

# VIZBL

Surgical Helmet System  
for Joint Replacement Surgeons

Surgical Helmet

Vizbl, the world's lightest surgical helmet system is designed & Made-In-India. It is engineered for maximum comfort and AAMI Level 3 protection for the surgeon & patient.

### 40% Lighter

Vizbl is 40% or 200 gms lighter in comparison to competition. This ensures lower stress on cervical spine during long surgeries.

### 50% Lower Capital Expenditure

Vizbl eliminates the need for expensive custom Li-ion battery and charging units. Any off-the-shelf 10,000+ mAh power bank, can power Vizbl for 10 hours.

### Delivers 540 lpm Airflow

Vizbl delivers 540 liters per min airflow. The airflow in the high performance, Ultra low-noise fans is variable for user comfort.

## No Chin-bar design

By eliminating chin-bar, we have maximized surgeon's range of neck movement. The patented visor fixation method creates 190° view-angle, enabling peripheral vision.

## AAMI Level 3 protection

Vizbl Surgical hood meets AAMI Level 3 protection standards, providing maximum protection to Surgeon & Patient.

## Ergonomic design delivers great comfort

Vizbl's ergonomic design ensures great balance & comfort, while retaining the natural Center of Gravity (COG). Two-way head band controls ensure firm & comfortable seating.

**Surgical Helmet With LED Light**

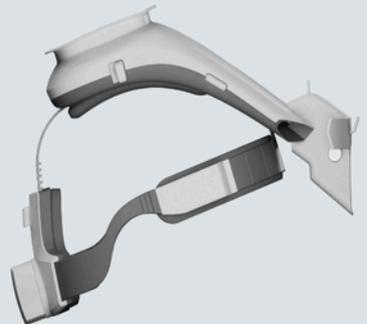

### **High-Performance LED Technology**

Precise 100,000 lux illumination achieved through Advanced LED Refractive technology with 24 ° beam angle & 4- step intensity control. LED is placed in the blind spot enhanced comfort.

### **Long-Lasting and Efficient**

Up to 5 hours of battery life at maximum brightness and over 50,000 hours of LED lifespan for reliable surgical use.

### **Superior Color Accuracy**

With a color temperature of 4300 – 5300K and a Colour Rendering Index > 93, the LED ensures accurate color representation for Surgical procedures.

## Testimonials

Vizbl Surgical helmet is well balanced and sits well on the head. I was comfortable with the weight and airflow even after 3 hours bilateral surgery.

**Dr. Sanjay Londhe, Criticare, Mumbai.**

Vizbl Surgical helmet System is immensely quiet and lightweight. These helmets have very good airflow system, keep the surgeon cool and helps them to perform surgeries with ease.

I recommend Vizbl to all Orthopedic Surgeons in my network.

**Dr. Vividh Makhwana, Apex Hospital, Mumbai.**

Vizbl's no-chin bar ergonomic design and significantly lower capital expenses, makes it attractive.

Overall its product performance is excellent.

**Dr. Sutanu Hazra, AMRI, Mukundapur, Kolkata.**
