RITAUSMAS STEEL CONSTRUCTIONS COMPANY PROFILE

Historically, the company's employees (management and administration) have had a significant experience in large-scale production and construction projects, as well as in the supply of large-scale rolled metal to Scandinavian consumers, including full cycle: purchasing, freight shipping, insurance and unloading on customers' site. The expertise which gives an ultimate advantage in delivering services and finding best solutions for the most complex projects.

RITAUSMAS STEEL CONSTRUCTIONS COMPANY PROFILE

Today Ritausmas Steel Constructions mainly focuses on small/medium sized projects in such industries as: construction, civil engineering, ground engineering, shipbuilding, machining and oil&gas. Predominantly the company supplies various laser/plasma cutted steel parts, bended as well as welded parts such as (handrails, balustrades, balconies, top plates & rock shoes for piling, staircases, fences, noise barriers etc.) Company also is a trusted supplier of various rolled metal products to its clients: plates, beams, angles, RHS, bars etc. of various thickness and grades.

WAREHOUSE, OFFICE AND PRODUCTION FACILITIES

METALWORKING EQUIPMENT

Press brake Bystronic PR400/6200

Thickness up to 15mm
Length up to 6000mm
Power 400tns

Gas/Plasma cutting & drilling machine MGM Omnicut MS300

Thickness up to 220mm
Width up to 4m
Length up to 27m
Drilling up to 50mm

CNC 3D&2D pipe/profile cutting, drilling&threading machine Omnicut MS300

Pipe/profile length up to 12000mm
Pipe diameter up to 500mm
Wall thickness up to 50mm
Drilling&threading up to 50mm thick material

Laser cutting machine Bystronic Bystar 4025

Width up to 2500mm
Length up to 6500mm
Power 6kW

Laser cutting machine Trumpf TruLaser 5030 Classic

Thickness up to 25mm
Width up to 1500mm
Length up to 3000mm
Power 5000Wt

Welding robot Fanuc M710iC/12L

Load capacity up to 12kg
Reach up to 3123mm
Axis robot 6
