

About 2CA-Braga

The Clinical Academic Center of Braga (2CA-Braga) is a non-profit partnership between the University of Minho (through the School of Medicine and the Life and Health Sciences Research Institute [ICVS]), the Local Health Unit of Braga, and the CUF Porto Hospital.

Mission

Promote clinical research by providing the necessary support and striving to ensure that the results translate into benefits for patients.

Vision

Create a paradigm shift, enabling a more personalized approach to treatment, proper monitoring of a larger number of individuals, and more proactive population engagement in healthcare.
