SIGMA Cloud

Who We Are?

Sigma ITID company was founded in 2004 in Iran. During 15 years of activity, Sigma mainly focused on design, development and deployment of enterprise portals, online services and cloud computing products and services.
We helped 150+ large organization and companies in telecommunication, banking, payment and governments industries to achieve their goals.
Having offices in EU (Nimsa Srl, Italy) and partnership with global leaders help us to complete our portfolio and customer diversity.
