Description of the legal entity

Brz Termin Limited DOOEL is a North Macedonian healthcare AI and software SME developing practical digital tools for healthcare, pharmacies, clinics, pharmaceutical companies, wholesalers, medical representatives and business users. The company combines medical doctor expertise with software development, AI/LLM workflows, voice AI, document analysis, automation and healthcare workflow knowledge.

Key products and systems include medical AI assistants, LLM/voice assistants, AI assistants with vision/documents/memory, pharmacy and clinic workflow tools, and platformaotc.com, a B2B platform for pharmacies, wholesalers, pharmaceutical companies and medical representatives.

Description and expertise of the team

The team is led by Nace Atanasov, medical doctor and CEO. Brz Termin brings hands-on experience in healthcare workflows, AI/LLM automation, voice AI, document workflows, pharmacy/clinic digitalisation and medical representative workflows.

Core competencies

- Medical and healthcare workflow knowledge from clinical and field healthcare experience.
- AI/LLM agent design, custom GPT workflows, API-connected agents, Cloudflare Worker integrations and Resend-based email automation.
- Voice AI and medical assistant workflows for patient intake, history taking, document upload and doctor-facing summaries.
- AI assistants with vision, medical document understanding, patient-specific memory and web/WordPress interfaces.
- Pharmacy and wholesale B2B platform experience through platformaotc.com.
- Pilot access and dissemination capacity through contacts with doctors, pharmacies, private clinics, healthcare organisations, wholesalers and medical representatives in North Macedonia and the Western Balkans.

Potential role in a project

- ☒ Technology provider - AI/LLM/RAG workflow automation, software prototyping and integration
- ☒ Training partner - healthcare AI training and practical implementation workshops
- ☒ Pilot implementation partner - doctors, pharmacies, clinics and healthcare SMEs in North Macedonia
- ☒ Dissemination partner - Western Balkans outreach and stakeholder engagement
- ☐ Research institution
- ☐ Public administration

Proposed work package contributions

- Use-case definition for healthcare, pharmacy, regulatory/compliance and workflow automation pilots.
- AI/LLM and RAG-based prototype development for compliance workflows and healthcare documentation support.
- Practical training modules for medical professionals, IT staff, pharmacies and healthcare SMEs.
- Pilot validation, user feedback collection and local deployment support in North Macedonia and the Western Balkans.
- Support for data protection, cybersecurity, documentation, responsible AI and compliance deliverables with legal and technical partners.

Compliance and responsible AI positioning

Our systems are designed to support compliance with applicable regulatory and operational requirements, including data protection, privacy-by-design, secure access, auditability, responsible AI use, healthcare workflow governance and GDPR-aligned processing principles. For EU project work, Brz Termin can support data protection, cybersecurity, user validation, documentation, workflow governance and compliance-related deliverables together with the consortium legal, regulatory and technical partners.

Expertise / competence sought from consortium partners

- Coordinator experienced in Digital Europe proposal preparation and project management.
- Higher education, VET or healthcare training partners for DIGITAL-2026-SKILLS-10-DIGITAL-HEALTH-STEP.
- Public regulators, agencies or policy organisations for DIGITAL-2026-AI-DATA-10-COMPLIANCE.
- Health data authorities, interoperability experts, HL7/FHIR/EEHRxF specialists and EHDS stakeholders.
- Hospitals, clinics, medical centres, pharmacy organisations and healthcare SMEs willing to support pilots or training.
- Legal, data protection, cybersecurity and regulatory partners to ensure EU-level compliance and governance.

Other areas of interest for collaboration

- Medical AI, AI voice assistants and patient intake workflows.
- Digital health training, AI uptake in healthcare and healthcare workforce readiness.
- LLM/RAG compliance automation for healthcare, pharmacy, cosmetics and product documentation.
- EHDS, EEHRxF, interoperability and practical workflow pilots for health-data exchange.
- Pharmacy and wholesale digitalisation, medical representative workflows and healthcare SME automation.
- Western Balkans pilot deployment, dissemination and replication of EU digital health solutions.

Experience in EU funded projects

☐ Coordinator in EU funded projects

☐ Partner in EU funded projects

Brz Termin has registered in the EU Funding & Tenders Participant Register with PIC 863182243 and is seeking to join Digital Europe consortia as a partner. The company can contribute applied healthcare AI/software capacity, local pilot access and Western Balkans deployment support.
