## Our, Clients

# WHERE QUALITY MEETS EXCEPTIONAL SERVICE

## Hello, Get To Know Us

We have most sophisticated machinery for these products that are well equipped with automatic systems for coating, gumming, printing, slitting and have swiftly specialized in them.

With a strong background of updated technological strength and innovations we are driven to deliver the best quality using the finest quality raw materials. We produce the entire range in accordance with industry standards and regulations. Due to our production capabilities, ethical business policies and timely product delivery, we have amassed a sizeable clientele in the global market.

## About Company

We Mehdia Enterprises Private Limited have a solid foundation of more than a decade in manufacturing and exporting **Silicone Coated Release Paper** and **Surface Protection Film Tape**.

# Silicone Coated Release Paper

We are the silicone coaters having a wide range of paper and film Liners manufactured by using cutting-edge technology and innovative procedures. The finished products are thoroughly tested for its release values, aging release values, coating weight, subsequent adhesion strength. These items are quality verified under the supervision of skilled specialists against internationally established standard specification to assure flawlessness. We are specialised in coating S1S, S2S (Equal and Differential), Solvent, Solventless. We use nature friendly raw material manufactured by pioneer industries in the respective fields. The Silicone Coated Release Paper Single / Both Side coated with same or modified release coating is available in a variety of colours. We can offer you full ranges of release liners in paper as well as film.

PRODUCT FEATURES	SILICONE COATED RELEASE PAPER	SURFACE PROTECTION FILM TAPE
Production Capacity	5000 Metric Tons	5000 Metric Tons
Width	25 mm to 1700 mm	25 mm to 1700 mm
Diameter	1000 mm	500 mm
Core	3" (76mrh)	3" (76mm)
Grammage/Micron	30 to 160 gsm	25 to 140 micron
Printing	Single Color	Single Color
Paper/Film Type	Paper - Glassine CCK, SCK, GSK, Kraft  Film - PET PE, MOPP, BOPP, HDPE, LDPE, and Polycoated paper.	PE
Color	White, Blue, Yellow, Dark Yellow, Havana, Brown, Black	Transparent Milky Blue Black & White
Silicone Coating	Consistent Even Coating and Formulate Release Strength	Uniform Coating with no residue and customised peel strength

## Application:

### Silicone Release Paper | Surface Protection Film

» Adhesives and Sealants	» Hologram Printing	» Aluminium	» Elevator
» Aerospace	» Hygiene (Sanitary Napkins)	» Elevator	» Glass
» Automobiles	» Label Stock	» Aluminium Composite Panel and Aluminium Window Profil (Power Coated)	» High Grade-Furniture
» Belting	» Petroleum		» Quartz Stone
» Food (Baking)	» Quartz Stone		» Roofing/Profile Sheet
» Tape	» Rubber	» Building and Construction Carpet	» Sandwich Panel
		» Duct	» Stainless Steel
		» Tiles and Marbles	

# Surface Protection Film Tape

Surface Protection Film Tape is globally used in the pre/post-production storage, transit, Installation, shipping processes to protect products from scraping, scratches, dust, contamination, corrosion, or stain of the surfaces. The film's unique features include its consistent adhesion capacity, ease of application, and leave no residue when removed. This film is hypoallergenic, non-irritant, and adheres well. It's special polymer glue that contains as a covering has no solvents that harms to the product or the user. The high grade chemical raw ingredients are used to make LDPE film. By printing your logo and contact details will enhance the perception of your brand. This product is widely utilized as a packing option in almost every industry, including: Sandwich Panel : Profile / Roofing Sheet Protection : UPVC Profile : Glass : ACP : Aluminium Profile and many others.

We believe in  
**COMPETITIVE PRICE - CONSISTENT SUPPLY - ENDURING ALLIANCES**
