OUR VISION

Syreon Research Institute is an independent organization striving to enhance *evidence-based research* and decision-making *in healthcare and nutrition science* through multistakeholder collaborations, on at the local, European, and global levels.
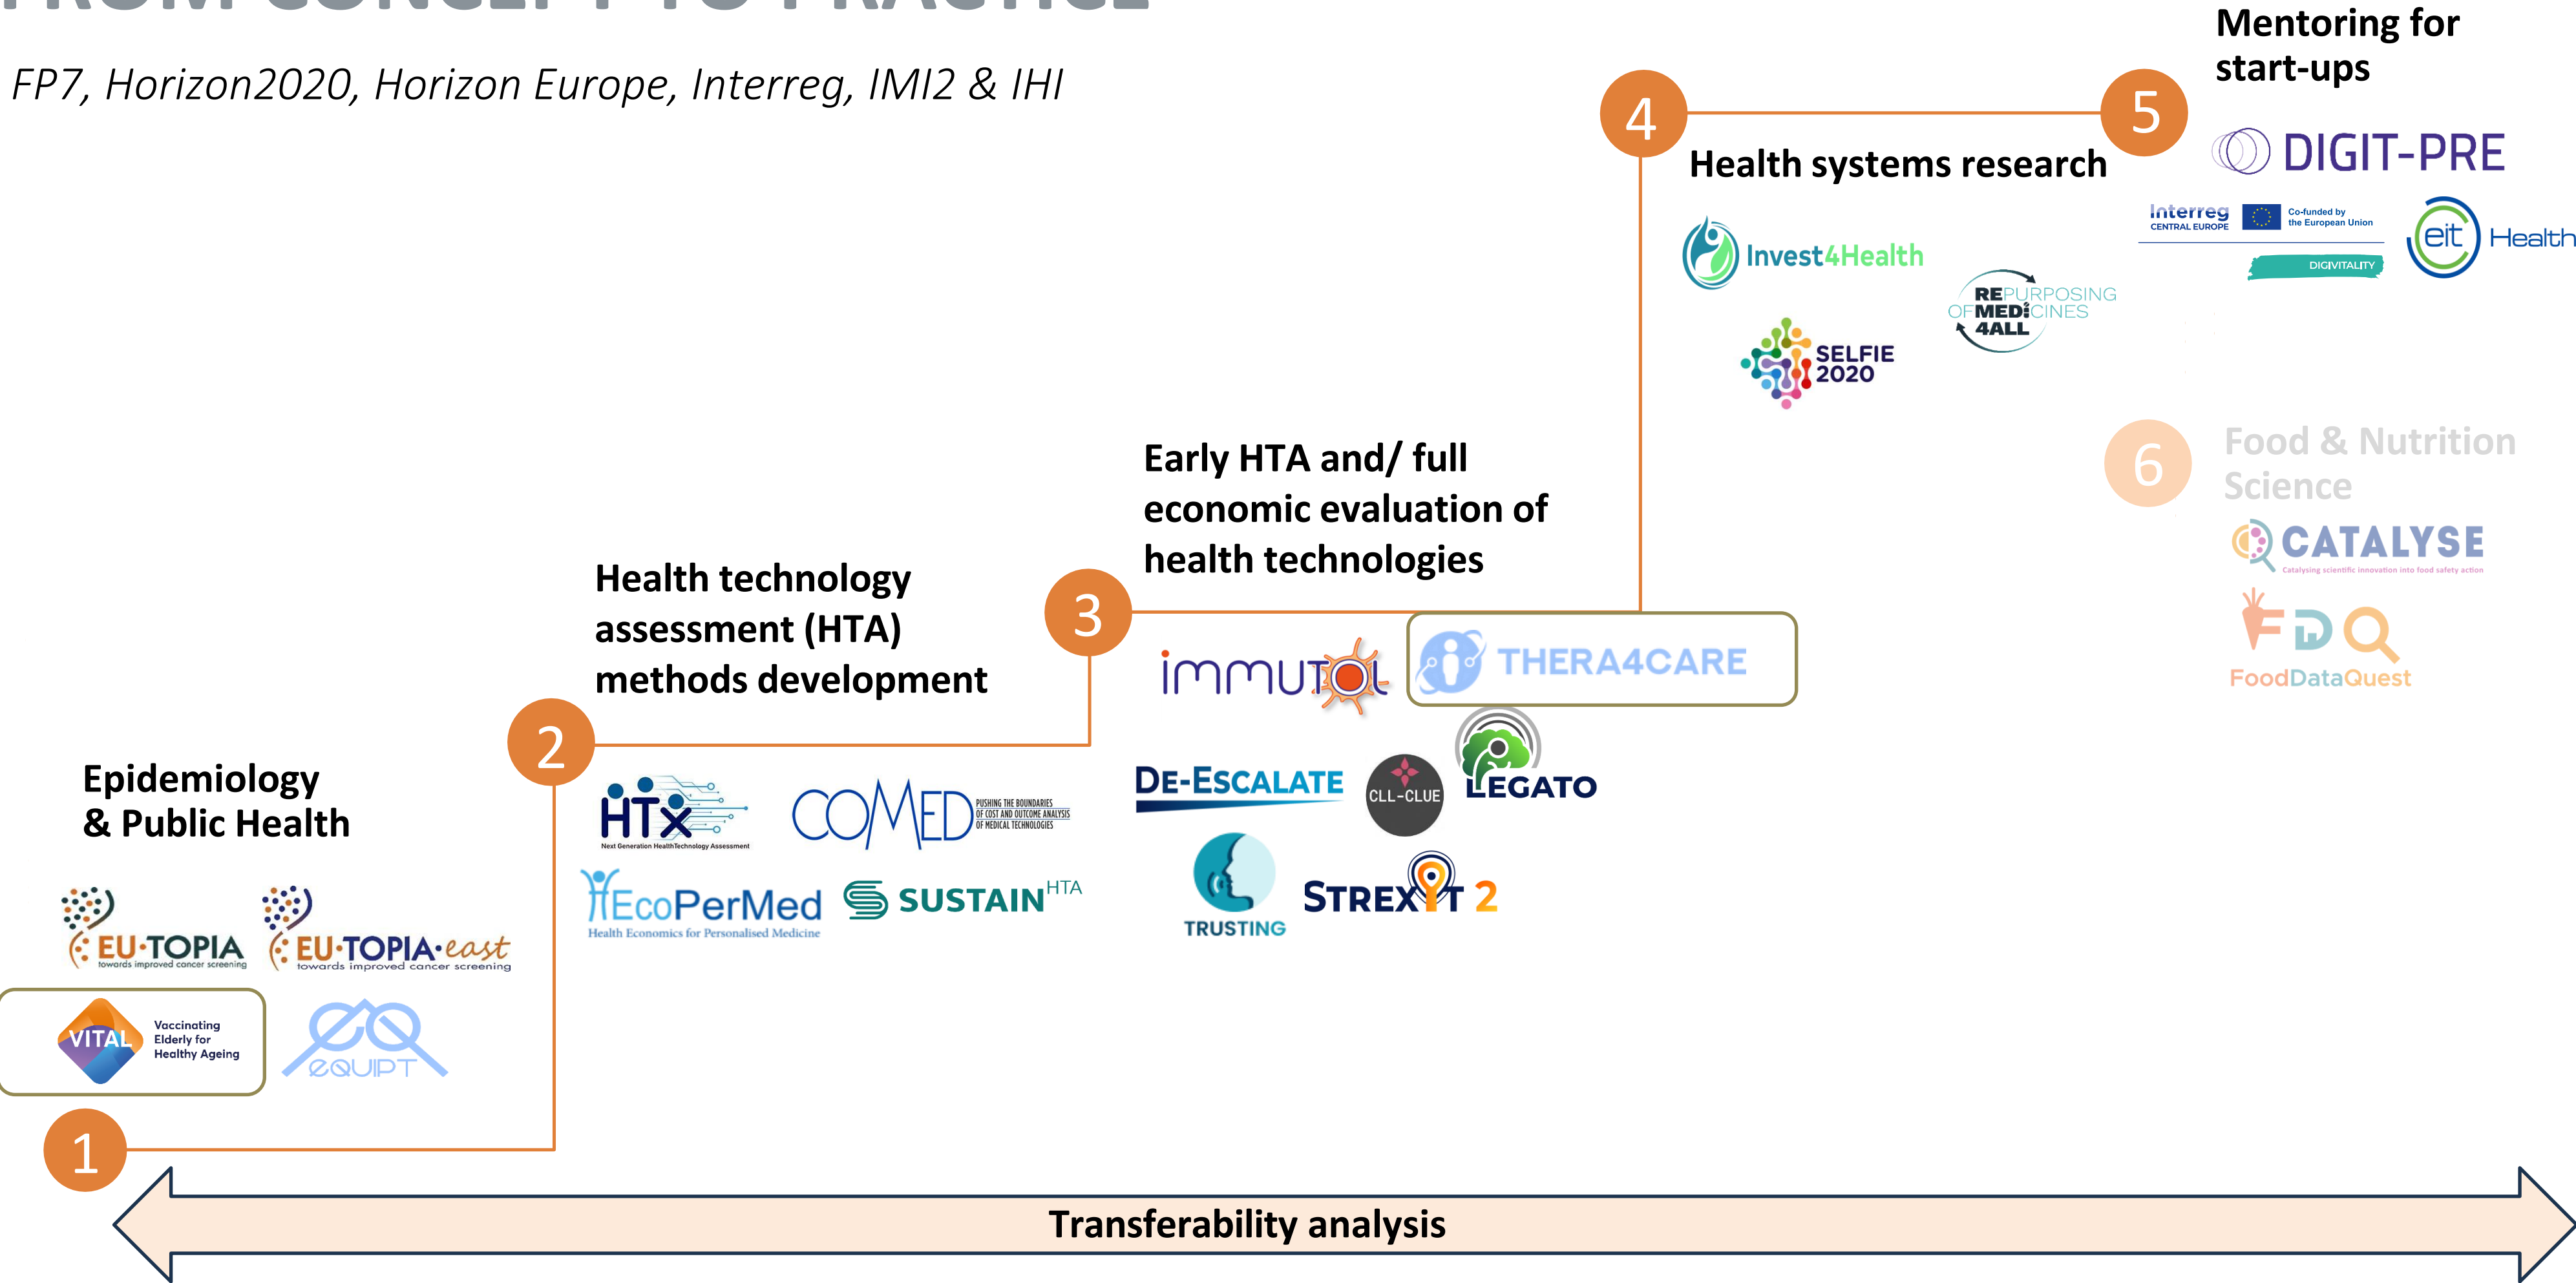

ABOUT US

- Syreon Researched Institute is located in Budapest Hungary
- Has affiliates in Canada, Egypt, Romania and Ghana
- SME: 55 Headcount Including 21 academic researchers (16 postdocs and 5 PhD students)

FROM CONCEPT TO PRACTICE

FP7, Horizon2020, Horizon Europe, Interreg, IMI2 & IHI

5 **Mentoring for start-ups**

4 **Health systems research**

Early HTA and/ full economic evaluation of health technologies

3

Health technology assessment (HTA) methods development

2

6 Food & Nutrition Science

Epidemiology & Public Health

1

Transferability analysis

LOOKING FOR POTENTIAL PARTNERS

- We are looking for potential Academic, Industry, NGO partners to conduct joint explorative research in following areas:
  - Topic 3: Boosting innovation for peopled centred integrated healthcare solutions
  - Topic 4: Boosting innovation through exploitation of digitalisation and data exchange in healthcare
  - Topic 5: Boosting innovation for better assessment of the added value of innovative integrated healthcare solutions
- Our objective is to support IHI to achieve the Quadruple Aim:
  - i.e. improving patient care experience, population health, healthcare provider experience and potentially reducing per capita healthcare costs
  - by leading one WP and offer our contribution as funded academic partner to WPs

EVIDENCE BASED, TRANSPARENT AND TAILORED SOLUTIONS

Economic Evaluation

Importance
- Crucial for optimizing resource allocation, ensuring cost-effective treatments, and improving overall healthcare outcomes by assessing the value of interventions relative to their costs

Actions
- Defining target product profile and target patient population
- Developing value framework and model concept
- Developing and validating health economic modeld (CEA, BIM, NPV), and adapting them to target countries

Results
- Supports funding (payer) and market entry (internal) decisions

References
- WP leadership in 12 FP7/Horizon/IMI/IHI projects

Transferability Assessment

Importance
- Key for assessing the methods, data, results, evidence and implications of various evaluations across jurisdictions in Europe

Actions
- Definition of country archetypes
- Exploring the relationship between context-specific factors and the parameters of analysis
- Proposing tailored implementation strategies according to country archetypes

Results
- Supports the implementation of technologies in countries not target of primary research

References
- WP leadership in 4 FP7/Horizon/IMI/IHI projects

EVIDENCE BASED, TRANSPARENT AND TAILORED SOLUTIONS

Project Sustainability

Importance
- Secures the ability of a project to maintain its outcomes, impact, and benefits over time, even after the initial funding or support ends

Actions
- Sustainability Assessment and Planning
- Identification Partners, co-development of Actions
- Extending the scope to Environmental sustainability

Results
- By securing solid Community, Financial and Organizational foundations, the Project is up and running after Project close

References
- Contribution/guidance provided in 2 IHI Proposals

Communication /Dissemination

Importance
- Sharing findings, advancing knowledge, and ensuring that research outcomes inform practice, policy, and future studies

Actions
- Communication, dissemination and exploitation plan
- Project branding and website
- Use of social media

Results
- Increased visibility/acceptance of the project
- Sharing results with key target groups

References
- WP leadership in 5 FP7/Horizon/IMI/IHI projects
