STEEL CONSTRUCTION

# UNICRON

We are a company specializing in the field of metal constructions, a continuation of the activity of the forerunner Universal Company, established in 1976 in Peja.

Developed by the Metal Assembling Workshop, we have become the leading company in the metal construction sector in Kosovo.

Excellence, quality of work and adherence to deadlines are the main features that characterize our company which in combination with contemporary principles and specialized staff guarantee quality work of the highest standard.

STEEL CONSTRUCTION

# HEADQUARTERS

Operating from I's offices and production facility located in the city of Peja, it covers the whole of Kosovo, offering engineering services from design to construction.

The company employs 50 full-time professional staff and 6-8 part-time staff and other subject matter experts. The in-house engineering unit, design and assembly departments develop the design for structural and miscellaneous buildings including installation works.

STEEL CONSTRUCTION

# BUSINESS MODEL

The company undertakes works in steel constructions, stairs, platforms, roof and wall panels, frames, doors and etc. The raw material is imported from Greece, Turkey and Italy.

Unicron LLC is also certified with international standards like: **ISO 9001, ISO 14001, ISO 45001, ISO 3834-3 and ISO 1090-2** which makes our company able to continuously offer the best products and services that meet the needs of customers.

The venture's projects range from 1 million to 5 million euros, its main clients in the country include Albi Mall, Jysk & KFC, Al-Trade, KIVO, GEMIX, Galeria Shopping Mall, Line Group, Kastrati Group, Birra Beg, Kreativa, GOGAJ and others that have given UNICRON a competitive edge when it comes to larger and more complex projects.
