SEVEN BEL – THE COMPANY

FOUNDED: 2018

HEADQUARTERS: LINZ, AUSTRIA

R&D / ASSEMBLY: AUSTRIA

NO. OF EMPLOYEES:

10 (AT, DE, FR, UK, USA)

KEY INDUSTRIES SERVED:

AUTOMOTIVE (35%)

ACOUSTIC CONSULTANCIES (35%)

MACHINERY CONSTRUCTION (20%)

ENERGY(10%)

We use **acoustic camera technology** and AI driven analysis to help automotive engineers and technicians **solve noise issues** in product engineering, maintenance and quality control.

THE SOUND SCANNER ... MAKES SOUND VISIBLE

**WIRELESS CONNECTION FOR FAST
SETUP TIME**

**BATTERY POWERED HARDWARE FOR
100% POWER AUTONOMY**

**LIGHTWEIGHT DESIGN FOR SUPERIOR
MOBILITY**

**CLOUD POWER DELIVERING
COMPREHENSIVE RESULTS OUT OF
THE BOX**

**MOBILE DEVICE TECHNOLOGY FOR
SEAMLESS DATA SHARING**

THE PROBLEM

LOCATE ACOUSTIC SOURCES IN...

APPLICATION

Reduction of unwanted sound emissions from full vehicle and components ... for meeting regulatory, customer and performance requirements.

PAIN

Delayed introduction of new designs and components.

Locate air/gas leaks in production machinery ... for reducing CO2 footprint and saving cost.

Waste of energy on the shop floor due to compressed air leaks.

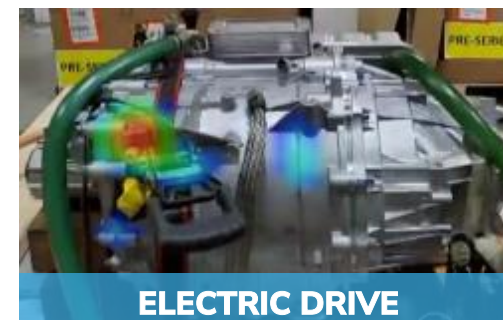

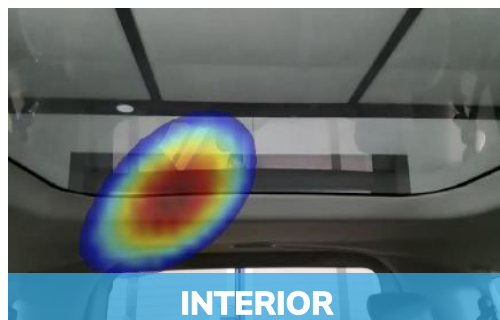

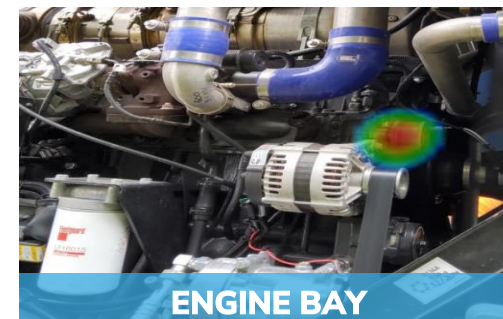

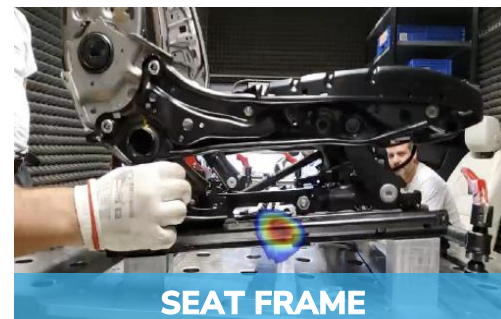

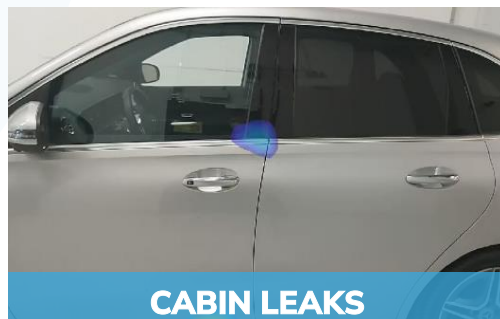

Locate acoustic anomalies during final test ... indicative of assembly errors or faulty components, e.g. defective ball bearings.

Breakdown of vehicle components.

APPLICATION OVERVIEW

NOISE SOURCE LOCALIZATION IN ACTION

250+ GLOBAL CUSTOMERS

“

The Sound Scanner is an absolute game-changer. I'm thrilled with the transformative impact it's having on our work.

Nicholas Ventimiglia, Hanon USA
