

# GELECTRIC

# Digital Noon Reports

## Smarter data from your existing reports

Traditional noon reports stay buried in email inboxes, unstructured, hard to analyze, and slow to use.

With Gelectric's Digital Noon Reports, your crew keeps reporting exactly as they do now, while our AI automatically turns those emails into accurate, structured data you can act on immediately.

### Highlights

Zero Workflow  
Change

Automated  
Data Parsing

Custom  
Dashboards

Regulatory  
Reports

Error  
Correction

3rd Party  
Integrations

Alerts &  
Notifications

# EMAIL REPORTS, ELEVATED

## Turn Your Noon Reports into Actionable Insights

## EXPLORE DIGITAL NOON REPORTS

Turn the reports your crew already sends into structured data, powerful insights, and instant alerts without changing a single step in your workflow.

### WHAT YOU WILL GAIN?

- **Better Decisions** from reliable, updated vessel data.
- **More Time** for crew and shore-side teams thanks to automated reporting.
- **Fuel Optimization** by tracking fuel consumption trends.
- **Regulatory Compliance** with instant IMO and other required reports.
- **Fewer Errors** with structured, machine-parsed data.

### WHY GELECTRIC IS DIFFERENT?

Unlike most digital noon report providers that force you to adopt their platforms or templates, **Gelectric works with what you already have.**

Your reporting method stays the same, we just make the data instantly useful, shareable, and actionable.

### HOW IT WORKS

#### 1. Send as Usual

Crew continues sending reports in their normal format

#### 2. Smart Data Capture

Agentic AI processes and structures the data

#### 3. Ready-to-use Reports

Dashboards, alerts, and reports are instantly available, vessel-wide or voyage-specific

### Ready to See It in Action?

Experience how easy it is to transform your existing noon reports into a powerful decision making tool. Request demo today:
