### Goverment to Citizen

We bring government services through service design, consultation and software development to the citizens.

### Software Development

Be it a robust or single-purpose digital system, we got it. We do code and UX/UI, to turn your dreams into a solution
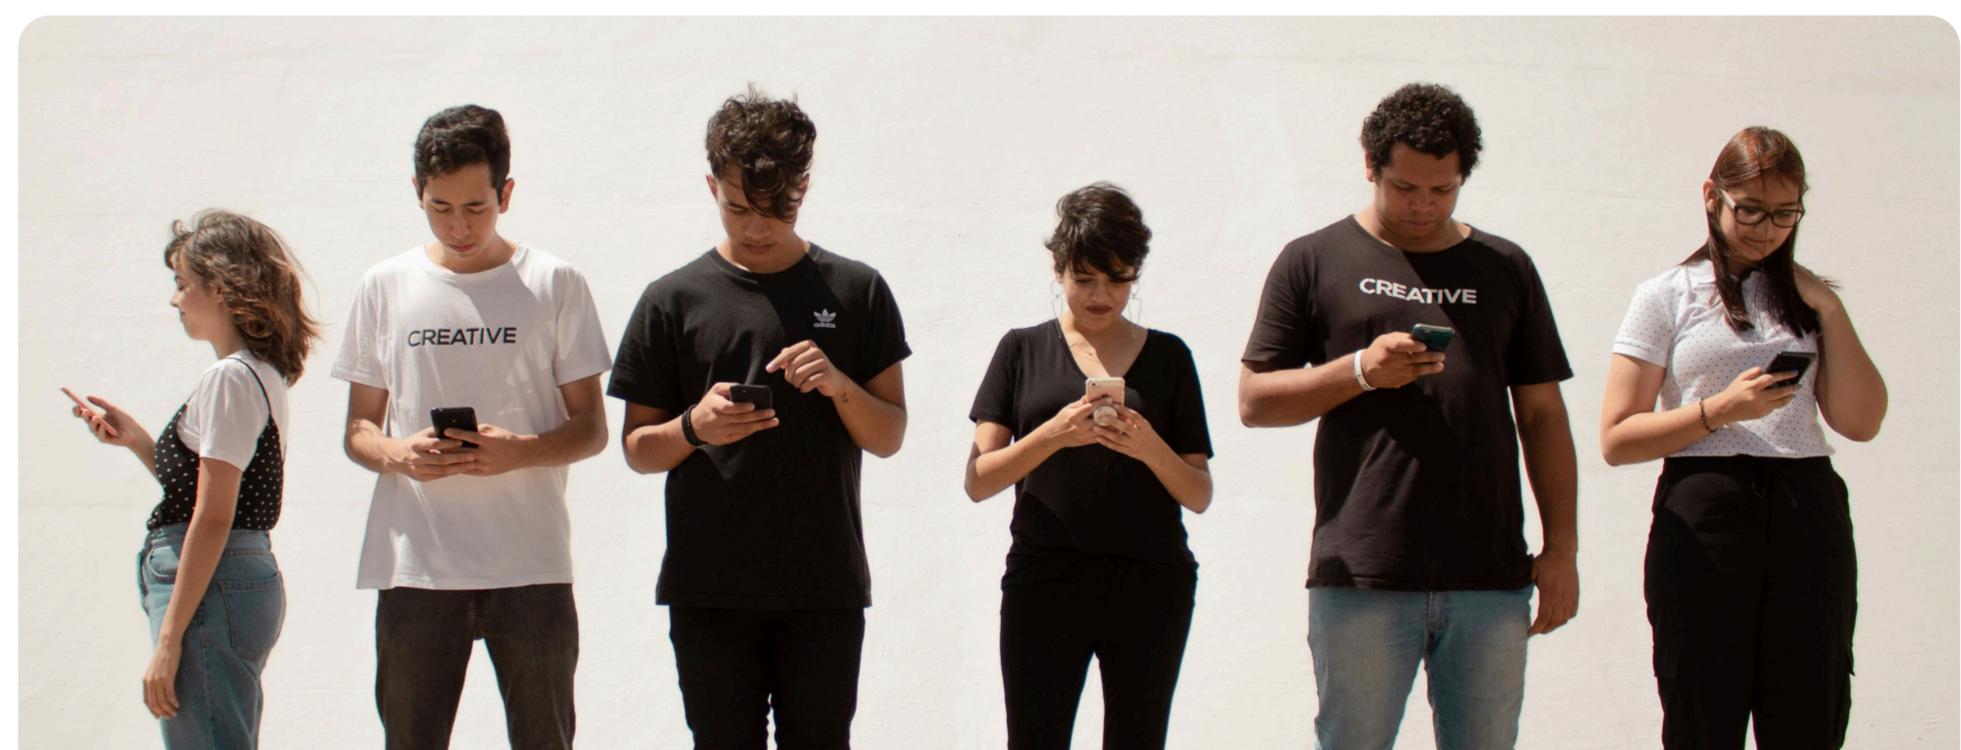

### Cybersecurity

Our ISO 27001 and NIS2 experts design the systems keeping cybersecurity main frame of the solution in mind

## Time to build your digital society. Together.

Our passion is to deliver solutions that make your citizens' everyday lives easier. We have done it before with building solutions for:

| Education | Justice | Government services | Local municipalities |
|---|---|---|---|
| Digital schoolbag | eCourt | Open Data Platform | Smart Municipality |
| Learning Management System | eNotary | Government Mobile APP | AI-powered Citizen Chatbot |
| School Admission Platform | eLand | Digital Health | |

# Our values

### Mastery

Being the best requires constant self-development and eagerness to learn new things. Self-development is what motivates us and makes our eyes shine!

### Care

We care about our people, our customers, and the environment around us. Our daily work is based on people-to-people cooperation and transparent communication.

### Courage

We speak up, stay honest, and take bold steps—especially when it's uncomfortable. We dare to challenge the status quo, stand by our values, and create space for others to do the same.

# We are committed to supporting our customers' success.
