GmbH Projektmanagement

CETPARTNERSHIP 2026 · PARTNER PITCH

You bring the resilience science. We run the consortium that delivers it.

Expert-led operating partner for large, cross-border, publicly funded R&D consortia — from the first call analysis to the final audit. Clean energy & hydrogen is one of our core sectors.

Find K&S in the matchmaking — let's build the consortium that delivers.

Dr. Richard Kahle, Managing Director

WHAT WE BRING TO YOUR CONSORTIUM

1

Win the call — Proposal Office

Two-stage support, pre-proposal to full proposal: call analysis, partner coordination, narrative & budget consolidation, evaluator-ready submission.

2

Run the consortium — Consortium PMO

Reporting, deliverables, milestones, risk and funder interface — with financial consolidation across every national regime, from kick-off to final audit.

3

Neutral & secure by design

Structurally neutral (no IP, no stake) for consortia of competitors, plus on-premises infrastructure for security-of-supply and critical-infrastructure data.

This call runs in **two stages** and pools **~35 national / regional funders** across **~30 countries** — each with its own rules, portals and deadlines. Holding that together is exactly our job.

50+

proposals supported

100+

PMO mandates delivered

20+

years of operation

€500M+

funding managed

Energy & hydrogen track record: H₂Giga lead projects (SEGIWA · AEM-Direkt · DERIEL) · MODALIS² battery modelling · MODABAT clean aviation · FASTLANE power electronics.
