

The **TACT** Company provides **the production of precise machinery products and technological units:**

- Spare parts for production lines
- Technological assemblies for production lines
- Assembly jigs and fixtures for production
- Single-purpose technological equipment

The **TACT** Company unites and represents **small and medium-size** producers specialized in **machinery production** on the Považie region, which is historically the **most powerful industrial territory in Slovakia.**

The **TACT** Company, **cooperating closely** with mentioned range of companies, knows the **strong points** of each of them and based on them provides their **proper capacity workload.**

By this virtue, the customer gains:

- A high-quality production for an acceptable goods value
- Flexible production capacity
- Communication in English or German
- Uniform packaging and marking in accordance with request

The TACT Company offers to you:

- Turning - up to a length of 4 000mm
- Milling - 3 axes up to 4 000mm, 4 axes up to 1 000mm, 5 axes up to 500mm
- Surface- and rotational grinding
- Boring and drilling, incl. deep drilling
- Manufacturing of gearings
- Electro-erosion (wire) cutting
- Welding - CO2 and TIG up to 3 500kg
- Heat treatment
- Surface treatments (chemical, electrochemical and galvanic)
- Polyurethane- and rubber-coated surfaces
- Wet and powder coat painting
- Material partitioning and sheet profiling (laser, plasma and chiselling machine)
- 3D-measuring
- Assembly

Material machining possibilities:

- Structural and tool steel
- Stainless steel
- Non-ferrous metals
- Technical plastic materials

Guarantees of quality:

- Production management in accordance with ISO 9001
- Material origin certificates
- Heat treatment certificates
- Measurement protocols by calibrated gauges
- Transportation by international forwarding companies

Furthermore, we offer **the establishment and maintaining of consignment stocks** for spare parts and **express transportation** with own vehicles for your urgent offers.

We are able to process your requests from drawing documentation in **.jpg .tif .pdf .dwg** formats, or eventually to provide pricing and production pursuant to a **specimen part** (new one or used).

Should you have any questions, do not hesitate to contact us.
