

## Who we are

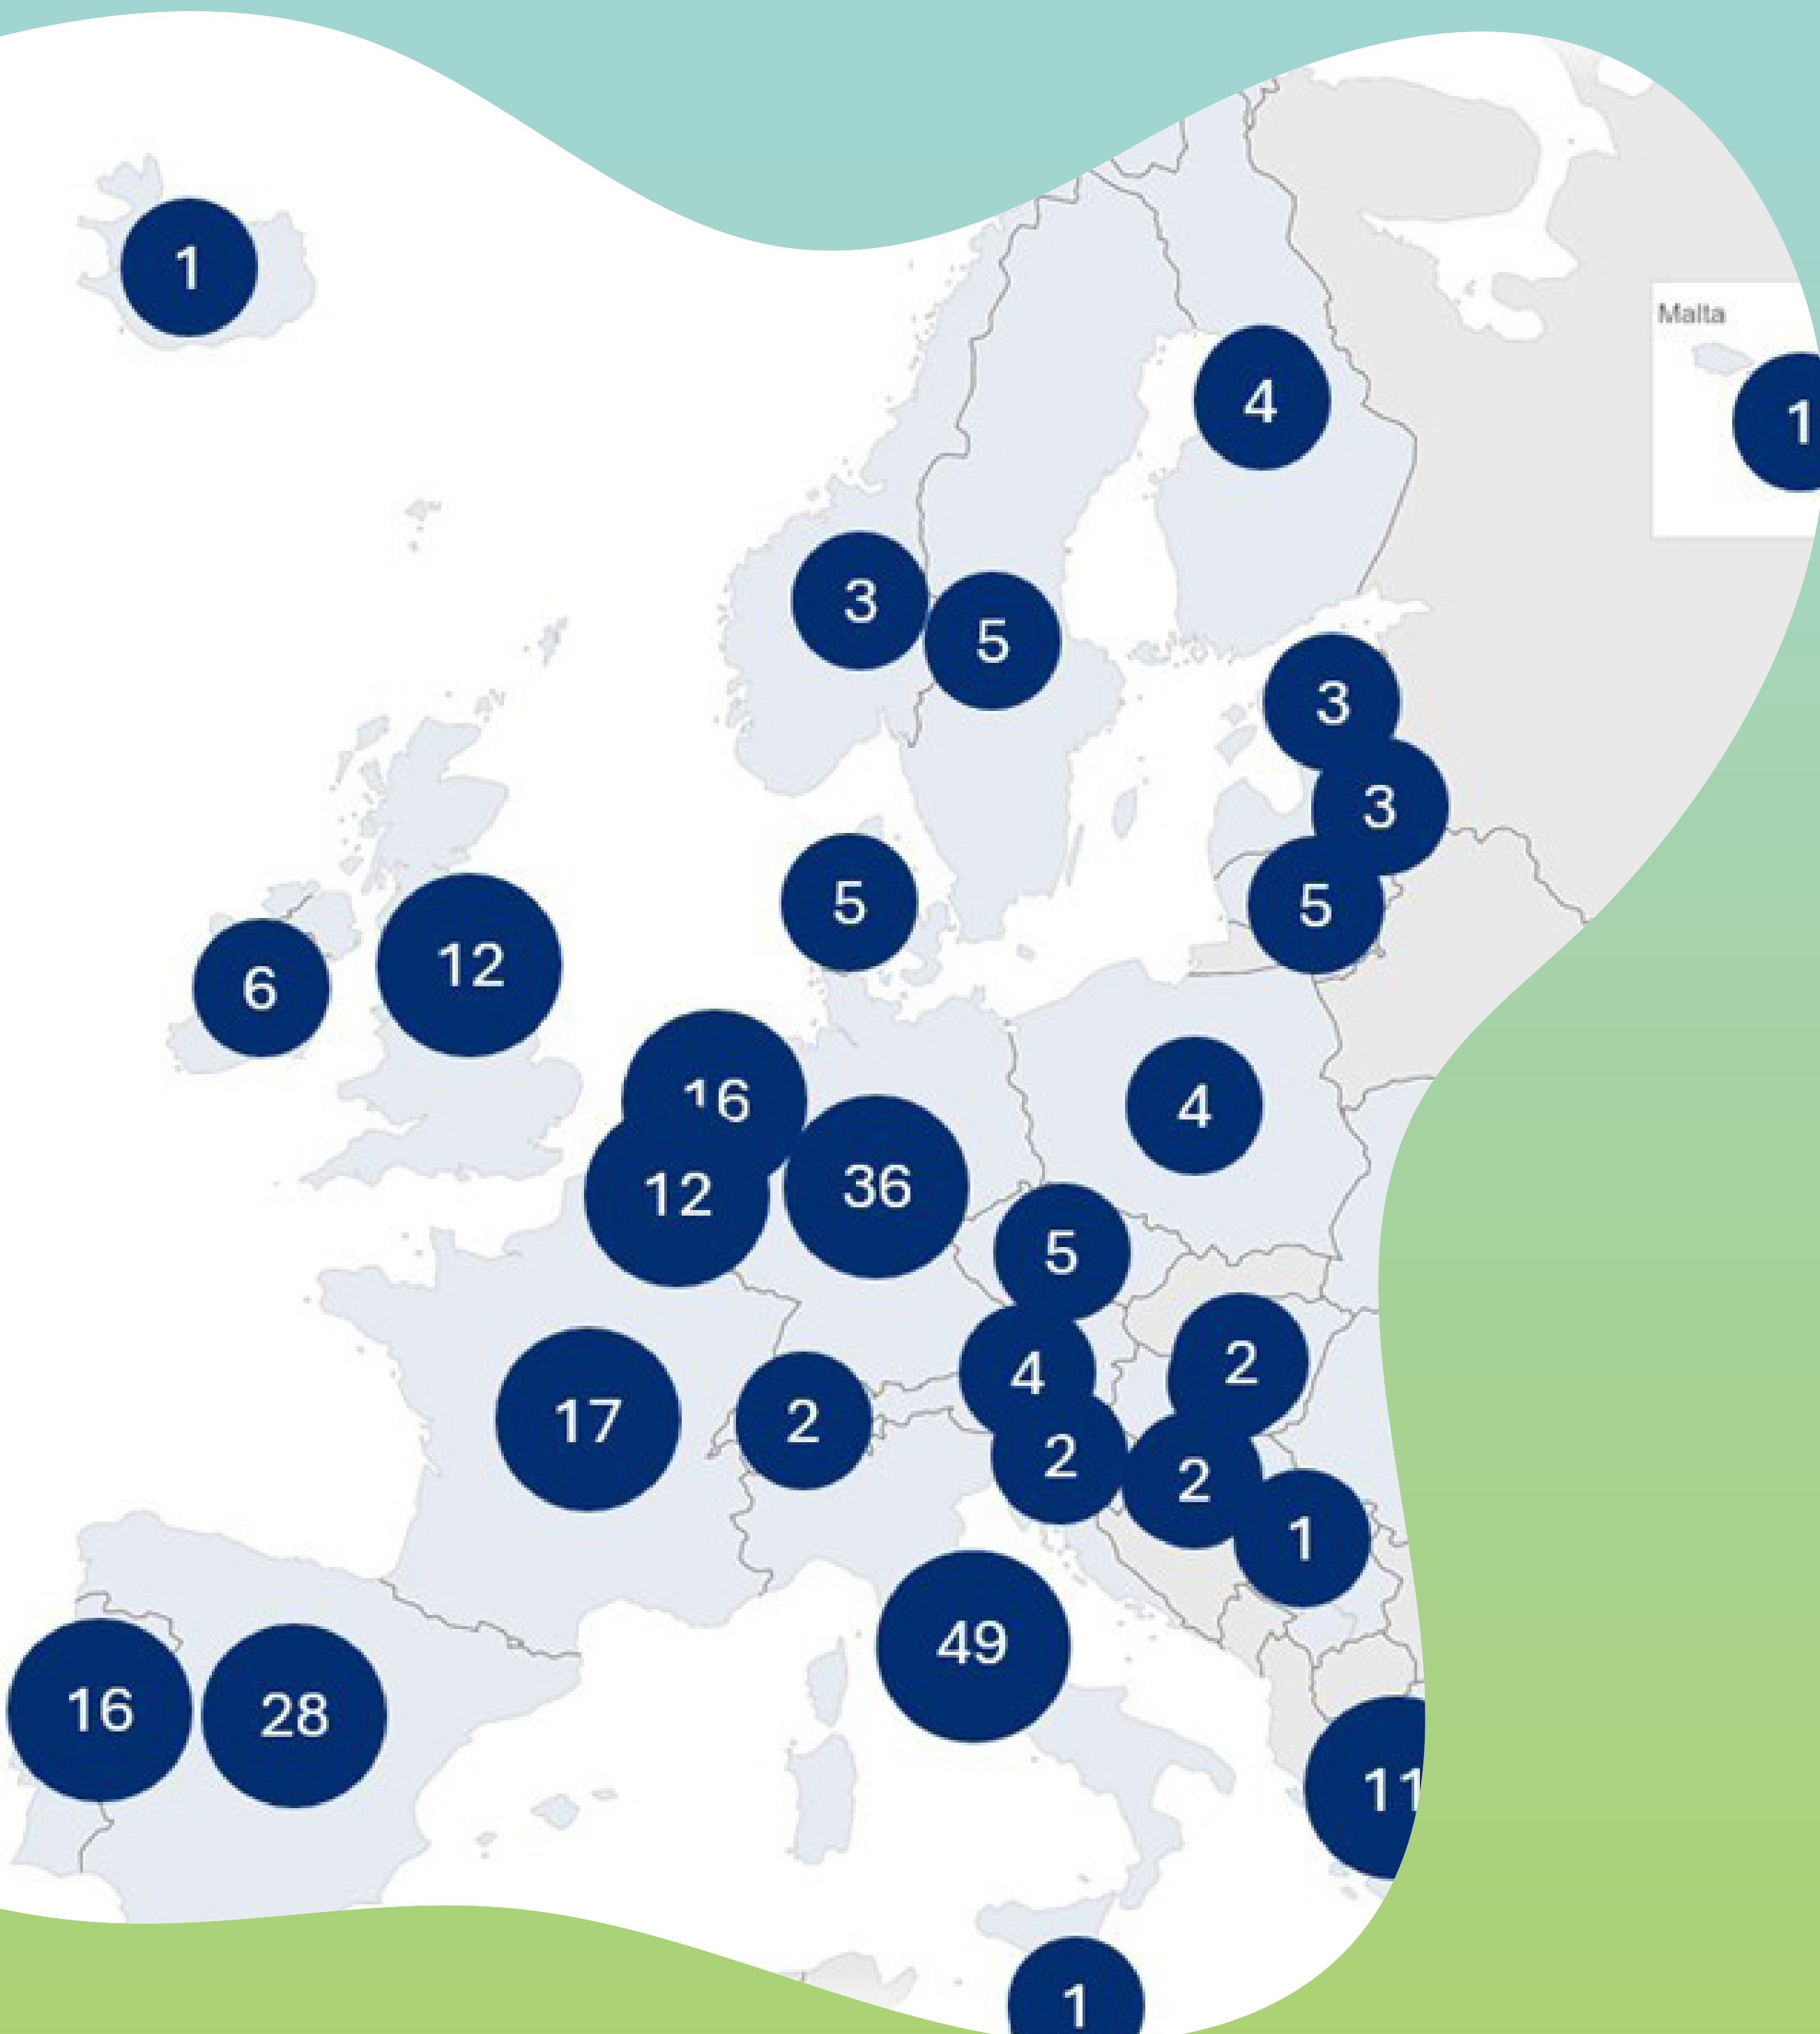

A network of 270+ healthcare organisations advancing the safe, effective and trustworthy use of AI for cancer and cardiovascular prevention, early detection and diagnosis, as a flagship of the EU Apply AI Strategy.

## What we are working on

We deploy and validate AI in real-world care, share evidence and lessons learned, aim to expand access to advanced diagnostics, build AI skills, and strengthen European collaboration and innovation.

## What's the one thing we need next

We aim to align network members' needs with EU support, while connecting hospitals with European SMEs to pilot AI-powered solutions and scale up AI adoption across Europe.

**5 years Mission Cancer:  
Stronger Through Connection**

BRUSSELS

29 SEPTEMBER – 01 OCTOBER
