

How to get from Prague airport to your hotel?

There are three ways:

1. **Public transport**
2. **Airport Express (shuttle bus)**
3. **Taxi**

Public transport

The connection between Prague Airport and Prague city centre is provided by public transport bus lines operating at regular intervals of just a few minutes. Bus stops are located directly in front of the terminals.

For the fastest journey to Prague city centre by public transport, we recommend taking trolleybus no. 59 (Terminal 1/Terminal 2 - Nádraží Veleslavín) and then changing to Metro Line A.

Public transport bus services are subject to standard Prague Public Transport fares, including prepaid passes. Bus journeys do not need to be booked in advance. Passengers must purchase a ticket before boarding. Prague Airport is not the provider of this service.

NOTE:

The Prague metro operates daily from approximately 5:00 a.m. to midnight. After midnight, night trams and night buses operate instead. We recommend using the official PID Lítačka app for public transport in Prague. The app is available in English and allows

you to buy tickets, search for connections, and check current transport information. More info about the app below.

Airport Express (AE) Bus

There is also the **Airport Express (AE) Bus**: A direct, slightly higher-cost, specialized bus that goes to the Main Train Station (Hlavní nádraží). The AE is a **convenient and affordable compromise between a taxi and public transport**. This service only costs **100 CZK** per person; luggage is free of charge. The tickets are available in the arrival halls (go to the Visitor centre) or get the ticket on the bus. AE buses are running every 30 minutes from / to the airport and it's a direct connection. The whole ride takes approx. 40 minutes. In operation between 5:30 AM – 9 PM. In the opposite direction (city centre to the airport) between 5:30 AM – 10 PM. **The AE bus stop is in front of the Terminal 1.**

Airport Express is a good compromise between taxi and public transport. This shuttle bus will take you directly to Prague Main Train Station.

Purchasing Tickets and best app to use PID LITACKA

Public transport tickets must be purchased in advance before the passenger boards the bus. Tickets are sold in the Visitor Centre, at the Prague Public Transit company counters in Arrival Halls, or from ticket vending machines located throughout both terminals and directly at bus stops. Most ticket machines accept contactless credit card payments. Tickets can also be purchased via SMS or the Lítačka mobile app, which can be also used to search for the ideal public transport connection. The application is available for Android and iOS.

QR codes for downloading the "PID Lítačka" application to a mobile device

How to use it:

1. Download the **PID Lítačka** app.
2. Open **Tickets / Buy ticket (Prague)**.
3. Choose the ticket type and pay by card.
4. **Activate the ticket before boarding** public transport - or buy it in advance and activate it manually later.
5. If checked, show the **QR code** in the app.

You do not need to register to buy a single ticket.

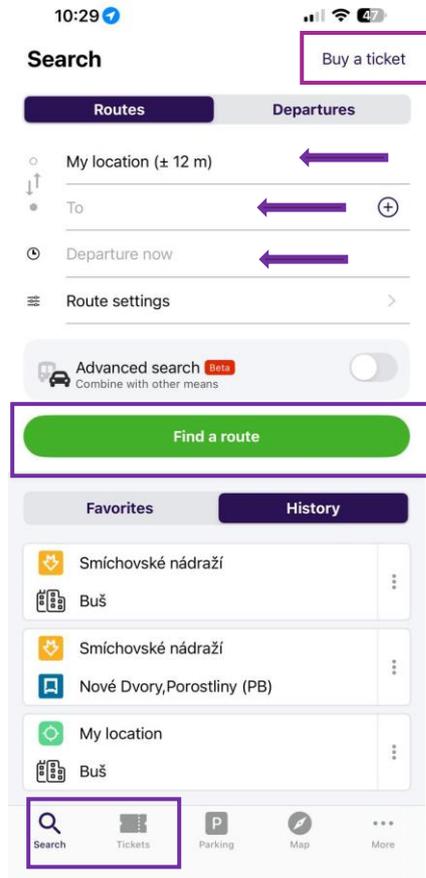

One important detail - and yes, this is exactly the kind of tiny thing that can ruin an otherwise noble tourist moment - you need an **internet connection to activate the ticket**, and activation cannot be undone. The app also allows you to buy multiple identical tickets at once.

It is also good for visitors to know that:

- **SMS tickets are not suitable for foreigners**, because they only work with Czech mobile operators.
- In Prague, **regular tickets are usually not bought from the driver** - except on some special routes.
- PID Lítačka is the official app for **metro, trams, buses, and some trains within the PID system**.

In simple terms:

download the app, buy the ticket, activate it before the ride, and show the QR code if asked. Done.

Taxi

In Prague, if you need a taxi, we recommend using ride-hailing apps such as [UBER](#), [Bolt](#) or [Liftago](#). UBER is currently the official taxi service at Prague Airport. Their branded Uber Airport cars are available directly in front of the terminal halls. If you do not have the app, you can also use the self-service UBER kiosks located in both arrival halls and pay for your ride by card.

As in many major cities, using official apps or pre-booked services is generally the safest way to avoid unnecessarily high fares that may sometimes be charged to tourists. However, regular taxis are also an option for those who prefer this type of transport.

UBER kiosks in the arrival hall – here you can book your ride even if you don't have UBER account. The cars are standing 2 minute away from this spot.
