

*Myers*TM

PREMIUM SMART HOME SYSTEMS
by PARTIZAN

MYERS is a sub-brand of PARTIZAN, under which we have been producing premium smart home solutions **since 2014**. Among them: analog/IP intercoms and calling panels, wireless cameras, relays for home automation, smart switches, smart plugs, smart thermostats, smart lighting and blinds controlling devices, as well as **smart hub** with the ability to connect up to 128 smart gadgets.

All MYERS devices work with the award-winning **Partizan mobile app!**

PARTIZAN mobile app is a unique solution for managing your safety and comfort

THE BEST
CCTV MOBILE APP
EXCELLENCE AWARD

Wi-Fi is a wireless network protocol.

If you don't have too many devices this is your way.

ZigBee is a wireless data transfer standard.

It is better for using a large number of devices.

PREMIUM SMART HOME SYSTEMS by PARTIZAN

Myers™

Myers Wi-Fi Smart Devices – App Connection

Myers Zigbee Smart Devices - Hub Connection

128

Up to 128 connected devices

Wi-Fi and LAN
connection

SMART SECURITY

WIRELESS BATTERY-POWERED CAMERAS

WIRELESS SOLAR CAMERAS

WIRELESS DOORBELL

2.0MP Wire-Free IP Camera

MBC-Cubic

Home FullHD CCTV camera that doesn't need wires!

Compact, reliable, stylish.

Protected from dust and moisture, can be installed outdoors.

Activation of the Cubic occurs when a human is detected in the frame, which significantly saves the device's power.

Easy to use in the award-winning Partizan mobile app for iOS and Android.

Wi-Fi connection

Motion detection

20 hours of continuous work without charging

Microphone and speaker

MicroSD Card support
(up to 128 Gb)

Resolution 2.0MP
(1920x1080 px)

Wide viewing angle

Excellent vision
in the dark

IP65 – for outdoor
or industrial use

COMING SOON

2K Wire-Free solar IP Camera

MBC-Bullet NEW Generation!

Fully battery-powered outdoor SuperHD CCTV camera.

Reliably protected from dust and moisture.

MBC-Bullet switches to active mode only when motion is detected in the frame and when you connect to your CCTV camera in Partizan mobile application giving extended time between charge. And all this without the slightest hint of wires!

Wi-Fi connection

Smart AI motion detection:
human, car, pet and zone detection

Autonomous work
from a solar panel

Microphone
and speaker

MicroSD Card support

Resolution 2K 3.0MP

Wide viewing angle

Full Colour and IR night
vision

IP65 – for outdoor
or industrial use

COMING SOON

2K Wire-Free solar 4G IP PTZ Camera

MBC-PTZ

Fully battery-powered outdoor FullHD CCTV camera.
Reliably protected from dust and moisture.
MBC-Bullet switches to active mode only when motion is detected in the frame and when you connect to your CCTV camera in Partizan mobile application giving extended time between charge. And all this without the slightest hint of wires!

4G connection

Smart motion detection

Autonomous work
from a solar panel

Microphone and speaker

MicroSD Card support

Resolution 2K 3.0MP

Wide viewing angle

Full Colour and IR night
vision

IP65 – for outdoor
or industrial use

2.0MP Wire-Free Doorbell

MBD-100

Innovative doorbell with FullHD CCTV camera.

To save battery power, this CCTV camera is activated only when you press the call button or when a motion detector with human recognition is triggered.

Visibility in the dark – over 3 meters.

In Partizan mobile application for iOS and Android, you can watch what is happening in front of CCTV camera, see the guest and talk to him thanks to the microphone and speaker built into the device.

Access from anywhere in the world, even when you are not at home, and no wires!

Wi-Fi connection

Human detection

20 hours of continuous work without charging

Microphone and speaker

MicroSD Card support
(up to 128 Gb)

Resolution 2.0MP
(1920x1080 px)

IP65 – for outdoor
or industrial use

**Recommended accessory
for Wire-Free Doorbell MBD-100**

Chime

Simple yet efficient home ringer for Myers Doorbell.

Seamless connection with Doorbell for sound notification when somebody calling you.

One Doorbell can support multiple Chimes.

SMART ELECTRICITY

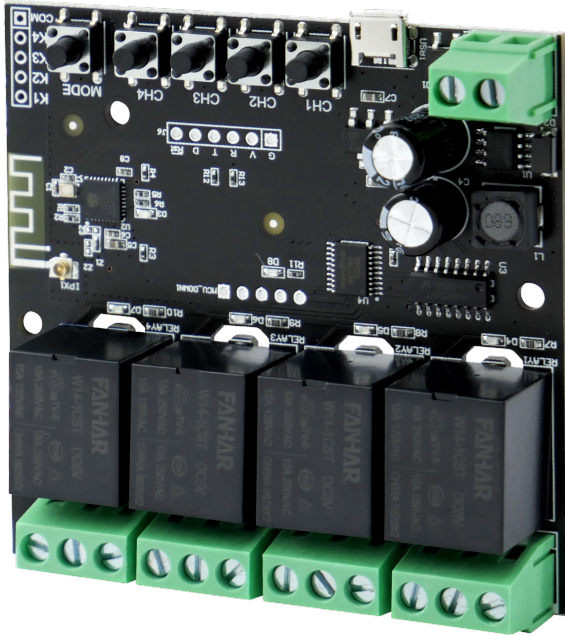

SMART RELAY 12V / 4 relay channels

SMART RELAY 220V / 1 relay channel

SMART PLUG EU / 1 outlet

SMART PLUG UK / 2 outlets / 1 USB

SMART METER 220V / 1 relay channel

Smart Relay

MSR12-4

Thanks to the smart Wi-Fi relay, you can not only see, but also control the access points.

These devices will turn any object into a smart home with controls via Partizan mobile application – simple and modern!

Wi-Fi connection

4 independent relays

Custom event schedules

Can be powered by a power bank

Small size

Inching mode

for electromagnetic and electromechanical locks

Self-locking mode

for household appliances, lighting and electrical devices

Interlock mode

for barriers, automatic gates, gateway entrances

Smart Relay

MSR220-1

Universal Wi-Fi relay for intelligent 220V power control via Partizan mobile application.

It is plugged directly into the power grid.

The Power Monitoring function allows you to monitor the level of electricity consumption.

Smart relay MSR220-1 is supplied in a housing, this makes the installation process easy.

The device can be installed without using additional boxes.

Wi-Fi connection

Power monitoring

1 relay 220V

with load up to 16A

Inching mode for electromagnetic and electromechanical locks

Self-locking mode for household appliances, lighting, electrical devices and “smart socket” emulation

Smart Plug

MSP-1EU

The easiest way to make your home "smarter"! Control your electrical appliances remotely via Partizan mobile application, monitor the level of electricity consumption, set a timer or create a detailed ON/OFF schedule.

Wi-Fi connection

Power monitoring

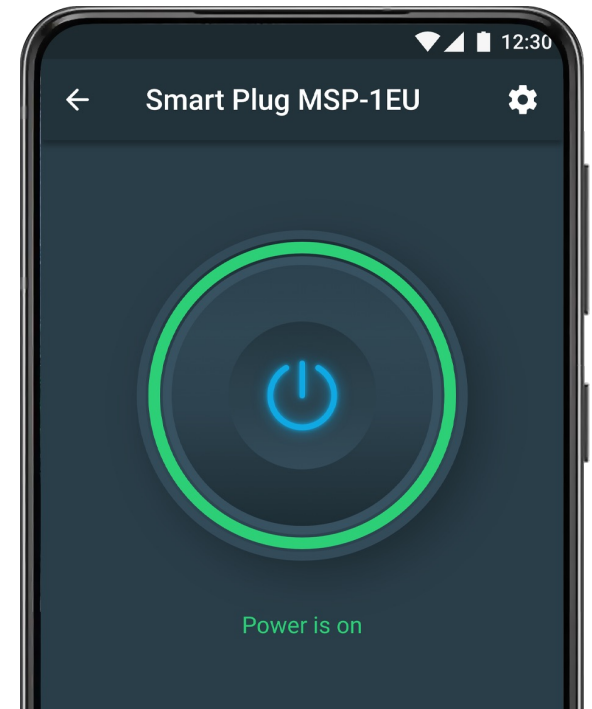

ON/OFF Timer

Device schedule

Euro Plug Socket

Smart 2-Outlet Socket

MSP-2UK

Twice as much benefit with one smart device! Even three times, because MSP-2UK is equipped not only with two 220 V sockets, but also with a USB port.

Wi-Fi connection

2 plugs + USB port

ON/OFF Timer

UK Plug Socket

You can use each socket separately, controlling them via Partizan mobile application or using the buttons on the housing (the USB port works constantly).

The device supports a timer and on/off schedule functions.

Smart Meter

MPM-220V60A-1-WF DIN

Smart energy consumption measurement

LED indication of the current state and some possible electrical issues

Scheduled On/Off timer and ability to control connected device from mobile app

Power On/Off delay function

Wi-Fi connection

Power monitoring

1 relay channel

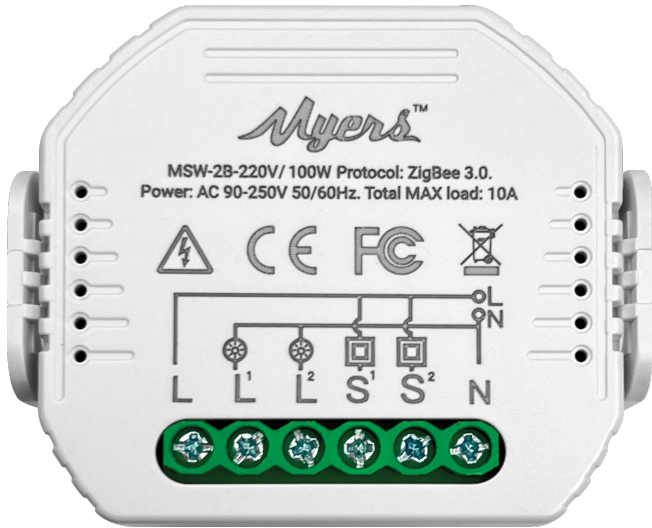

SMART LIGHTING

SMART LIGHT DIMMER / 2 buttons / 220V / 100W

SMART LIGHT SWITCH / 3 buttons / 220V / 100W

SMART SCENE SWITCH

Smart Light Dimmer Switch 2 Buttons

MSW-2B-220V100W

Designed for lighting devices with brightness control of each with 2 channels.

It can be hidden in the wall during installation, or you can use it with a switch panel. In the first case, you can control the device only via Partizan mobile application. In the second case, you can additionally use keys and dimmers.

ZigBee protocol

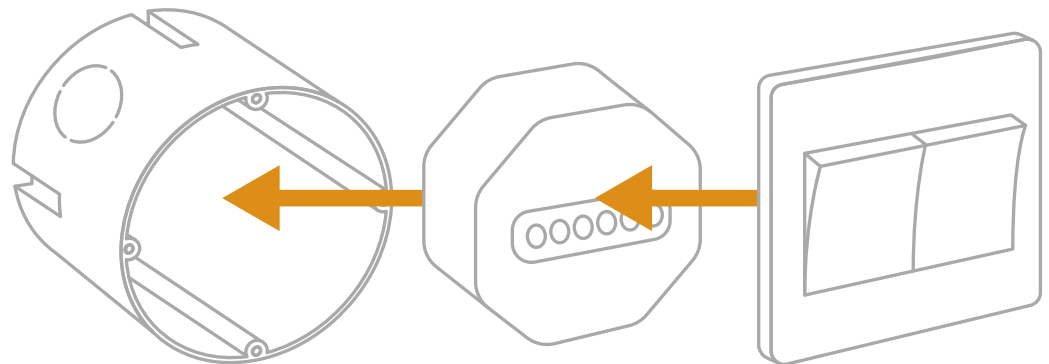

Brightness adjustment

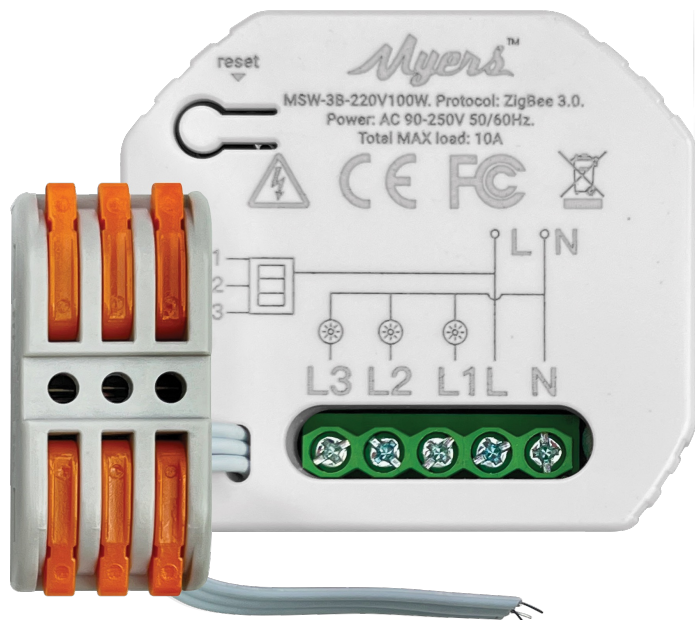

ON/OFF Timer

2 channels/buttons

Smart Light Switch 3 Buttons

MSW-3B-220V100W

It is similar to the previous device but without the dimmer function. However, MSW-3B-220V100W has 3 channels, so you can control three electrical devices or lighting points with it.

Control can be done with the classic switch keys, or in a more convenient way with Partizan mobile application. Spring terminal for three cables in the kit.

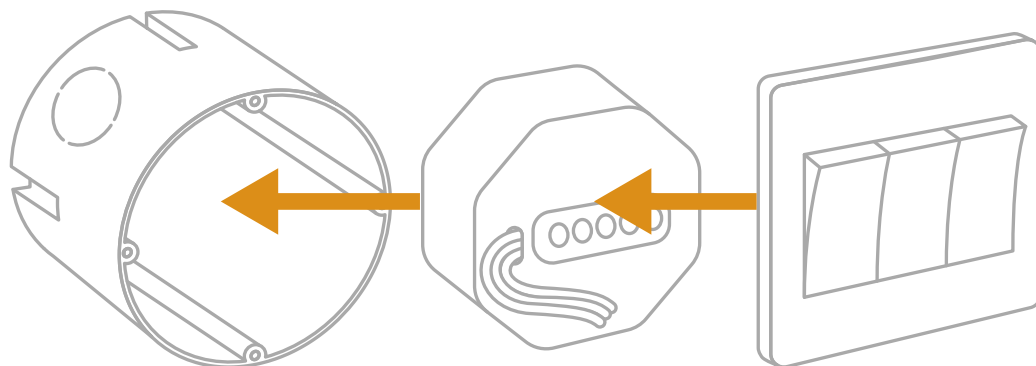

ZigBee protocol

ON/OFF Timer

3 channels/buttons

COMING SOON

Wireless Dimmer Scene Switch

MSB-LC1-ZB

Wireless touch-sensitive lighting control button.

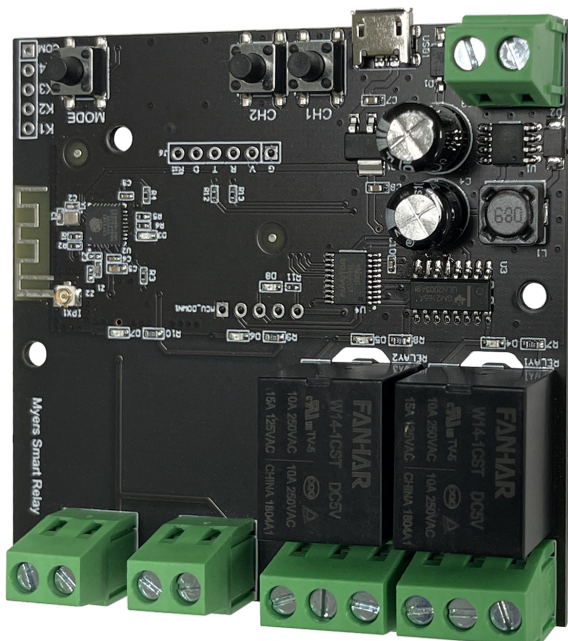

Can be placed anywhere and connected with up to 20 “smart” lighting sources under Myers system control.

You can use the button itself or control its functionality with Partizan mobile application.

SMART AUTOMATION

SMART RELAY 12V / 2 relay channels / 2 alarm inputs
SMART CURTAIN CONTROLLER with Remote Controller

Smart Relay

MSR12-2x2

Thanks to the smart Wi-Fi relay, you can not only see, but also control the access points.

Gates closed

Gates in progress

Gates opened

Wi-Fi connection

2 independent relays
and 2 alarm inputs

Custom event schedules

Can be powered by a power bank

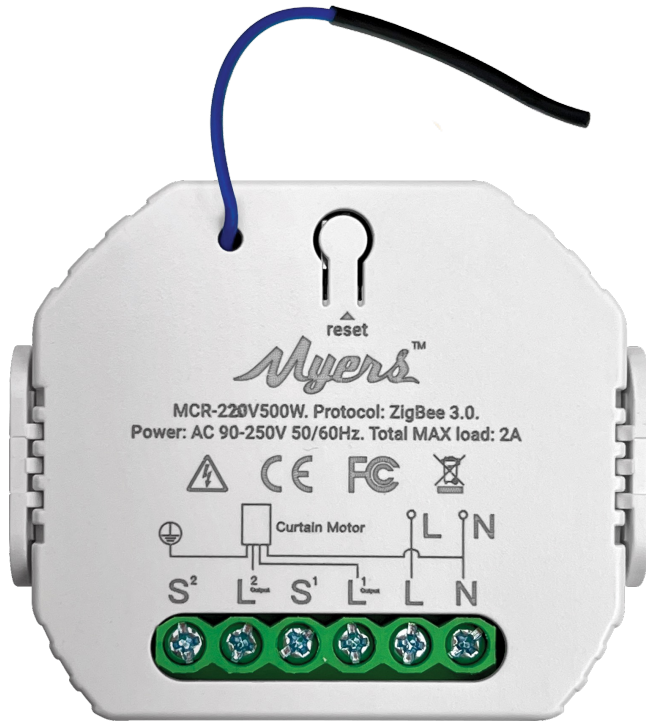

Small size

Interlock mode for electric shutters,
automatic gates and barriers

Inching mode for electromagnetic
and electromechanical locks

Smart Curtain Switch

MCR-220V/500W

Specifically designed to control window blinds and automatic curtains.

This compact device will be a great addition to the convenient management of your home or office. You can do this using Partizan mobile application or MRC-RF remote control. Convenient, in any case!

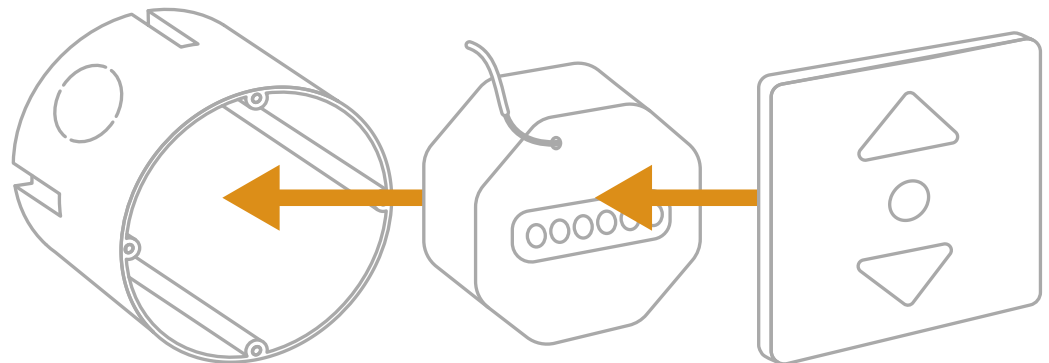

ZigBee protocol

Device schedule

Remote control of curtains, blinds, and electric shutters

**Recommended accessory
for smart curtain controller MCR-220V/500W**

MRC-RF

Classical manual IR remote controller for Myers
Curtain Switch

For those who are still like some manual control

SMART HEATING

SMART PROGRAMMABLE THERMOSTAT HEATER/CONTROLLER

WI-FI ELECTRIC HEATING THERMOSTAT

WI-FI GAS/WATER BOILER THERMOSTAT

Smart Radiator Thermostat

MHS-RC1-WF

Point by point control

Smart heating management

Temperature control and display

LED interface for manual setting

Wi-Fi connection

Temperature control

Smart Electric Boiler Thermostat

MHS-ET1-WF

Game changer for responsible and efficient energy consumption!

Electric Heating Thermostat MHS-ET1-WF managing your autonomous heating system by connection to the relevant boiler

Smart boiler thermostat controlled via Wi-Fi using Partizan mobile application. Program your individual heating schedule, set the timer, and change the temperature at home remotely.

Wi-Fi connection

Smart Gas/Water Boiler Thermostat

MHS-WT1-WF

Game changer for responsible and efficient gas consumption!

Electric Heating Thermostat MHS-WT1-WF managing your autonomous heating system by connection to the relevant boiler

Smart boiler thermostat controlled via Wi-Fi using Partizan mobile application. Program your individual heating schedule, set the timer, and change the temperature at home remotely.

Wi-Fi connection

SMART DETECTION

- SMART GATE MAGNETIC SENSOR
- SMART PIR SENSOR
- SMART SMOKE SENSOR
- SMART GAS SENSOR & SMART VALVE
- SMART WATER SENSOR & SMART VALVE

Smart Magnetic Sensor

MSS-MS1-WF

Monitor the closed/open status of your gates, doors or windows using Partizan mobile application!

Smart Magnetic Contact does not need any additional wires, because it works autonomously from an electric battery.

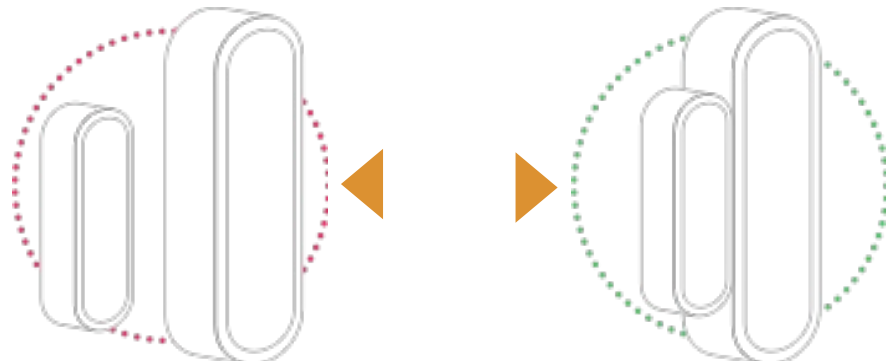

Excellent choice for a tandem with the MSR12-2*2 garage door Smart Relay.

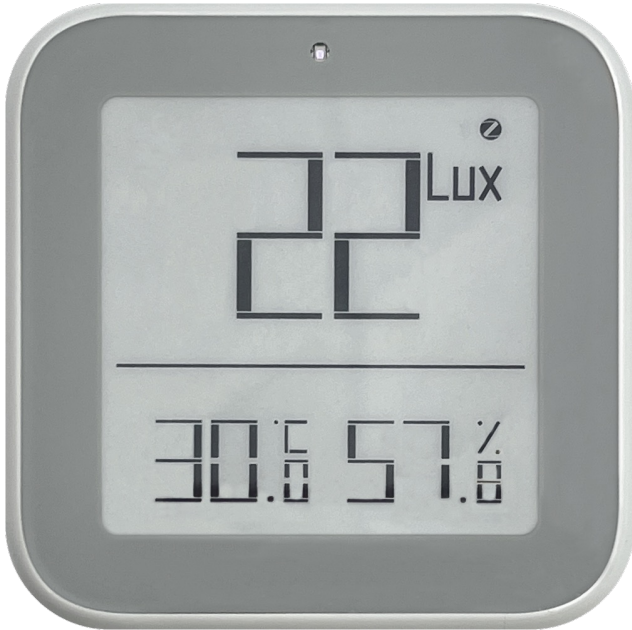

Wi-Fi connection

Wireless battery-powered device

Smart Temperature+Humidity+Light Sensor

MSS-THL1-ZB

Temperature measurement and display

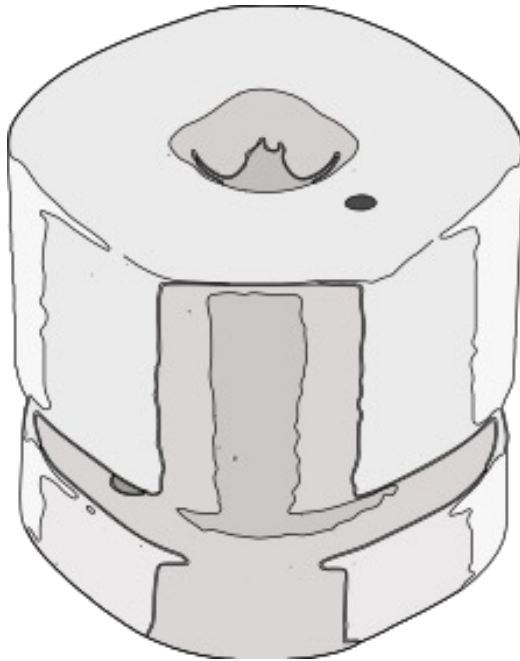

Humidity measurement and display

Light strength measurement and display

Important source of data for the rest of your Myers smart home devices to control your curtains, heating and other systems

ZigBee protocol

Smart PIR Sensor

COMING SOON

ZigBee protocol

Smart Gas Sensor

COMING SOON

Wi-Fi connection

Recommended accessory

Smart Gas Valve

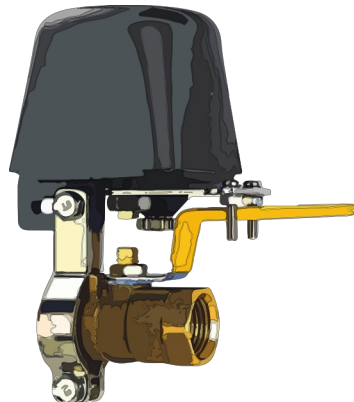

Smart Water Leakage Sensor

COMING SOON

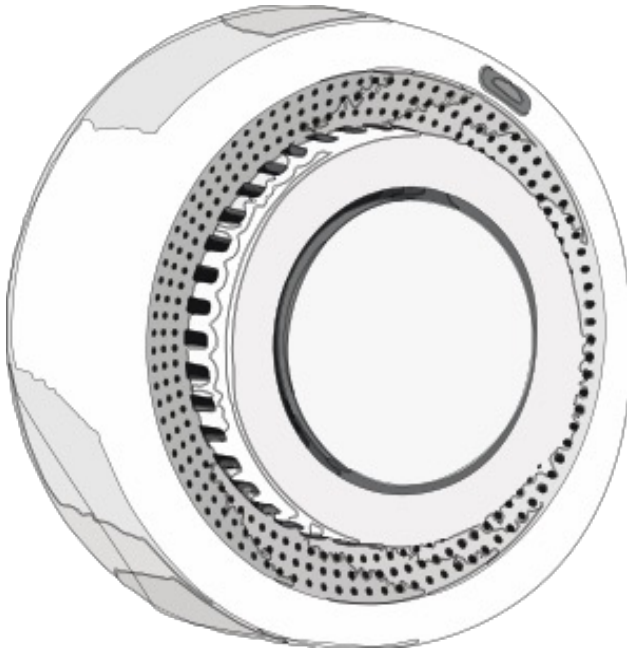

Wi-Fi connection

Recommended accessory

Smart water valve

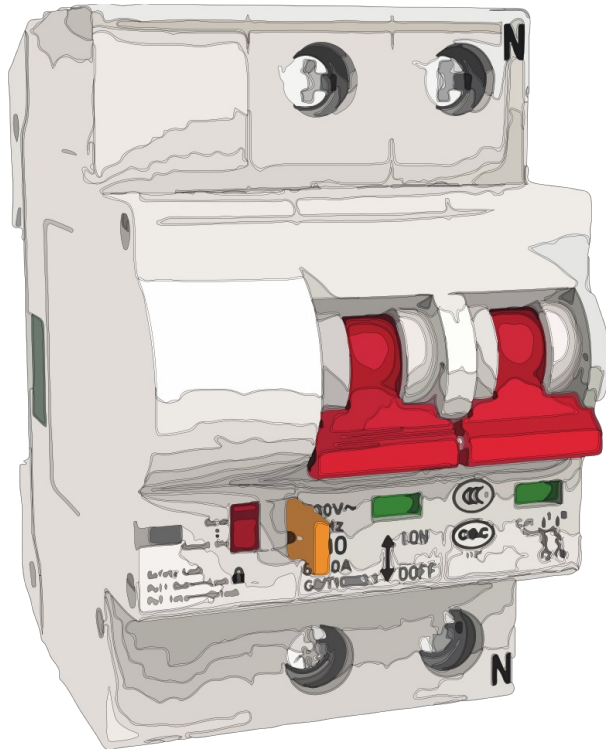

Smart smoke detector

COMING SOON

Wi-Fi connection

Smart Circuit Breaker

COMING SOON

Wi-Fi connection
