CONFIDENTIAL

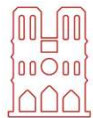

WE MAKE RELIABLE ROBOTS FOR **HIGH-RISK ENVIRONMENTS**

World leader of firefighting robots

80 employees, La Rochelle (FR), est. 2016

« Protect those who protect us »:
invention of the firefighting robot

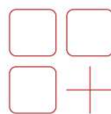

- From Notre-Dame to Ukraine
- Tier-1 units around the globe

An expanding involvement in law enforcement and defense

- Developed a small defence UGV as soon as 2018
- FR MoD innov. challenges

- Robotized spike strip
- upcoming: SWAT-support robot

An **agile** culture for operational use

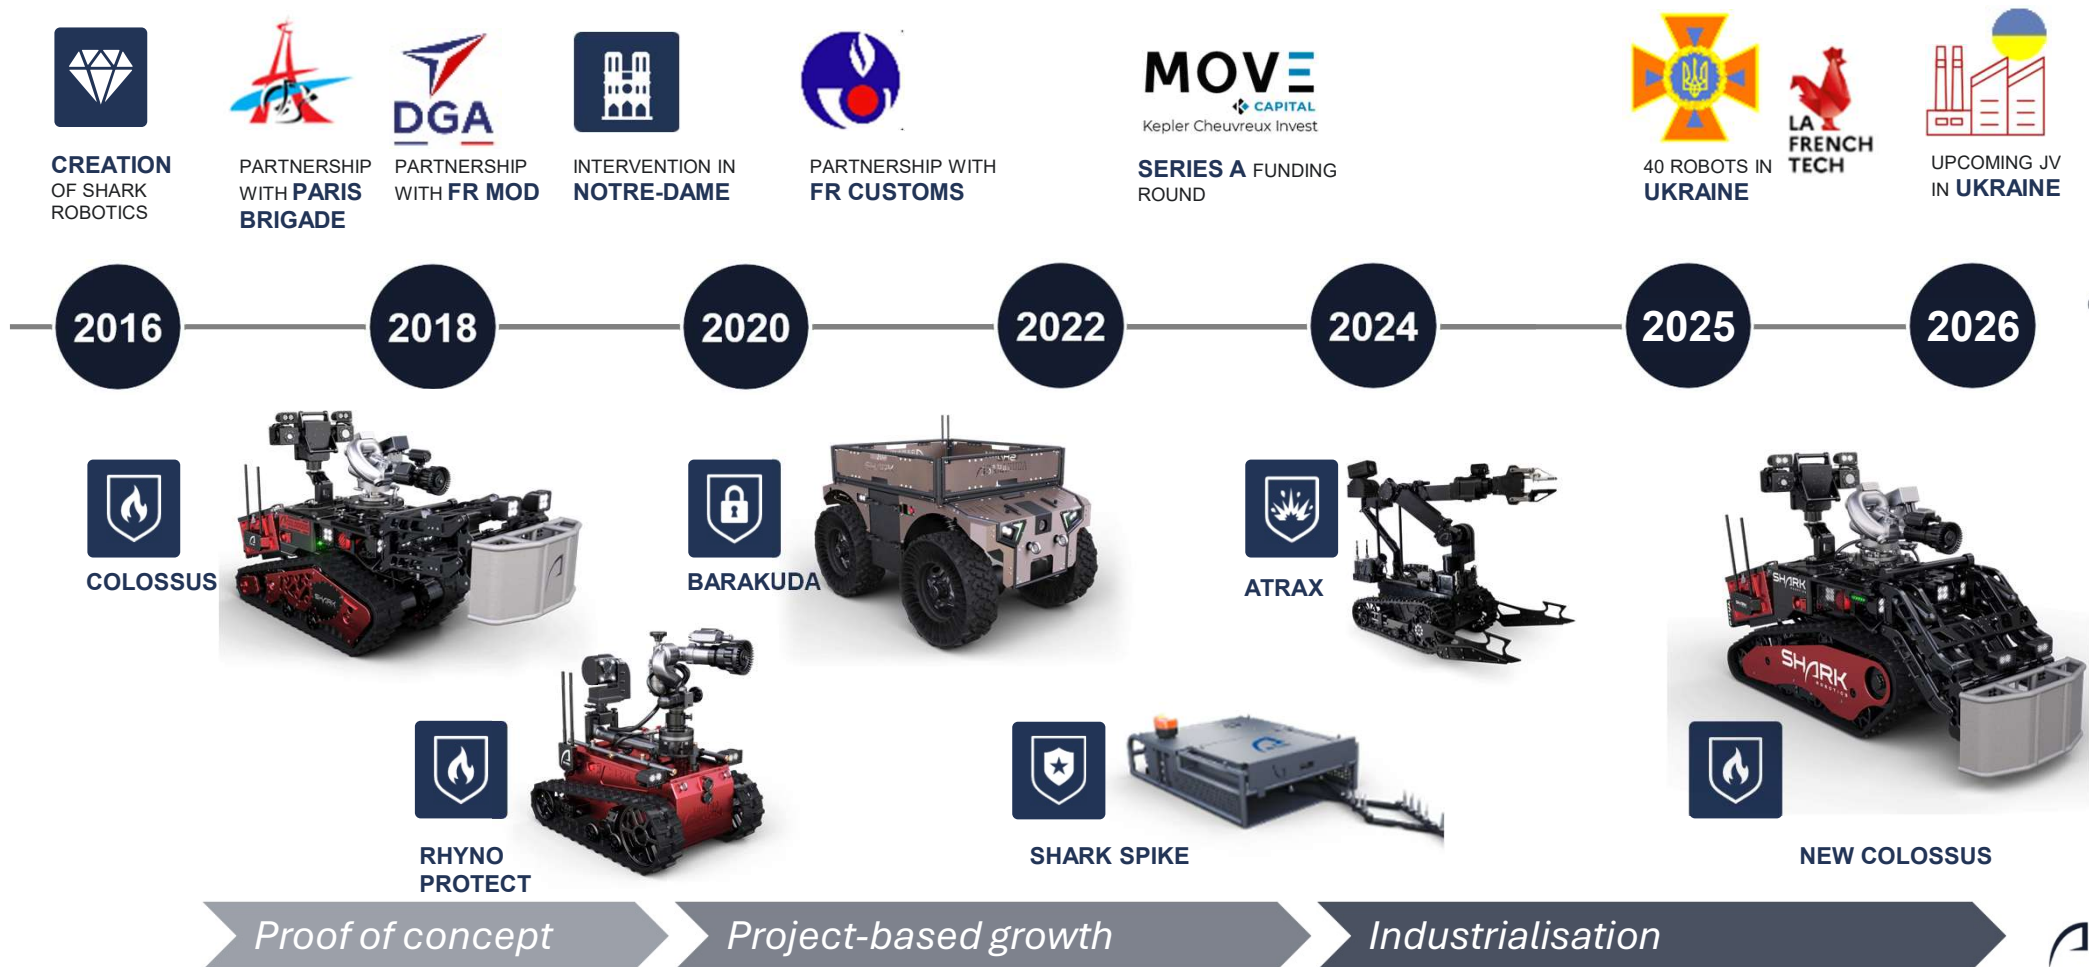

- ✓ Designed **with end-users**
- ✓ **Simple** to deploy
- ✓ **Low training** burden

- ✓ ISO 9001:2015 **quality**
- ✓ **Ruggedized**
- ✓ **Long** lifecycle

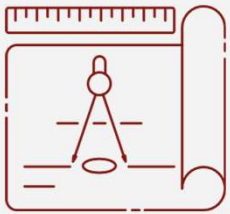

THE FRENCH SCALE-UP OF LAND ROBOTICS

GOING INTO DEFENSE, FROM FIREFIGHTING EXPERTISE

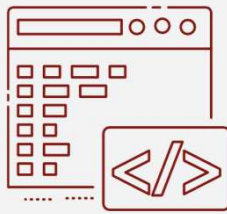

MASTERING THE 4 PILLARS OF ROBOTICS

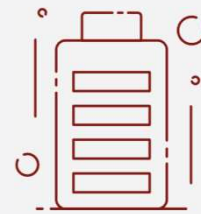

ENGINEERING

Innovative, reliable hardware with advanced design¹, and mechatronics

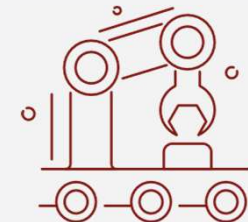

SOFTWARE

Best-in-class software and artificial intelligence

BATTERY

Durable, optimal lithium-ion battery design

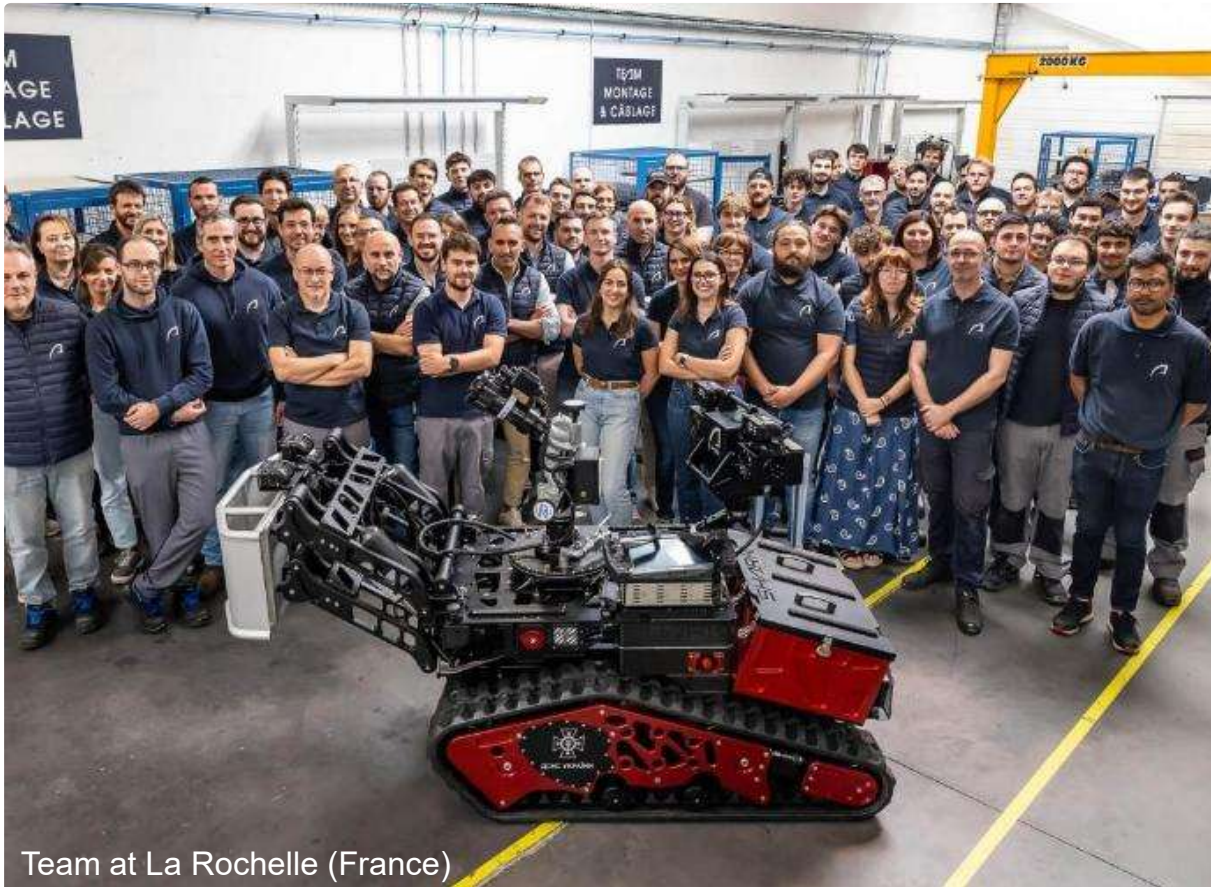

ASSEMBLY

Design and assembly of the complete robot

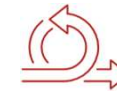

¹ Example: we **design our own suspended track systems**

AN INNOVATIVE TEAM OF 80+, MOVING FORWARD

Team at La Rochelle (France)

Continuous **feedback**
from **20+ countries**

Ruggedization /
Modularity /
Maneuverability

A high bar for **MRO**
services

Proprietary **digital /**
