## **Lamelat™ series catalogue**

**innovation**

**performance**

**safety**

## Transdermal delivery system - liposomal technology

Liposomal technology effectively enhances transdermal penetration of active ingredients and **provides higher efficacy of the cosmeceuticals.**

Liposomes filled with active ingredients **overcome the epidermal barrier**, penetrate the *stratum corneum* and introduce desired substance **into deeper layers of the skin.**

## Lamelat™ - whitening series - active ingredients

Lamelat™series is dedicated to **help people with pigmentation problems**, such as: hyperpigmentation, age spots, acne scars. **Brightens complexion, inhibits melanogenesis, evens out the skin tone, moisturizes and minimizes appearance of discolorations.**
