Universidad de Alicante

The largest innovation
ecosystem in the
province of Alicante

The Science Park of Alicante, promoted by the **University of Alicante**, is an ecosystem of business excellence specifically designed for **knowledge-intensive companies**. A space aimed at generating and providing the necessary conditions for these companies to enjoy a series of value-added services closely linked to the educational and research activities carried out at UA.

Misión

Our mission is to promote innovation, research, and scientific and technological development by providing a conducive environment for interaction and collaboration among companies, academic institutions, entrepreneurs, and other knowledge agents.

Our main dedication is to promote economic and social progress by fostering UA's talent, supporting the development of innovative companies, and generating solutions that contribute to the advancement of society and the strengthening of business competitiveness in our province and beyond.

Fosters collaboration among businesses, academia, entrepreneurs, and knowledge agents to drive scientific and technological advancement.

Promoting economic and social progress by fostering the talent of the UA.

Supporting the development of innovative companies.

The generation of solutions that contribute to the advancement of society and the strengthening of business competitiveness.

#EcosystemPCA

The Scientific Park of Alicante continues to expand, boasting

44 companies

across key sectors like Biotechnology, ICT, Sustainability, and Health.

Promoting R+D+I

Services to #ecosystemPCA
companies

One of our objectives is to promote the **transfer of knowledge** between the University of Alicante and companies in the productive fabric of Alicante. In addition, we try to boost the innovation processes of these companies by connecting them with innovative companies in the #ecosistemaPCA.

In this sense, the PCA regularly organises meetings with companies from traditional sectors in the province of Alicante to support them in their innovation processes by **seeking synergies with innovative companies from the PCA or UA research groups**.

Open innovation

Services to #ecosystemPCA
companies

One of the main value-added services offered by the PCA to companies linked to its ecosystem is participation in programmes that foster open innovation.

Multisectoral open innovation initiative promoted by the **Network of Valencian Science Parks**.

The aim of this programme is to promote innovation in key economic sectors for the Valencian Community.

Entrepreneurs

The PCA actively participates in ua:emprende, the University of Alicante's programme for the promotion of innovative, science and technology-based entrepreneurship. Promoted by the Vice-Rectorate for Scientific Transfer, Innovation and Dissemination and the Vice-Rectorate for Students and Employability, it seeks to promote the creation of innovative and sustainable companies arising from the talent of the UA, both its researchers and students and graduates.

LEAN CT

We participate in UA programmes such as **LEAN CT** or **DoeactUA** that, edition after edition, train entrepreneurs who are the breeding ground for future startups joining our ecosystem.

From the PCA we lead the participation in the state entrepreneurship programme **Aptenisa**, organised by the Association of Science and Technology Parks of Spain (**APTE**) and the National Innovation Company (**ENISA**). The aim of this initiative is business ideation and acceleration, support for entrepreneurship from the initial idea to the acceleration phase, validation of the business model and possible incorporation of the company.

Territory Connected

Territory Connected is a **space for interaction between different actors** to share knowledge, infrastructures and contacts with the aim of promoting the professional and business development of the participating entities.

In the first event of this programme, held on 30 June 2023, the different possibilities for companies to favour their innovation processes were analysed. The event was attended by more than 40 companies and innovation managers from leading international multinationals such as Nestlé, Capsa Foods and Elewit.

Testimonials

What do CEOs of startups and established companies value about being part of the #ecosystemPCA?

"Our commitment to innovation drives us to work in environments such as the one offered by the Alicante Science Park".

Nacho Valor, CEO Suez Air Climate

The PCA is the ideal place for a company to be as a link to the AU.

Ángel Pineda, CEO Orizon

The PCA is a common thread with the AU that allows us to be linked to research, a natural space for our activity.

Isidro Fernández, CEO Bumerania

The PCA gives us the opportunity to be part of an ecosystem, to have contact with other entrepreneurs and to have access to the university's own services.
