

# Dropper

Enhance your spaces with AI people counters

**Domenico Galdiero**  
CEO & CO-FOUNDER

**Hidden problem**

**Huge cost**

# The Problem

---

**Way to get important KPI about  
space occupancy in real time**

# The Problem

---

**Way to get important KPI about  
space occupancy in real time**

# The Problem

---

## CORPORATE

20%

**Empty sitting**  
in offices for more than  
a third of working hours

30%

**Energy wasted**  
in relation to the  
energy consumed

# The Problem

---

## RETAIL

Manage store layout

Analyse conversion rate

# The Problem

---

## RETAIL

Manage store layout

Analyse conversion rate

**Non automated solutions**

**Each problem**

**Specific solution**

# Our Solution

---

## Space monitoring IoT sensors

**Anonymous** sensors by design  
that monitor flows  
and room utilization

## Personal Dashboard

**Visualization** of real-time data  
through graphs  
and heat maps

# Personal Dashboard

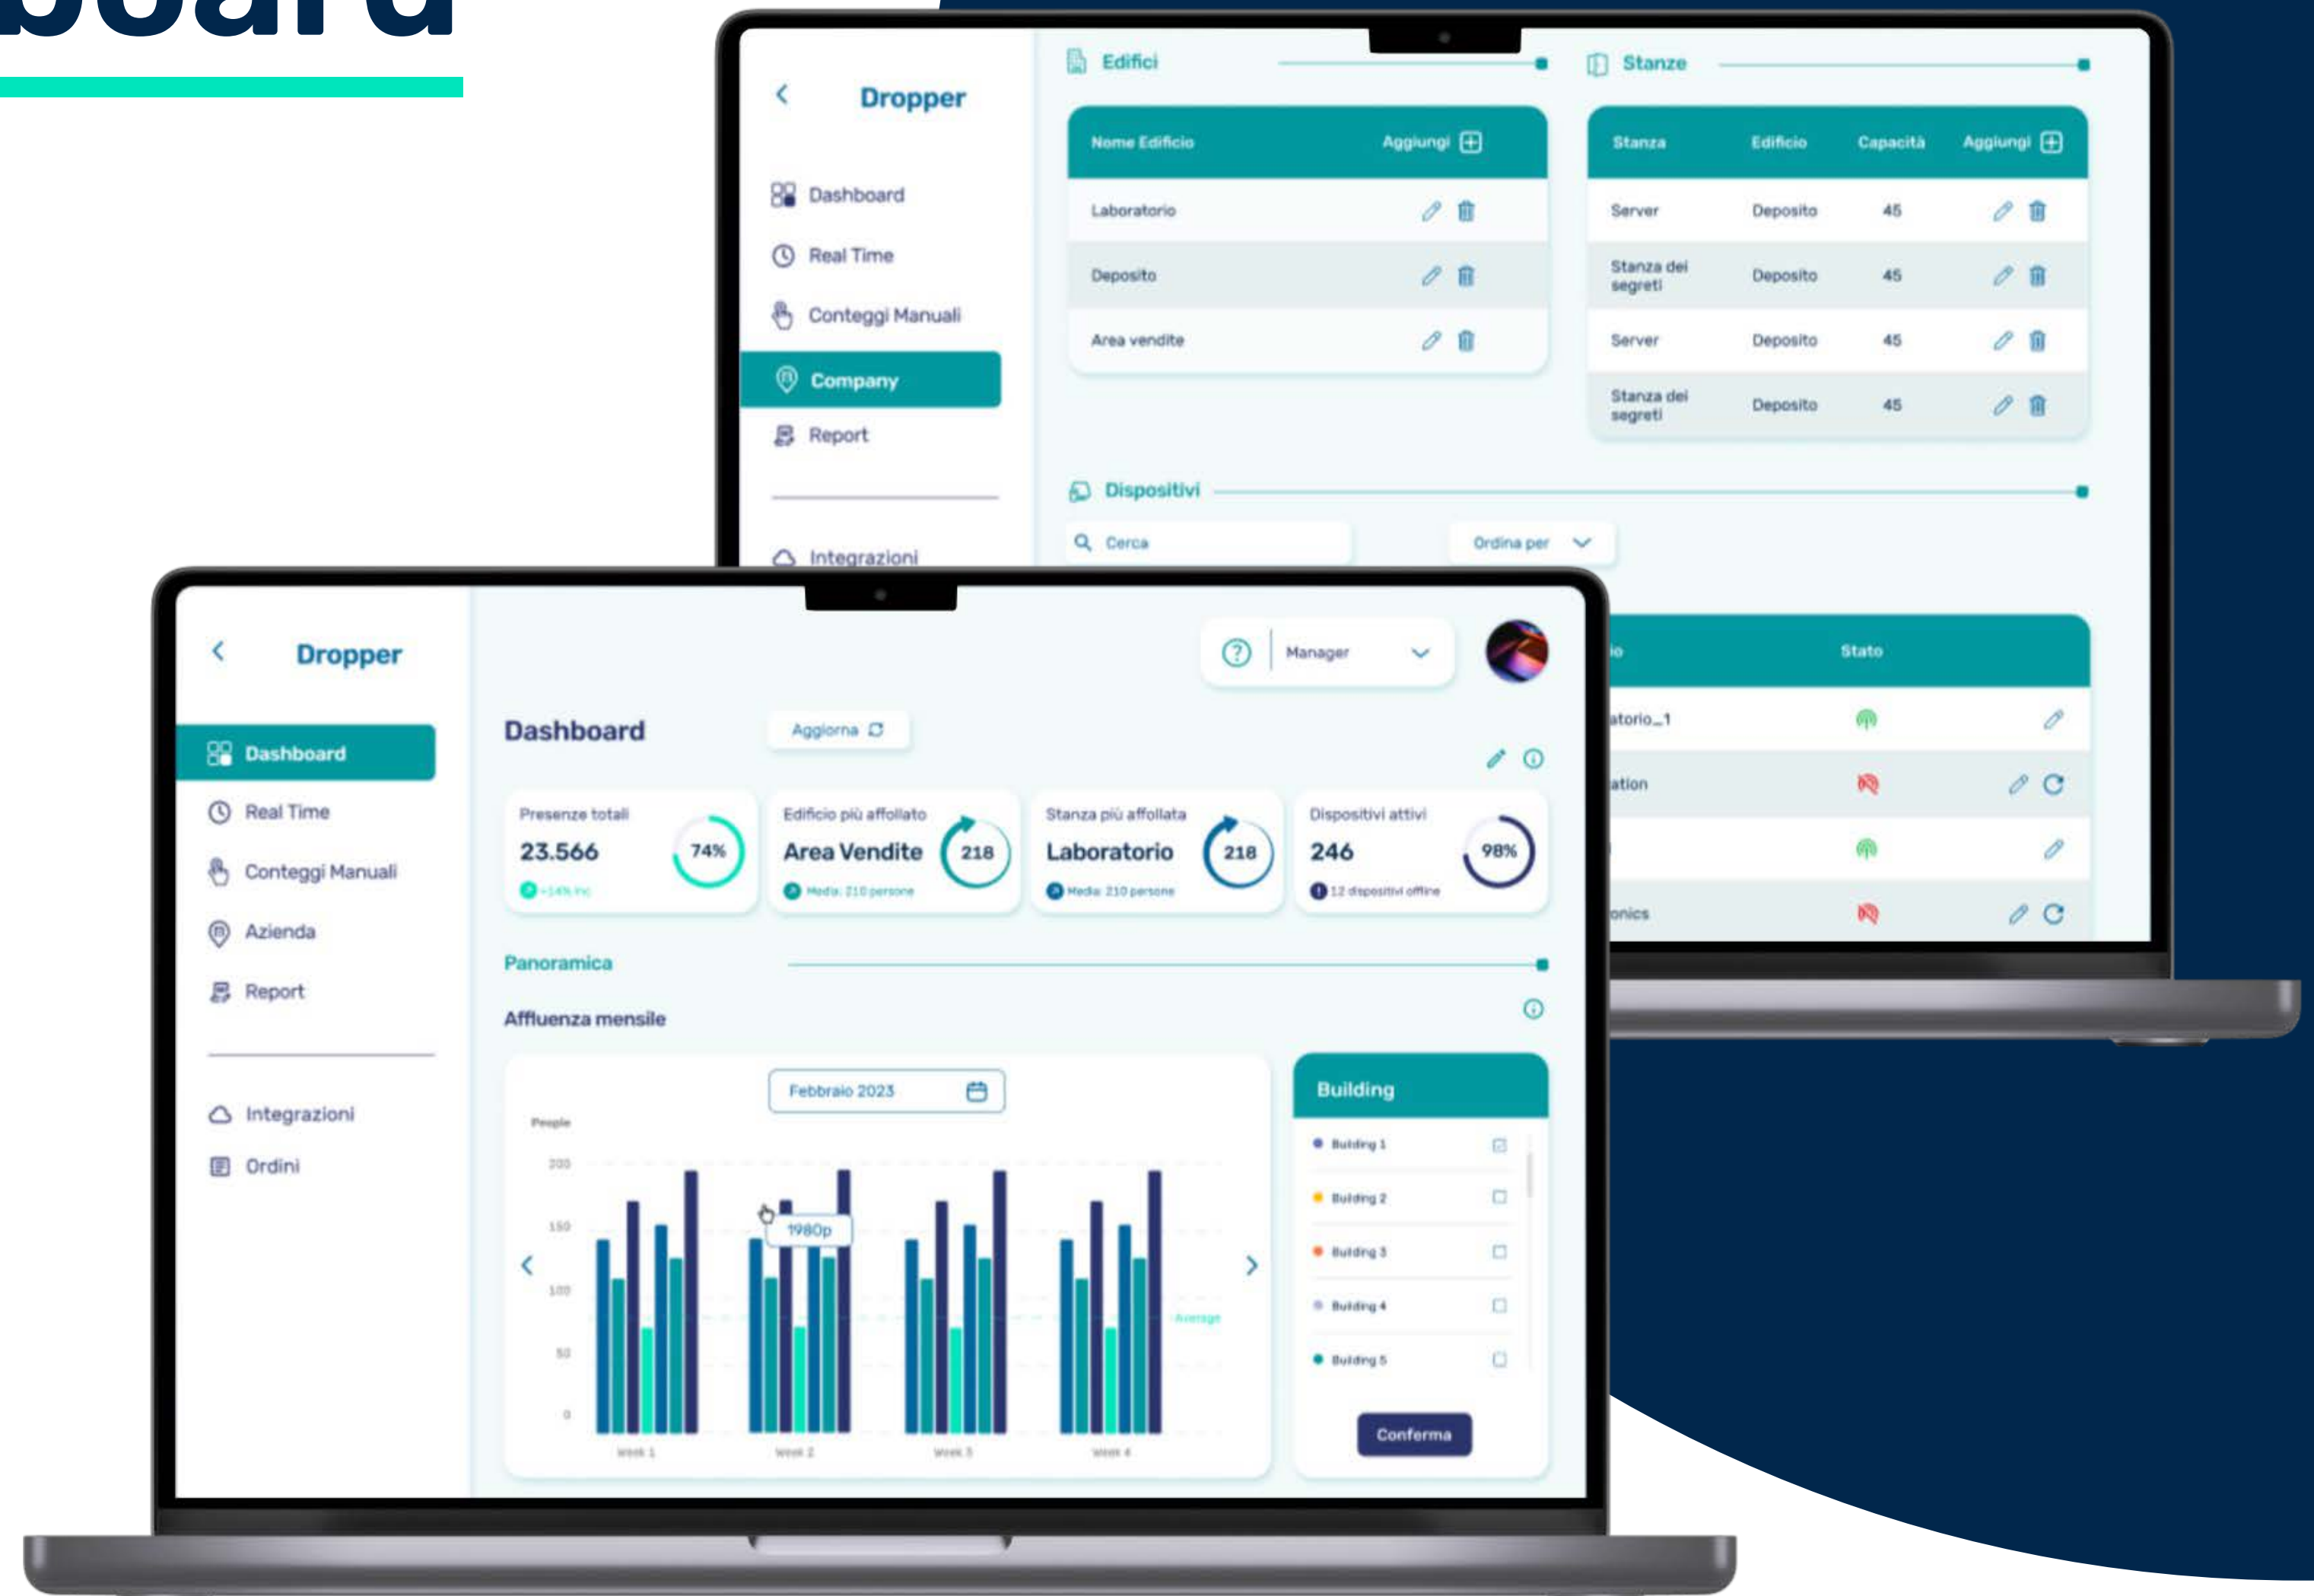

We give your data a meaningful aspect

**Understand trends**

**Optimize resources**

# Our Devices

---

**Mm Waves**  
**TRL 8**

**ToF**  
**TRL 9**

**Sniffer Wi-Fi**  
**TRL 9**

# Privacy Protection

---

**No cameras**

**Anonymous data only**

# Smart Cities - Torino

**Flow management  
for security**

**Monitoring of nightlife  
and noise pollution**

**Analysis of  
space filling**

**Observation of  
occupancy time**

**Counting people  
in real time**

**Understanding of the  
most frequent routes**

# Smart Offices - Real Use Case

Optimisation of  
energy consumption

Improvement of  
space management

Future forecasts  
on occupancy

Observation of  
occupancy time

Evaluation of the change  
of data over time

Times of highest  
attendance of people

**14,5%** Savable energy

35.840,2561 kWh out of a total of 247.174,18 kWh

**20%** Optimisable space

389 mq out of a total of 1947 mq

# Public transport - Horizon Project

Metrics to optimize public transport

Sniffer sensor installation on bus and bus stop

Most frequent routes

People standing at bus stops

People going up and down  
at bus stops

Flow analysis through departure  
and arrival matrix

Number of people  
on board

# Our Team

## Administration & Governance

### **Domenico Galdiero**

#### **CEO & CTO**

Electronic Engineer  
Graduated @ Politecnico di Torino  
3+ yrs experience in startups

**85% ownership**

### **Alessandro Severini**

#### **Co-Founder & CMO**

Designer - Founder of Felfil  
Reached 1M revenues  
8+ yrs experience in startup

**15% ownership**

## Research & Development

### **Alessandro Dell'Atti**

#### **R&D Engineer**

Mechanical Engineer  
3D Printing production  
3+ yrs experience in product startup

### **Raffaele Mattera, Ph.D**

#### **Head of Data Science & AI**

Senior Assistant Professor  
University of Rome - Sapienza  
LUISS Guido Carli  
Expert in prediction techniques  
Top 3% young scholars
