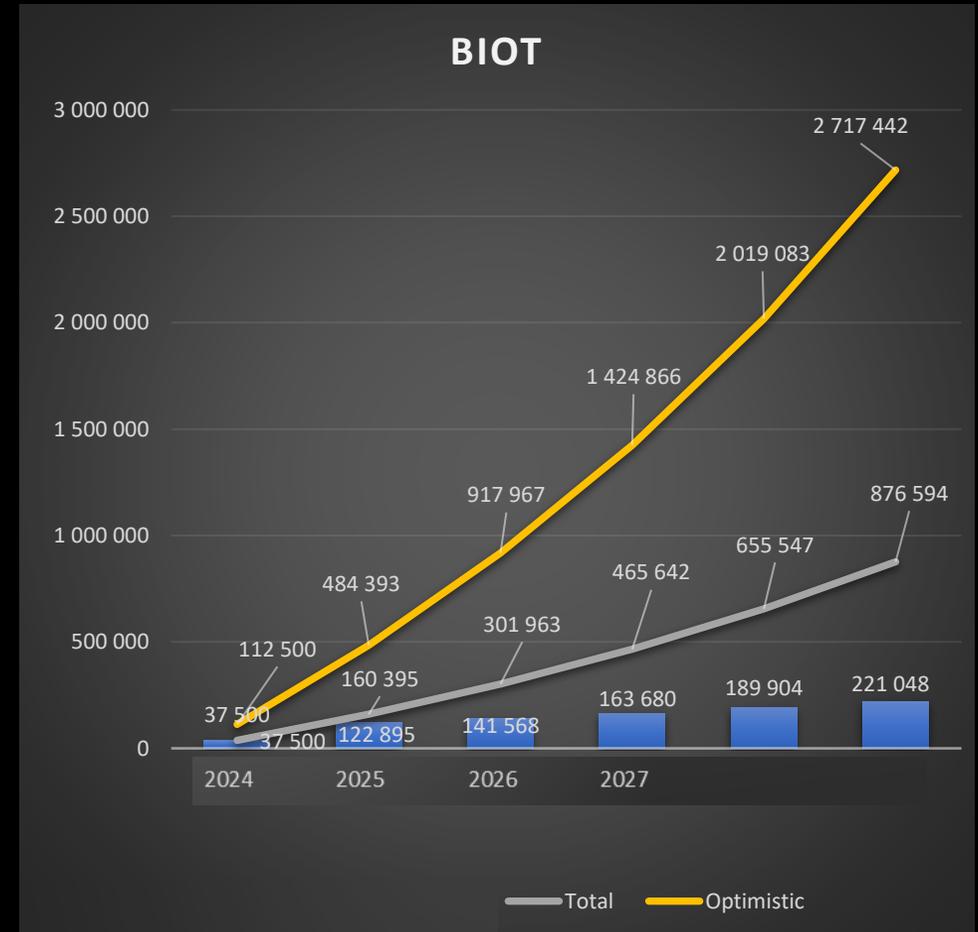

- Test & package electr.
- Software maintenance
- CDE Integration

## Rev. streams

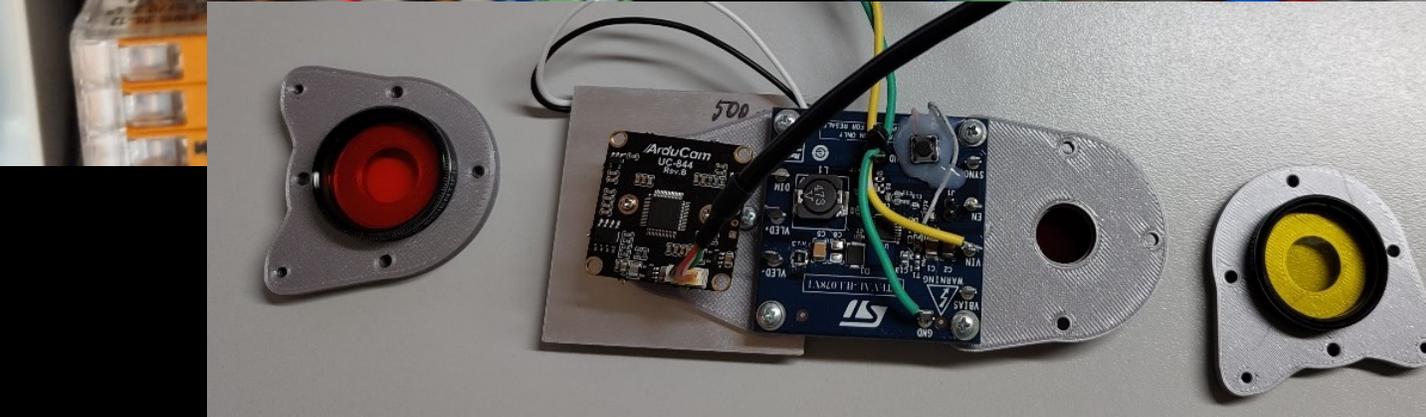

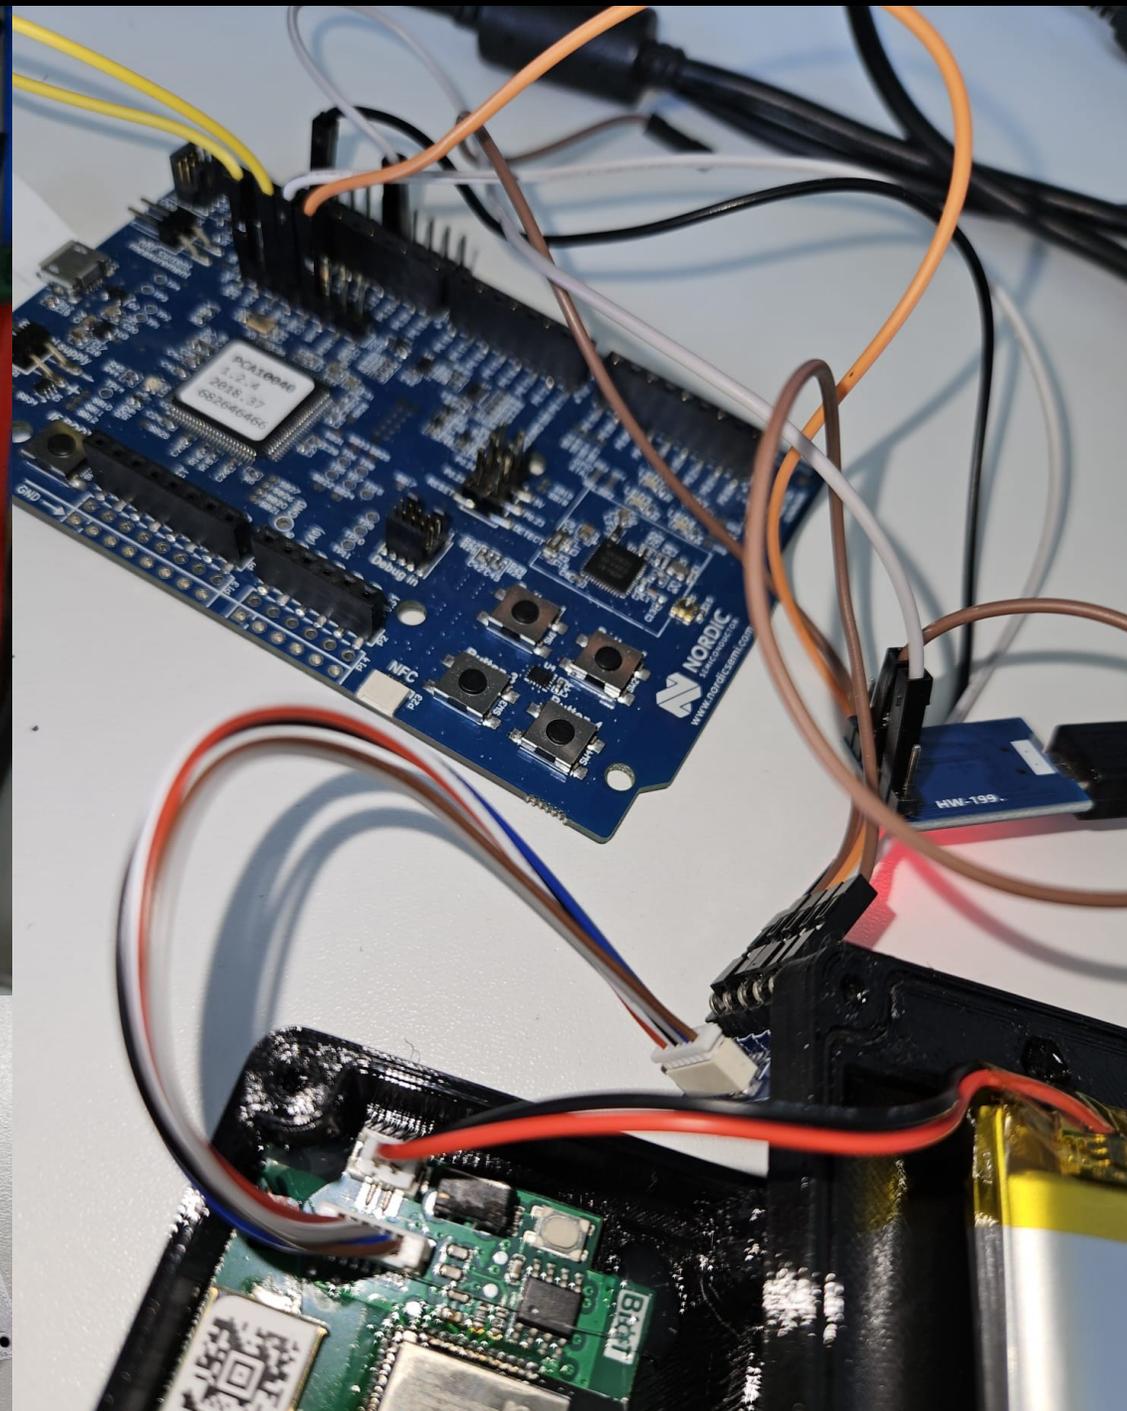

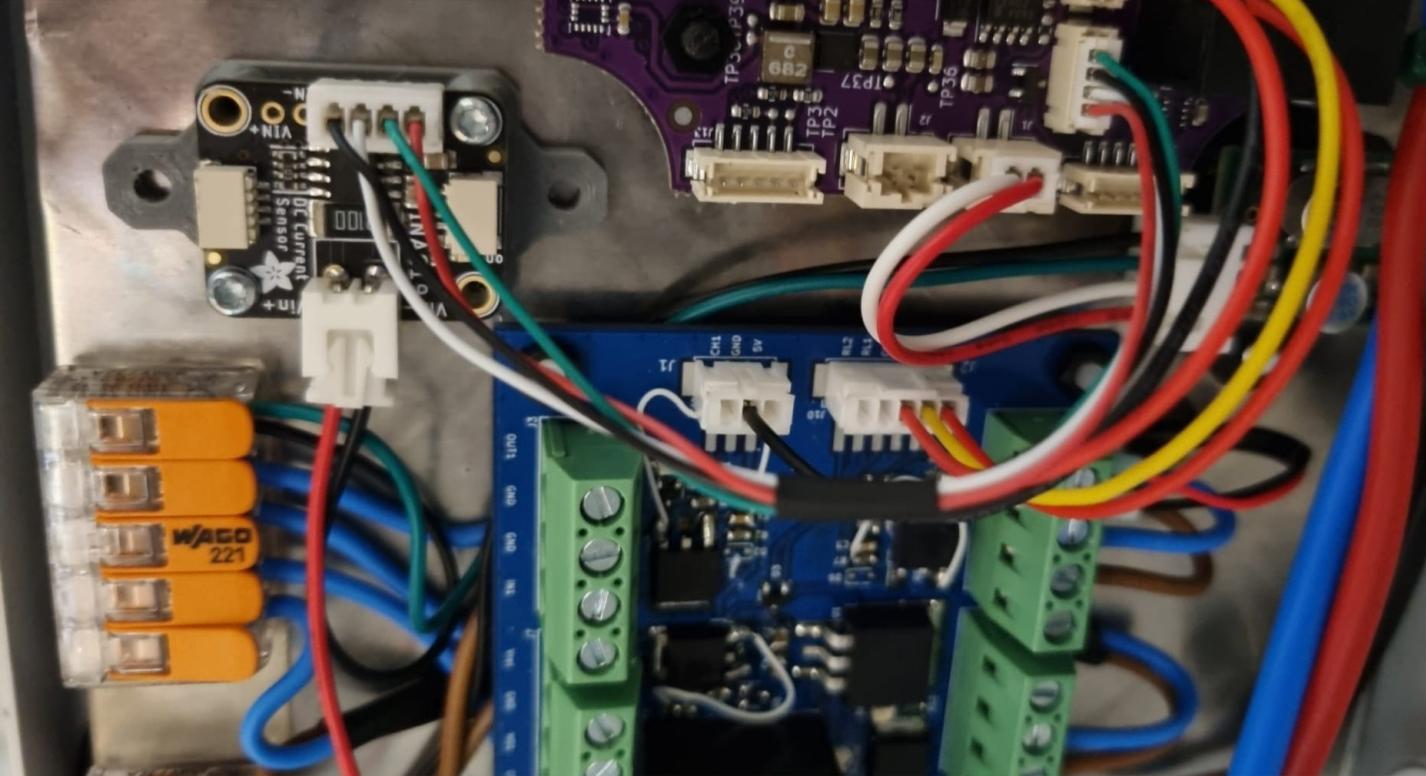

- Low price x High volumes
- Subscriptions

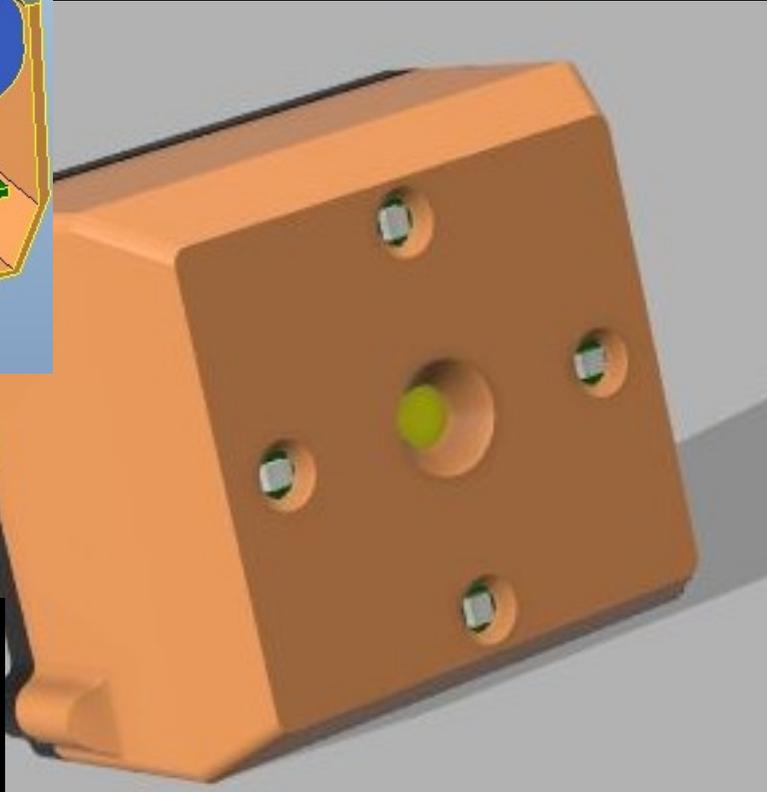

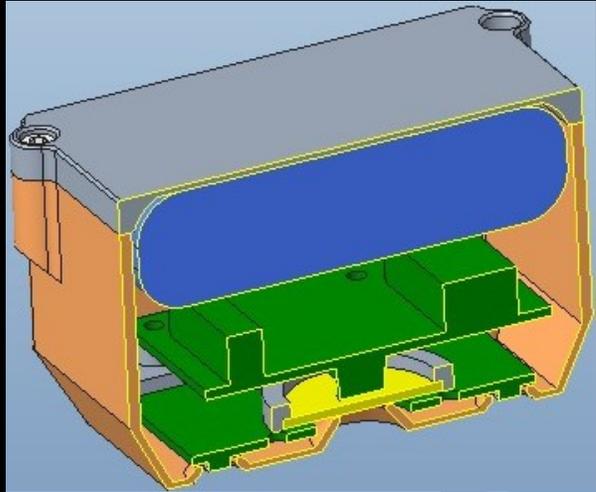

## Risks

- HIGH - electronic components crisis.
- LOW - COVID-19 situation

# Certificate of Registration

This certificate is awarded to the organization

## FRONTIER PENTA SRL

Braşov City, Lânil Street, No. 104A, Room 2, Braşov County, Postal Code 500465 (Head office)  
Work point: Ghiroda City, Caraiman Street, No. 5, Timiş County, Postal Code 307200, Romania

for the recognition of  
**The Quality Management System**  
according to the requirements of

## ISO 9001:2015

The scope of activities covered by this certificate is  
**Production of electronic air quality monitoring devices**  
IAF code according to IAF ID 1: 19

# About Us

## CONTACT

Str Lanii 104A, Brasov  
Str Marginii nr.2 Timisoara

## ACHIEVEMENTS

### INNOVATION LABS - BEST PRODUCT

From 140 solutions, iOla was nominated "Best product" on Innovation Labs (juried by 20 people representing Orange, Carrefour, Minister of Telecommunication etc).

From hundred of European IOT applications, iOla Agritel was selected to join the 12 Nb-IOT solutions of Deutsche Telecom network roll-out program for 8 European countries: Austria, Croatia, Germany, Greece, Hungary, Poland, .

Lumbara planned to be deployed in a Smart City pilot, managed by Orange. The solution is based on LoraWAN radio technology and iOla pilot is focusing on green areas management (plant needs, stress, water, pollution, reducing emissions) .

Solution for agriculture, vineyards and greenhouses. The solution is introducing a virtual engineer that monitor & analyze data from sensors predicting & taking actions around crops and production.

## BACKGROUND 2017

### UNIVERSITIES PARTNERSHIP

Partnership with Banat university of agricultural sciences and veterinary medicine, with the purpose to create precision agriculture solutions.

## COMPANY OVERVIEW

The company was founded end of 2021, associates having years of experience with TELCO solutions, from innovation, product management to customer deployments, support and maintenance.

The primary focus of the partnership was to design and deploy cutting edge technological solutions and services, in a fastest way at affordable price

## MILESTONES

- Implementing a solution for mesh peer-to-peer communication (5G ready) that enables interconnecting IOT devices and/or smartphones over various IOT radio techs(Lora/LoraWAN,Wifi,BLE, SigFox, Lte-M, Nb-IOT).
- Pushing our vision to the next level – IOT network by handling data from various sensors, routing to gateways and cloud processing. iOla was also registered as trademark over 4 continents and 130 countries.
- Deployment in Luxembourg, Romania, Kazahstan, Germany, Bulgaria.

## SOLUTIONS

Lumbara AgTech	Digital Agriculture 4.0
Lumbara GreenCity	SmartCity green areas care
Lumbara Facility	Facility management

## MARKETS

Luxembourg  
Romania

## BRANDS

Lumbara  
BloT  
Alergotel

# The TEAM

Founders

**Cătălin CHIȚU (45)**

**CEO**

After a successful career from Engineering to Product Manager, nominated also as (Alcatel Lucent) *Bell Labs DMTS* , Catalin decided to use his innovation knowledge to design & produce new cutting-edge products & services

**Ion Popa (27)**

**CTO**

With years of embedded experience, Ion is mastering the hardware intelligence, and transmission of remote devices installed kilometers away in harsh environment

Senior Development Team

**Gianina Rus (37)**

**Integration and testing**

Strong experience in assembly and process, she is responsible with building , testing our products

**Raluca Romanitan (37)**

**Marketing and Sales consultant**

Strong experience on branding, marketing campaigns and sales channels aggregation, she is the masterchief of our product image

**Ciprian Rus (39)**

**Delivery operations**

After dozens of customer facing, running various projects around the world, dealing with people and mentalities, he will anchor his knowledge side for efficient delivery

**Daniel Glodeș (44)**

**Senior computer vision consultant**

Glo is mastering the computer vision algorithms, train and implemented them on the devices

**Dan Regep (47)**

**Big data, analytics &AI consultant**

Software engineering and architecture for big data processing streams, machine learning, training the intelligence
