

Dream Big. Impact Bigger.

At Innovopro,

we inspire the creation of a sustainable world with tastier, healthier, and clean-label accessible food to transform the way we eat

Our Chickpea Protein Platform Leads the Way:

+ Sourced Locally

to reduce environmental transportation

+ Great to Farmers

Chickpeas are a rotational crop that enrich soil with nitrogen

+ Green CPG Products

Providing consumers with cleaner, more sustainable CPG products, with a focus on health and sustainability

+ Environmentally Friendly

Organic solvents-free; low water and energy footprint, zero waste plan by utilization of all streams and by-products

+ Quality Assurance

Our certifications include:

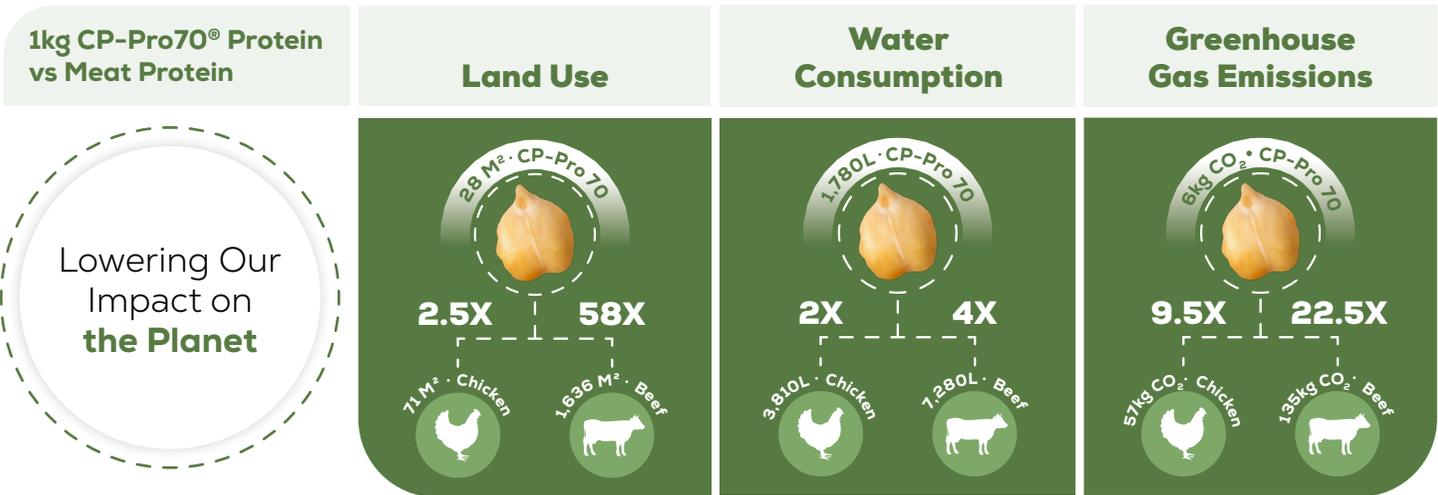

Self-Affirmed GRAS -

Generally recognized as safe ingredient

ISO 9001: 2015 -

the international standard for quality management

Non-GMO | Organic | Gluten-free | Kosher | Halal

Driving Sustainability: Beyond Slogans, Taking Actions:

Enabling **clean-label** food solutions with a **rich source of protein** for human diet

More than **60%** of Innovopro's employees are **female**

Enabling food manufacturers to provide consumers with **sustainable** products

Combating climate change by **lowering GHG emissions** by using selective farming practices, aiming towards zero-waste processing, and reducing ground and air transportation
