

AR-Electronique : Advanced Time & Frequency Products

Tailored solutions for Defence, Aerospace, Space and Professional Equipment

Who We Are :

Founded in **1989** in Besançon, France

82 employees (20 engineers/PhDs, 40 technicians)

1800 m² industrial infrastructure & labs

Market focus: 75% defence, 15% space, 10% professional equipment

Exens Group subsidiary since 2023 (300 people - €50M)

Core solutions

Category	Technologies	Key Applications
Oscillators	XO, VCXO, TCXO, OCXO	Space, aerospace, defence, UAVs
Filters	In-house crystal resonators manufacturing	Customized frequency solutions
Frequency Systems	PLL, low-noise amplifiers, MRO	Radars, comms, navigation systems

Expertise & Innovation implemented in :

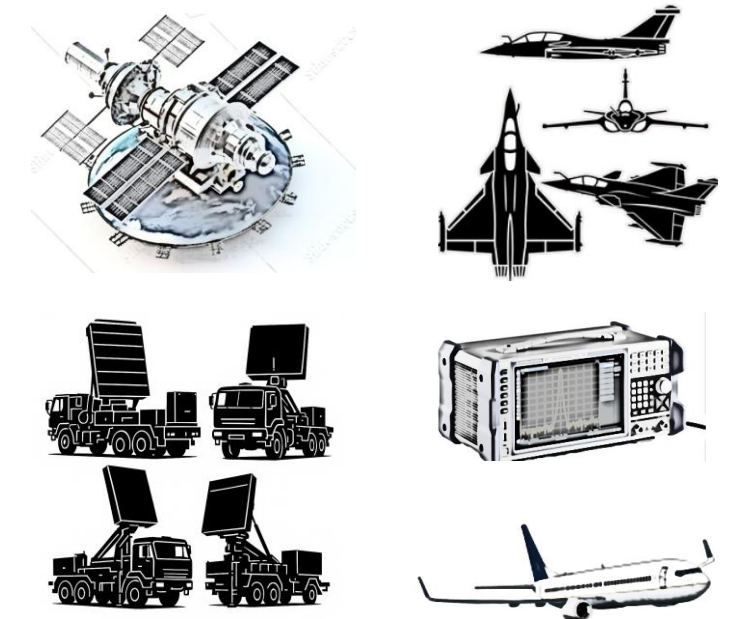

Defence: radars, seekers, IFF, EWF

Space: Satcom, navigation, Earth observation

R&D Focus: ultra-low noise, MEMS, g-sensitivity, USO

Why Partner with Us?

- ✓ Leading edge performances
- ✓ 100% tailored solutions
- ✓ Extreme reliability
- ✓ 30+ years expertise
- ✓ ITAR free
- ✓ High-growth partner

Trusted by

Thales, Airbus, Leonardo, Honeywell, MBDA, Rohde & Schwarz, Hensoldt, Raytheon, Teledyne, Safran...

Certifications: ISO 9001, EN 9100, ESA/ECSS, IPC-J-STD-001
