

LED'S GO SOLAR
Dutch&Co

We **minimize** your **energy**
cost and **carbon footprint**.

We **increase the supply** and **decrease the demand** for energy

By providing **LED lighting**, Dutch & Co. decreases Ghana's energy consumption. By installing and maintaining **PV Solar panels**, Dutch & Co. increases the supply of clean, reliable and affordable energy.

As **fully licensed** PV EPC and O&M Contractor Dutch & Co. engineers, procures, installs and maintains your **Solar PV installations** whether its ground, roof or carport mounted, or even floating.

Delivering **consistent quality** and **maintaining** commitments.

We source **high quality products**. As experts in the market, we know the best brands and partners to work with, ensuring that our clients benefit from the latest, most durable and **value for money technologies**.

We only work with **Tier-1 technology** providers on a non-exclusive basis.

Flexible Financing Options

Investing in solar is investing in the future. At Dutch & Co., we offer flexible **finance solutions** to facilitate this investment and ready to discuss whether the Power Purchase Agreement (PPA) option, the Leasing option or an outright purchase best suits **your company's needs**.

Why Dutch&Co

- Permanent Presence in Ghana
- Dedicated team of professionals in design, installation operation and maintenance
- Fully licensed
- ICC accreditation for health & safety
- Inhouse procurement and logistics
- Strong Aftersales and warranty management
- Good standing with the energy commission and industry stakeholders
- Turn-key approach - one company providing a full solution
- Financial partners for financing opportunities
- Existing client base and reference projects

Expertise and experience The right expert team

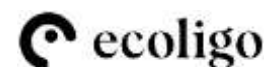

We are well positioned to meet the demand in a fast-growing market in Ghana and West Africa. We inspect and assess your facility, design the required solutions, select and purchase the components, provide the logistics and build/install the end product.

We take pride in the implementation of efficient systems that look good, serving as your partner in Development, Engineering, Procurement, Construction, and Operation & Maintenance.

Our Clients

Our clients are most **important** to us. From the initial discussions, the development, execution and commissioning phase of the projects, to the aftersales, close interaction and constant **communication is key** in order to deliver on our promise.

“As an organisation, we decided to only work with Dutch & Co. to provide and install LED lights in all our 5 hospital sites and Solar PV at Nyaho Medical Center. This is because we stand for high quality, and Dutch & Co. is the only company in Ghana that meets the international benchmark for quality.”

Frances Oppong

Hospital Administrator, Nyaho Medical Center.

Our Partners

We only source **high quality** products. As experts in the market, we know the best brands and partners to work with, ensuring that our **clients benefit** from the latest, most durable and value for money technologies.

We only work with **Tier-1** technology providers on a non-exclusive basis.

"At Jinko Solar Co., Ltd., Dutch & Co. holds a special place as more than just a client – they are an indispensable partner in the industry. Our collaboration on numerous groundbreaking designs and installations reflect our shared commitment to innovation, creativity, cooperation, and expertise in the solar energy field. Put simply, Dutch & Co. excels at their craft!"

Williams Ossai

Head of Sales -West Africa

Jinko Solar Co., Ltd.

Our Network

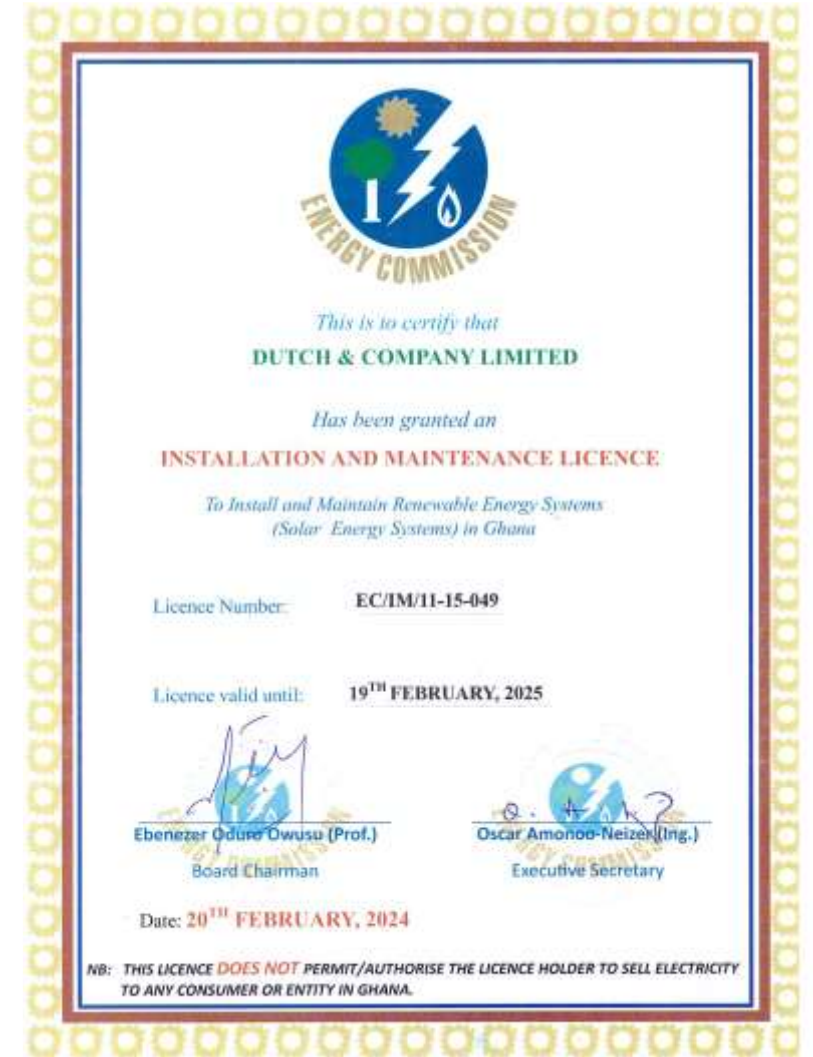

We value a sound working **relationship** with our industry stakeholders, especially where the renewable energy and energy efficient market is developing rapidly. **Public & Private sector engagement** on issues like regulations, licences and permits are crucial to create an enabling environment to further **grow** the renewable energy sector.

In order to be **well informed** and to be in constant touch with the market and the industry, we are actively engaged in developing and growing the renewable energy sector. We are **active members** of the following organisations.

Compliance & Licensing

All necessary company and industry registrations, licenses and insurances are in place, including mandatory importation license and installation & maintenance license from the Energy Commission of Ghana.

Health & Safety

3.12

Global score

Dutch & Co. enjoys a global score of **3.12 (green)** in terms of Health, Safety & Environment (**HSE**) accreditation.

ICC

Lastest

This is the result of the latest **assessment conducted by** the International Contractors Compliance audit (**ICC**).

in Solar Energy Projects

Client : Total Energies
Site : 65 sites
Size : 538 kWp Grid-Tie
Location : Across all regions of Ghana

Client : Fanmilk Danone
Site : Fanmilk Factory
Size : 120 kWp Grid-Tie
Location : Accra

Client : IWAD
Site : IWAD Farm
Size : 499 kWp Hybrid
Location : Yagaba

Client : Ecoligo
Site : FanMilk Danone DC Kaase
Size : 220 kWp Grid-Tie
Location : Kumasi

Client : Cargill Ghana
Site : Cargill processing plant
Size : 562 kWp Grid-Tie
Location : Tema – Freezone

NB. executed in partnership

Client : Ecoligo
Site : Nyaho Medical Center
Size : 194 kWp Grid-Tie
Location : Accra

Client : Royal Netherlands Embassy
Site : Dutch Residence
Size : 27 kWp Hybrid
Location : Accra

Client : MTN Scancom
Site : Accra 2 Switch
Size : 475 kWp Grid-Tie
Location : Accra

Client : ITFC
Site : ITFC Warehouse
Size : 46 kWp Grid-Tie
Location : Gushie

Client : Kuipers Breeders
Site : KBG – Poultry Farm
Size : 378 kWp Hybrid
Location : Sege – Ada West

Client : MTN Scancom
Site : Sakaman
Size : 506 kWp Grid-Tie
Location : Accra

Client : Sapholda Ventures
Site : Coldroom/Warehouse
Size : 454 kWp Grid-Tie
Location : Tse addo - Accra

Client : FTC/Golden Exotics
Site : Coldroom
Size : 200 kWp Grid-Tie
Location : Tema Harbour

UNDER CONSTRUCTION

Client : Helios Solar Company
Site : IWC Warehouse
Size : 16.82 MWp Grid-Tie
Location : Tema Freezone

Reference Projects

LED Lighting
