Opportunity Upload and Investor-Matching Form

For participating LGUs, IPAs and project proponents

Complete one form for every opportunity to be uploaded. The submission may be a specific project or a defined investment location (e.g., economic zone, industrial estate or investment-ready site). A city or province alone is not an opportunity unless a specific site and investor offering are identified.

IMPORTANT REMINDERS

- ☐ Complete one form for each opportunity to be uploaded.
- ☐ Present a specific project or a defined investment location/site with a clear investor offering.
- ☐ Register under only one participant type: Investor, Project Owner or Service Provider.
- ☐ Use the same email address used for the Summit registration and provide a mobile number with country code.
- ☐ Add at least one opportunity and complete all required platform fields for profile activation.
- ☐ Ensure all descriptions, figures, files, photos and links are current, accurate and cleared for circulation.
- ☐ Review the completed form before posting, then select "Show on the organization page" and "Create the opportunity."

PARTICIPATION REGISTRATION TYPE:

The Province seeks a private partner to rehabilitate, modernize, operate, and maintain the Sports Complex under a long-term PPP.

5. Full description - platform field

Recommended structure: opportunity/need; proposed development and scale; location advantages; estimated cost or offering; revenue/commercial model; readiness; and specific partner sought.

The Province of Surigao del Sur seeks a qualified private partner/investor to finance, rehabilitate, modernize, develop, operate, and maintain the Provincial Sports Complex under a long-term PPP arrangement, leveraging its strategic location, established public demand, and potential for sustainable sports, events, commercial, and ancillary revenue generation.

B. Platform filters**6. Project stage**

Mark the platform option that most closely reflects the current status, then give one proof of readiness.

{Example: Planning - land control confirmed; utility-capacity validation ongoing.}}

☐ Early ☒ Planning ☐ Execution

7. Type of cooperation sought

Mark all relevant platform options. Use the matching section on page 2 to describe the exact partner requirement.

{Example: Financing; Technical; Sales/Distribution}

☐ Research ☒ Technical
☐ Sales / Distribution ☒ Financing

C. Information for investor matching**8. What sector or industry should be matched?**

Identify the primary sector/subsector and, for a location, the priority industries or desired locators.

Social Infrastructure – Sports, Recreation, Community and Disaster-Resilience Facilities

9. What type of counterpart do you want to meet?

Examples: equity investor, lender, master developer, EPC contractor, operator, technology provider, buyer/offtaker, anchor tenant, locator or professional adviser.

Master developer and operator, with capacity to provide project financing/equity investment.

10. What capital, technology, market access or capability is required?

State the amount of financing, technical capability, equipment, operating experience, market channel, offtake requirement or other contribution sought.

Capital, technical expertise, sports facility equipment, and operating capability are required, including project financing/equity investment, design and construction expertise, modern sports equipment and facilities, and experienced operations and maintenance management.

11. What is being offered to the prospective partner?

Project: equity/JV/concession/contract/revenue opportunity. Location: land or space available, lease/sale/JV/development terms, infrastructure, incentives and services.

The Province offers the existing Sports Complex site as its public-sector contribution, while the private partner may provide financing, rehabilitation, modernization, operation and maintenance, and commercial development in exchange for agreed revenue opportunities under the PPP arrangement.

12. What are the three strongest reasons to match with this opportunity?

Use evidence: land control, strategic access, resources/feedstock, market demand, anchor users, utilities, incentives, existing assets or approvals.

Strategic government-controlled site, established sports and community users, and strong potential for long-term PPP revenues through events, facility rentals, training, and ancillary commercial activities.
