

canSERV

providing cutting edge
cancer research services
across europe

Who we are

canSERV connects 18 European partners and research infrastructures, giving academia and industry coordinated access to advanced cancer research services, tools and expertise.

What we are working on

We provide integrated research services, a Molecular Tumour Board Network and outcome registry, making cancer research more accessible, interoperable and clinically relevant.

What's the one thing we need next

We need long-term sustainability for canSERV services, data and networks, ensuring FAIR data reuse and continued access to research infrastructure and expertise.

**5 years Mission Cancer:
Stronger Through Connection**
