ZINC SHEET

Life is in it, It is in life
protects your farm

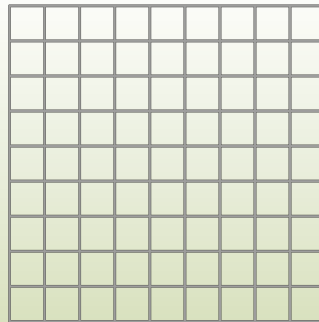

- It is recommended because of economic cost at garden and other security applications.

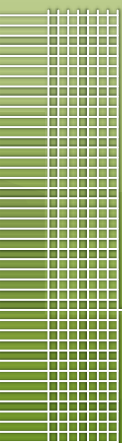

PRODUCTS ;

- Packaging: It is packed with shrink wrapping with label which Dimension and barcode clearly specified.
- It is very suitable for Industrial Zones, Motorways, Railways and other places which are needed extra strong protection as a Separation equipment. It is brought High Quality Point of View with competitive prices.
- It is very suitable for all standard type of tightening. It is very suitable for the separation of big plots in rural areas. We recommend ESTENET products around your houses. It is very suitable for the separation equipment at the big streets in rural areas.

WIRE DIAMETER	MIN	1,50	MM
	MAX	3,50	MM
DISTANCES BETWEEN WIDTH WIRES	MIN	25,00	MM
	MAX	150,00	MM
DISTANCES BETWEEN LENGHT WIRES	MIN	25,00	MM
	MAX	150,00	MM
TENSILE STRENGHT	MIN	750,00	Mpa
	MAX	950,00	Mpa
HEIGHT	MIN	100,00	CM
	MAX	250,00	CM
SHEET'S LENGHT	MAX	250,00	CM
COATING	ZINC		A CLASS
WIRE ROD QUALITY	SAE 1006		SAE 1008
PACKAGING	PALLET		

ZINC ROLLS

Life is in it, It is in life
protects your garden

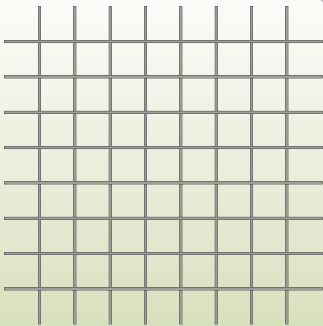

- Galvanized wire
- It is produced by welding galvanized wires for the purpose of ensure both oxidation resistance and strong enclosure protection.

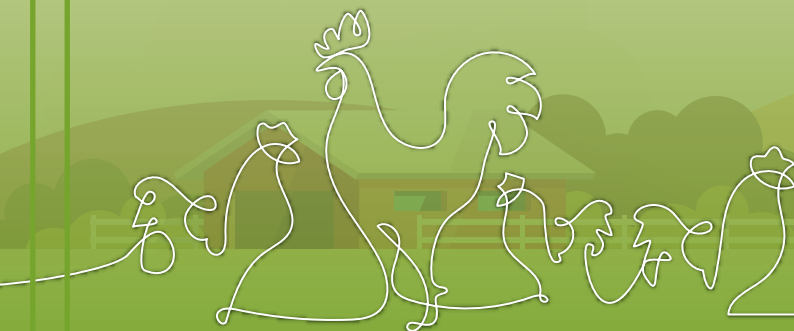

TYPES ;

- Hot dipped galvanized before welding
- PVC coated
- PE coated
- Stainless steel
- Black drawn wire
- Bright drawn wire

WIRE DIAMETER	MIN	0,80	MM
	MAX	3,00	MM
DISTANCES BETWEEN WIDTH WIRES	MIN	12,50	MM
	MAX	200,00	MM
DISTANCES BETWEEN LENGHT WIRES	MIN	12,50	MM
	MAX	200,00	MM
TENSILE STRENGHT	MIN	600,00	Mpa
	MAX	850,00	Mpa
HEIGHT	MIN	52,00	CM
	MAX	302,00	CM
COIL'S LENGHT		25,00	M
COATING		ZINC	A CLASS
WIRE ROD QUALITY		SAE 1006	SAE 1008
PACKAGING		SHRINK WRAPPED-SINGLE	

PLAST

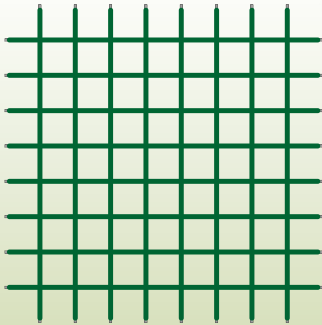

Life is in it, It is in life
will not corrode in the sea

- PVC& PE coating onto galvanized wire
- It is produced by first welding low carbon galvanized wires, then plastic coatings onto wire mesh for the purpose of ensure double protection against oxidation and long lasting usage.

FEATURES OF WELDED WIRE MESH ;

- It is produced by high-quality iron wire
- Smoother and stronger welded wires
- It is extra resistant to oxidation with bright galvanizing.
- Easy to carry and install
- Adaptable for all needs
- Classic and decorative design
- Wire tension curve
- Pvc coating on galvanized core wire
- Extremely resistant to oxidation

WIRE DIAMETER	MIN	0,80	MM
	MAX	3,00	MM
DISTANCES BETWEEN WIDTH WIRES	MIN	12,50	MM
	MAX	200,00	MM
DISTANCES BETWEEN LENGHT WIRES	MIN	12,50	MM
	MAX	200,00	MM
TENSILE STRENGHT	MIN	600,00	Mpa
	MAX	850,00	Mpa
HEIGHT	MIN	52,00	CM
	MAX	252,00	CM
COIL'S LENGHT		25,00	M
COATING AFTER ZINC		PVC	PE
WIRE ROD QUALITY		SAE 1006	SAE 1008
PACKAGING		PALLET WITH SHRINK WRAPPED-SINGLE	

ORNAMENTAL

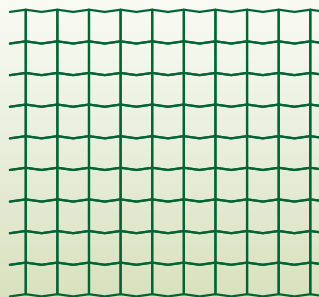

Life is in it, It is in life
protects your family

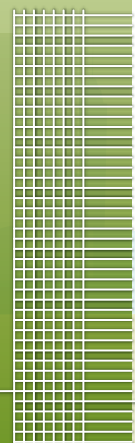

• Notches created on horizontal wires ensure that the wire mesh is resistant. In oblique areas, the ability of flexibility increases and it allows rainwater to easily leave the product surface.

APPLICATIONS ;

- Tree, lawn and garden arrangement
- Decorative fan arrangement
- Window and paravane door railings
- Basement and garage railings
- Animal cages and enclosures.
- Split sidelines and outpost enclosures.
- Display shelves
- Storage boxes
- Concrete reinforcement
- Garden fences
- Decorative fences
- Backyard enclosures

WIRE DIAMETER	MIN	1,00	MM
	MAX	3,00	MM
DISTANCES BETWEEN WIDTH WIRES	MIN	50,00	MM
	MAX	250,00	MM
DISTANCES BETWEEN LENGHT WIRES	MIN	50,00	MM
	MAX	250,00	MM
TENSILE STRENGHT	MIN	600,00	Mpa
	MAX	950,00	Mpa
HEIGHT	MIN	75,00	CM
	MAX	250,00	CM
COIL'S LENGHT		25,00	M
COATING AFTER ZINC		PVC	PE
WIRE ROD QUALITY		SAE 1006	SAE 1008
PACKAGING		PALLET WITH SHRINK WRAPPED-SINGLE
