FRENCH DESSERTS

AN ORIGINAL **néo** COLLECTION

## About us

De Paris à Brest project is inspired above all by the men and women who are committed to their region, talented craftsmen and women, often self-employed or working in family businesses, who call on Réseau Néo to supply them with quality raw materials.

These artisans, who craft their products with passion and love, trust us to present them to the world at their very best.

That is why we have created an innovative collaborative export concept.
