Industrial Packing Solutions, a TAP Group company

With operations across Europe, the TAP Group strengthens its position as a leading provider of industrial solutions. Through its subsidiary IPS (Industrial Packing Solutions), TAP designs and supplies both standard and tailor-made packing solutions that perfectly match its clients' specific requirements. This strong European presence enables IPS to effectively address logistics and storage challenges, while leveraging the TAP Group's extensive network and expertise to deliver reliable, high-performance solutions throughout the continent.

Standard and Custom Packaging Solutions

IPS (Industrial Packing Solutions), a subsidiary of the TAP Group, is your trusted partner for all your industrial packing needs. We understand your challenges and provide reliable, high-performance solutions tailored to your specific requirements.

Our range of standard products—including manuracks, roll containers, wooden pallets and plastic spill containment trays—is designed to meet the highest standards of strength and practicality. Each piece of equipment is engineered to simplify logistics, optimize storage space and protect your goods efficiently. Because every need is unique, we go beyond standard solutions.

With a dedicated design office, passionate experts and state-of-the-art manufacturing sites, we develop custom-made packing that precisely meets the constraints of your business and industry. From the first contact to final implementation, our team provides close support and lasting commitment to ensure your complete satisfaction.

With IPS, you benefit from packing solutions that combine performance, customization and environmental responsibility—all designed with your operations and goals in mind.

Industrial Packing Solutions specializes in industrial packing products and solutions, serving all sectors—with proven expertise in the automotive, energy, industrial and logistics industries.

Manuracks

Equipped with stanchions and stackable

Single Manurack

Double Manurack

Retention trays and spill pallets

Multi-sector

Spill pallets for 1000 L IBCs
