

IMP^{ORTANT}

Who we are

IMPORTANT unites European clinical, research, patient and innovation expertise to improve treatment safety, quality of life and evidence for older adults with advanced breast cancer.

What we are working on

We integrate geriatric assessment into care to optimize dosing, reduce toxicity, and preserve treatment benefit while making trials more inclusive.

What's the one thing we need next

We need more inclusive evidence for older adults, ensuring cancer treatment balances effectiveness, toxicity, quality of life, patient preferences and sustainability.
