BRUSSELS
29 SEPTEMBER – 01 OCTOBER

Call: HORIZON-MISS-2022-CANCER-01-02: Strengthening research capacities of Comprehensive Cancer Infrastructures

**Strengthen
the research capacities
of Comprehensive Cancer
Infrastructures**

Coordinator: OECI

**55 Partners
27 Member States
4 Associated Countries**

36 months

9 984 080 €

**As part of the Governance structure there will be a
“EU Actions Forum” bringing together coordinators
of key associated EU projects:
UNCAN, CRANE, JANE, and ECHOS**

5 years Cancer Mission: Stronger Through Connection

CCI A Comprehensive Cancer Infrastructure should also include public functions such as public health, screening, primary and community care, and population cancer registries.

CCN

Comprehensive Cancer Networks*
serve a defined population and consist of:

- Comprehensive Cancer Centres (CCC)
- Clinical Cancer Centres, individual cancer clinics
- Research Institutes and Universities
- Units of General Hospitals.
- Diagnostic units etc.

* Including Comprehensive Cancer Care Networks according to CraNE WP 6 (CCCN)

5 years Cancer Mission: Stronger Through Connection

Dimensions of Capacity Building

Individual

- Needs assessment
- Training
- Extending knowledge and competencies
- Processes for talent development and exchange

Institutional

- Needs assessment
- Gap analysis and identifying barriers
- Sharing excellent practices
- Building resources (data) and teams
- Changing corporate mindsets

Systemic

- Needs assessment
- Breaking down silos
- Bringing in outside expertise (twinning and teaming)
- Networking, governance and organisation
- Redesign of the system and sustainability

What changed?

- 1 Over 270 validated materials made freely available through the online Resource Centre.
- 2 300 experts (most under the age of 45) attended 3 regional conferences.
- 3 662 healthcare professionals trained through 10 online courses.
- 4 1,367 experts involved in reception of 10 expert consultancy Deep Dives.
- 5 40 clinicians and researchers completed international observerships.
- 6 10 cancer centres received tailored support through the Deep Dive programme, engaging 1,367 experts and local professionals. Across all centres, the average score increased from 32 to 46 points out of 100, with individual improvements ranging from 6 to 30 points between October 2024 and November 2025.
