

Flexibility to Grow

Your business is unique, and our solution is tailored precisely to your pain points. Adapt and grow with our platform, which is highly customizable, intuitive, and straightforward. It keeps up with your company's maturity and growth, supporting multiple methodologies and always keeping your teams focused on the outcome.

YOUR ENTIRE COMPANY CONNECTED

Consolidate Multiple Tools

Get your customized solution up and running in weeks and consolidate three essential categories: OKRs, PPM (Product/Project Portfolio Management), and Work Management. Optimize costs by replacing several isolated tools with a unified system where everything is connected.

COMPREHENSIVE NATIVE REPORTS

Real-Time Reports

Gain operational visibility with instant reports, connecting each action to business results, providing end-to-end transparency without the need for additional plugins.

EFFICIENCY AND EFFECTIVENESS

Visual Portfolio Management & Outcomes

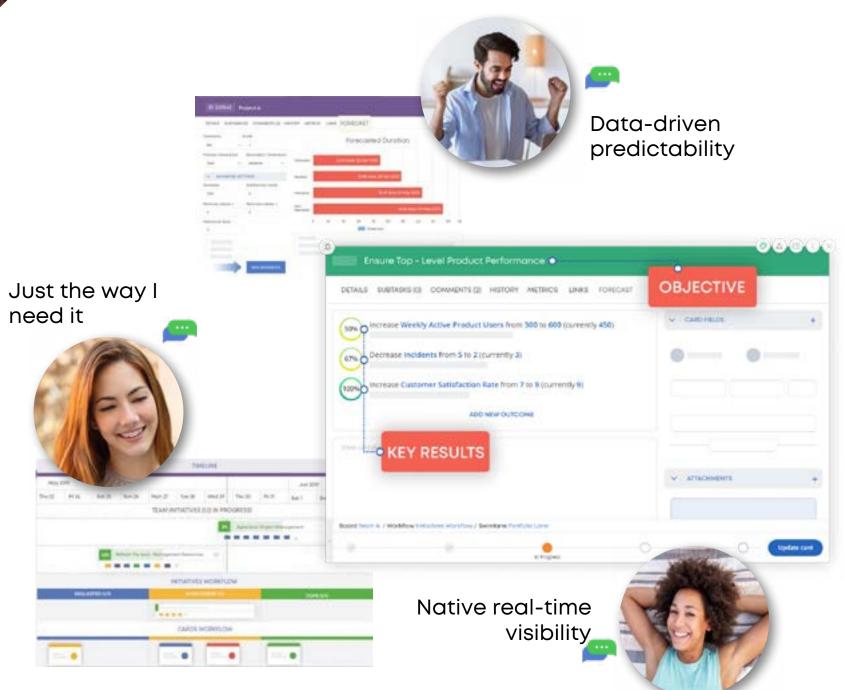

Centralize portfolio management to monitor efficiency and effectiveness in one place. Visual management facilitates real-time course corrections, ensuring strategic alignment with business objectives.

ARTIFICIAL INTELLIGENCE

Save Time with Al

Optimize, analyze and automate your workflow with ease! Businessmap AI saves you time and effort, enabling you to work more efficiently, understand the data, and make informed decisions for fast results.

VISUAL COLLABORATION

Brainstorm with Digital Whiteboards

Enhance team collaboration with a digital whiteboard for organizing ideas, solving problems, and visualizing processes. Break down complex projects into parts and track dependencies in a single place.

BULGARIA | BRAZIL | SPAIN | ITALY | MEXICO

Our solution consolidates multiple tools into one, enabling an organic implementation on a large scale, visibility of all projects/portfolios, and alignment with objectives to deliver quality work faster.

- Project Portfolio Management
- Objective Management through OKRs
- **Work Management**
