- VSSA (LT)
- DIGDIR (NO) + Norwegian partners

Use Cases – Preliminary Scope

We are currently identifying and refining the main use case areas for piloting GenAI solutions across different tiers of European public administrations. Below is a preliminary structure based on ongoing stakeholder consultations.

PUBLIC ADMINISTRATION

Simplification and acceleration
of administrative processes

Evaluation of disability and
employment processes (agentic)

Standardization of solutions
based on KPIs

GenAI for evaluating renewable
energy and mining requests.

LEGAL & COMPLIANCE

Regulatory analysis

Legal document summarization

Legal assistant for citizens

Interview transcription
for judicial services

Interpretation of internal
and European legislation

VIRTUAL ASSISTANTS

AI-powered helpdesks

Internal service chatbots

Ticket resolution systems

Cross-WP research methodology

VOICE & AUTOMATION

Speech-to-text and
voice-driven form completion

Explore structural solution
for long-term sustainability

Interview transcription
for emergency services

Judiciary sessions
