1. INTRODUCTION

Meet Travel Compositor

TravelCompositor is a software company dedicated to the development and improvement of world patented solutions for travel sales. TravelC is a SaaS platform adapted to every travel business model with ability to search, quote and book any combination of services (flight, train, bus, ferry, bus, hotels, houses, activities, transfers, car rental, insurances, circuits...) to be sold stand-alone or combined in dynamic, semi-dynamic or fixed packages thanks to its wide range of booking engines offer. The solution is delivered in a microsite format already ready to be pure B2B, pure B2C or even both at the same time allowing the B2B2C.

1. INTRODUCTION

Added Values

We won't charge you for...

- Consolidation of Suppliers
- Operational support
- Trainings
- Account management
- General improvement suggestions and their developments
- Analysis of custom developments
- We don't have prepaid packages of hours or of any other kind
- Management of custom projects
- Quality & Success services for the platform and its customers

Our values make a difference

- "Clients are our heart, that we care surrounding them with a world of services"
- "Innovation is our Soul, reflected in a new improved version uploaded every day"
- "Our brain, a platform that is always working"
- "We are a team on each member has something to bring to you"
- "We act as shareholders, being honest, positive, humble and proactive for you"

2.AVAILABLE MODELS

The new TC models include all TravelC technology, patents, and features—no add-ons needed—for full digital quoting and increased online sales, with 3 models to choose from.

TC MASTER

The most advanced technology for selling travel with a customized front and back end. Includes hundreds of functionalities, 4 booking engines, all the options for uploading your product and up to 10 direct XML connections with suppliers and 25 more in consolidation. Ideal for small operators and start-ups.

TC PRO

It adds to all the solutions of the TCMaster model: 5 more engines, all the existing functionalities, unlimited connection of XML providers (+ 100) and the guarantee that all future innovations will be automatically included in this model. The best option for Tour Operators, OTAS and agency networks.

TC ALL IN

It includes all the functionalities of TC PRO, with a key difference: 9 booking engines at your disposal, including the Tripplanner engine. This innovative engine brings together the capabilities of four engines in one: Multidestination, Packages, Routing, and Cruises.

In addition, you will have access to the Insurance Engine. You will also benefit from WhatsApp Business Marketing, allowing you to create and send campaigns or events via WhatsApp, along with premium features such as Flexible Air Search (available with Amadeus) and Payment per Service.
