ASSISTENZA MEDICA ONLINE

2025

Your partner in telemedicine

v2.3

Mission: To ensure telemedicine
becomes an **essential**
standard in healthcare

ABOUT US

In the field of “**Digital Health**”, we are a **B2B** telemedicine partner that provides value to businesses thanks to a product, a customizable **telemedicine platform**, and a service of **R&D and consultancy** for health digitization projects.

We support companies in enabling themselves or their customers with **personalized** and **self-owned** telemedicine, as if it were done in-house.

We have numerous **success stories** with companies that are **heterogeneous** both in size and sector: from small specialist centres to multinationals in the biomedical and tourism sectors.

WHAT WE OFFER

Remote clinical
management

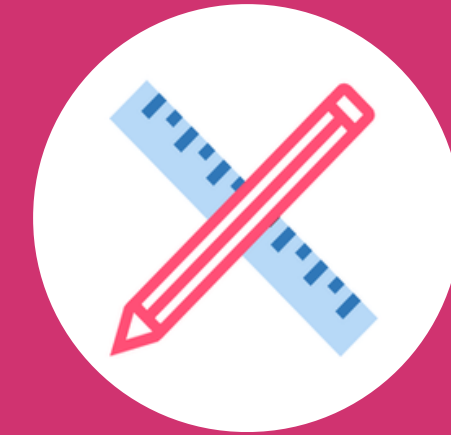

Optional h24
Medical Service

HL7-FHIR
Standard

Online
booking

Custom
product

Software
Integrations
