

Seidelmann Yacht & Naval Architecture

naval architecture
project management
design, consulting
service representative of shipowners

POWERED SUN AWNING / BRISE SOLEIL

Sun Awning System operating under high windy conditions for offshore and onshore use.

Protection and shelter from all environmental influences, sun, wind, rain and corrosion.

The innovative design of Seidelmann-Yacht shading system is unparalleled and ensures undisturbed comfort even in strong wind loads (up to 8 BFT / 62 km/h).

„With the focus on not only the solid design but
on the tight control“

Inventor and Designer
Dipl.-Ing. Volker Seidelmann
Naval-Architect

Bundesministerium
für Bildung
und Forschung

We have been awarded the BSFZ seal for our innovative competence as a research and development company.

Seidelmann-Yacht Sun Awning System is protected by the German and the European Patents offices.
