for advanced vessels

- Design
- Engineering

client: Alpatron Marine

ALPHAPREMIUMBRIDGE

Modular navigation bridge consoles
for advanced vessels

- Design
- Engineering

client: Alphatron Marine

YACHTING BRIDGE

Study for modular navigation bridge
consoles for yachts

- Design studies

client: Alpatron Marine

ALPHALINE REPEATER

Range of nautical instruments with uniform design and simple operation by touchscreen control, joystick operation or multifunctional rotary knob

- Design
- Engineering
- Prototyping

client: Alpatron Marine

ALPHALINE COVERS

Ruggedized and watertight covers for desktop or ceiling mounting of all four display sizes of the range of nautical instruments

- Design
- Engineering
- Prototyping

client: Alpatron Marine

ALPHAMULTICOMMAND

Captain's chair for the control of equipment, suitable for extremely demanding ergonomic applications

- Design

client: Alphatron Marine

OMC-140

Multifunctional TFT Display for presenting wind information or indication of other meteorological parameters

- User-interface design

client: Observator Instruments

HMS 3.0

New Helideck Monitoring System, designed to measure and visualize all relevant weather conditions in order to ensure maximum safety during helicopter landing and take-off operations, according to HCA.

- User-interface design

client: Observator Instruments (2019)

VDR products

Voice Data Recording solutions for maritime applications

- Corporate product identity
- Design
- Engineering
- Prototyping

client: Netwave Systems

Compact VDR

Voice Data Recording for maritime applications.

- Corporate product identity
- Design
- Engineering
- Prototyping
- Production support

client: Netwave Systems (2021-2022)

EPIRB testing tool

- Design
- Engineering
- Prototyping
- Production

client: Netwave Systems (2023)
