

RIDNE

Ridne Food Consortium unites 25 small and medium Ukrainian farmers and 11 food factories

We have been united in the beginning of the full-scaled russian invasion, in March 2022. Our strength is in unity. Our aim is food security of Ukraine and Ukrainian people.

- ▶ *Our Consortium unites groats production, flour mills, canned meat factory, canned vegetables producer, canned fish producer, pasta and sunflower oil factories and dairy production;*
- ▶ *Our factories work in the conditions of war, humanitarian, economical and energy crisis;*
- ▶ *Our Consortium unites factories that continue to work and produce quality simple and cheap food products despite the war;*
- ▶ *We unite leaders in each food production segment, that are represented in all most quality Ukrainian grocery stores;*
- ▶ *We coordinate strategy on entering new international food markets;*
- ▶ *We participate in the international food trade shows;*
- ▶ *"Ridne" consortium was created to consolidate food and agricultural companies for quality, operative and effective implementation of food humanitarian aid programs;*
- ▶ *We cooperate with the international humanitarian organizations, NGOs and international funds.*

RIDNE Food Consortium

- ▶ *The philosophy of the consortium is not only to provide citizens with food products.*
- ▶ *We have created new workplaces in rural areas of Ukraine*
- ▶ *We have working programs for internally displaced people*
- ▶ *Factories of our Consortium pay taxes and support local Ukrainian economy*
- ▶ *We have united so as to continue strengthening the food front and offer the necessary resources to Ukrainians who have suffered from RF's aggression. In this matter, our foreign partners' help plays a vital role.*
- ▶ *Our Consortium has a desire to work and develop our Ukrainian economy*

Facts about RIDNE Food Consortium:

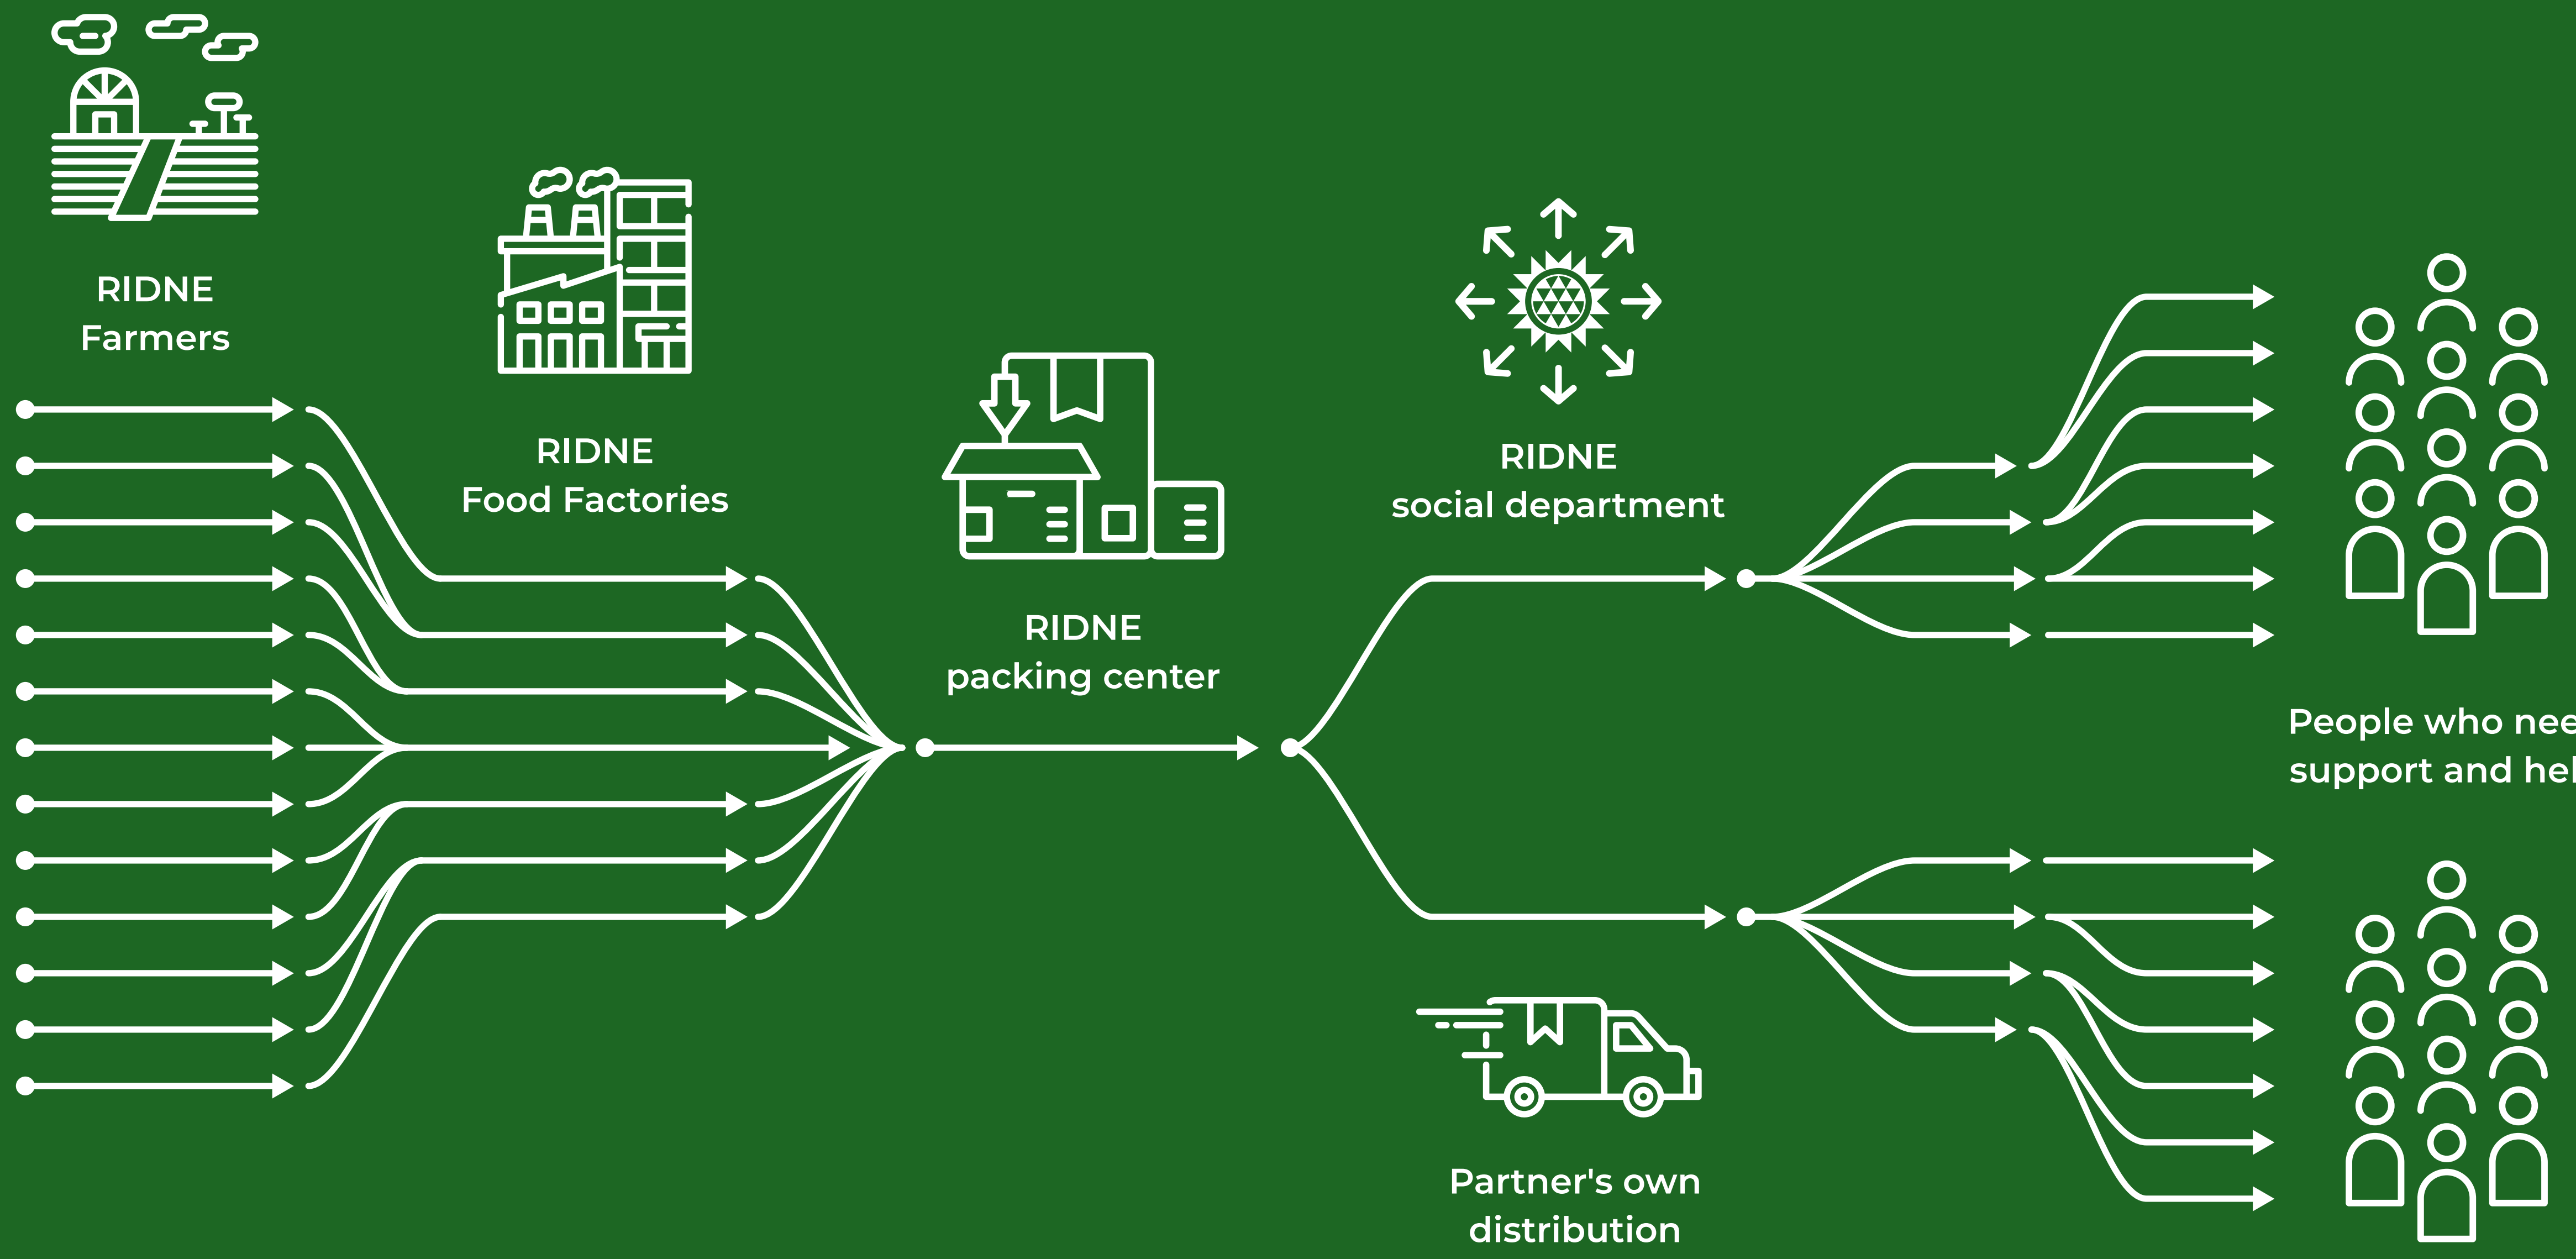

- ▶ 2170 people work on the food factories that our Consortium unites;
- ▶ 25 small and medium farmers and agricultural companies supply grain for the needs of RIDNE Food Consortium;
- ▶ Consortium is a unity of small and medium Ukrainian business that was united for greater things and development despite war and turbulences in the Ukrainian economy;
- ▶ We prepare food parcels on our warehouses/logistic hubs and provide delivery in time and under the tight schedule despite of constant turbulences because of infrastructure damages;
- ▶ We do not work with the Ukrainian state institutions and state budget;
- ▶ Our factories produce simple food products: flour, groats, sugar, pasta, sunflower oil, cookies, canned meat, canned sardines in oil, canned vegetables, canned condensed milk, etc.
- ▶ Currently we produce and supply around 300,000.00 units of each food product per month only for humanitarian needs and programs;
- ▶ We have a special department that analyses nutrition programs and offers a balanced food parcel in relation to each social category;

RIDNE Food Consortium has different directions of food security projects implementation:

- ▶ *For some international organizations like GEM and Howard G. Buffett Foundation we supply different food products to their warehouses. Where organizations prepare food boxes themselves.*
- ▶ *For World Vision, Health Right Int., Human Bridge and Humana we supply ready food boxes that we prepare on our RIDNE Packaging Centre.*
- ▶ *For Scandinavian organizations like THK, Vinden, Ö-hjälpen we cover the whole project from the food production to people that require food support. We produce food, prepare the food parcels and distribute them by our RIDNE Social Department, which is a division of RIDNE Food Consortium. In coordination with our Partners we distribute food boxes to people in need all over Ukraine.*

Address: 278200, Ukraine, Ivano-Frankivsk area, Kolomyja, Sichynsky street, 53

RIDNE

Ridne Food Consortium — Sustainability

All farmers and food factories that are united in RIDNE FOOD CONSORTIUM are sharing one vision of implementation and moving towards sustainable production in everyday business practices. As we realize that sustainable world is a key to the safe and prosperous future. Even during the war time, we already implement sustainable agricultural and food production practices: lower carbon emissions in agriculture (inhibitors usage), no-till, organic fertilizers application, ecological food packaging usage, etc.

*RIDNE Food Consortium is a closed “**eco-system**”, where we have strict chains coming from the definite farm to a food factory and ending up with the end-consumer.*

*Our strategic partner in building up our Consortium into the true sustainable organization is a leading consulting company – **The Sustainability Group from the Great Britain (Future Plus Platform).***

F U ⁺ U R E P L U S

Our Vision

RIDNE is the largest consortium of food producers in Ukraine, created to implement common goals and visions between members and to consolidate food and agricultural enterprises in order to implement humanitarian aid programs sustainably and effectively. Our vision is based on the principle of win-win cooperation, where our achievements and experience are the outcome of the merits of every member of the consortium.

Our Mission

We aim to create a unified program of sustainable production for our farmers and food factories, implemented in partnership with the international organisations we work with. Our mission is not only to provide Ukraine and Ukrainians with food security at a time of conflict but to support farmers and empower citizens through the creation of jobs and the modernisation of manufacturing facilities. Our aim is to be a role model for other agri-models in Ukraine, implementing sustainable farming and production methods.

Our Values

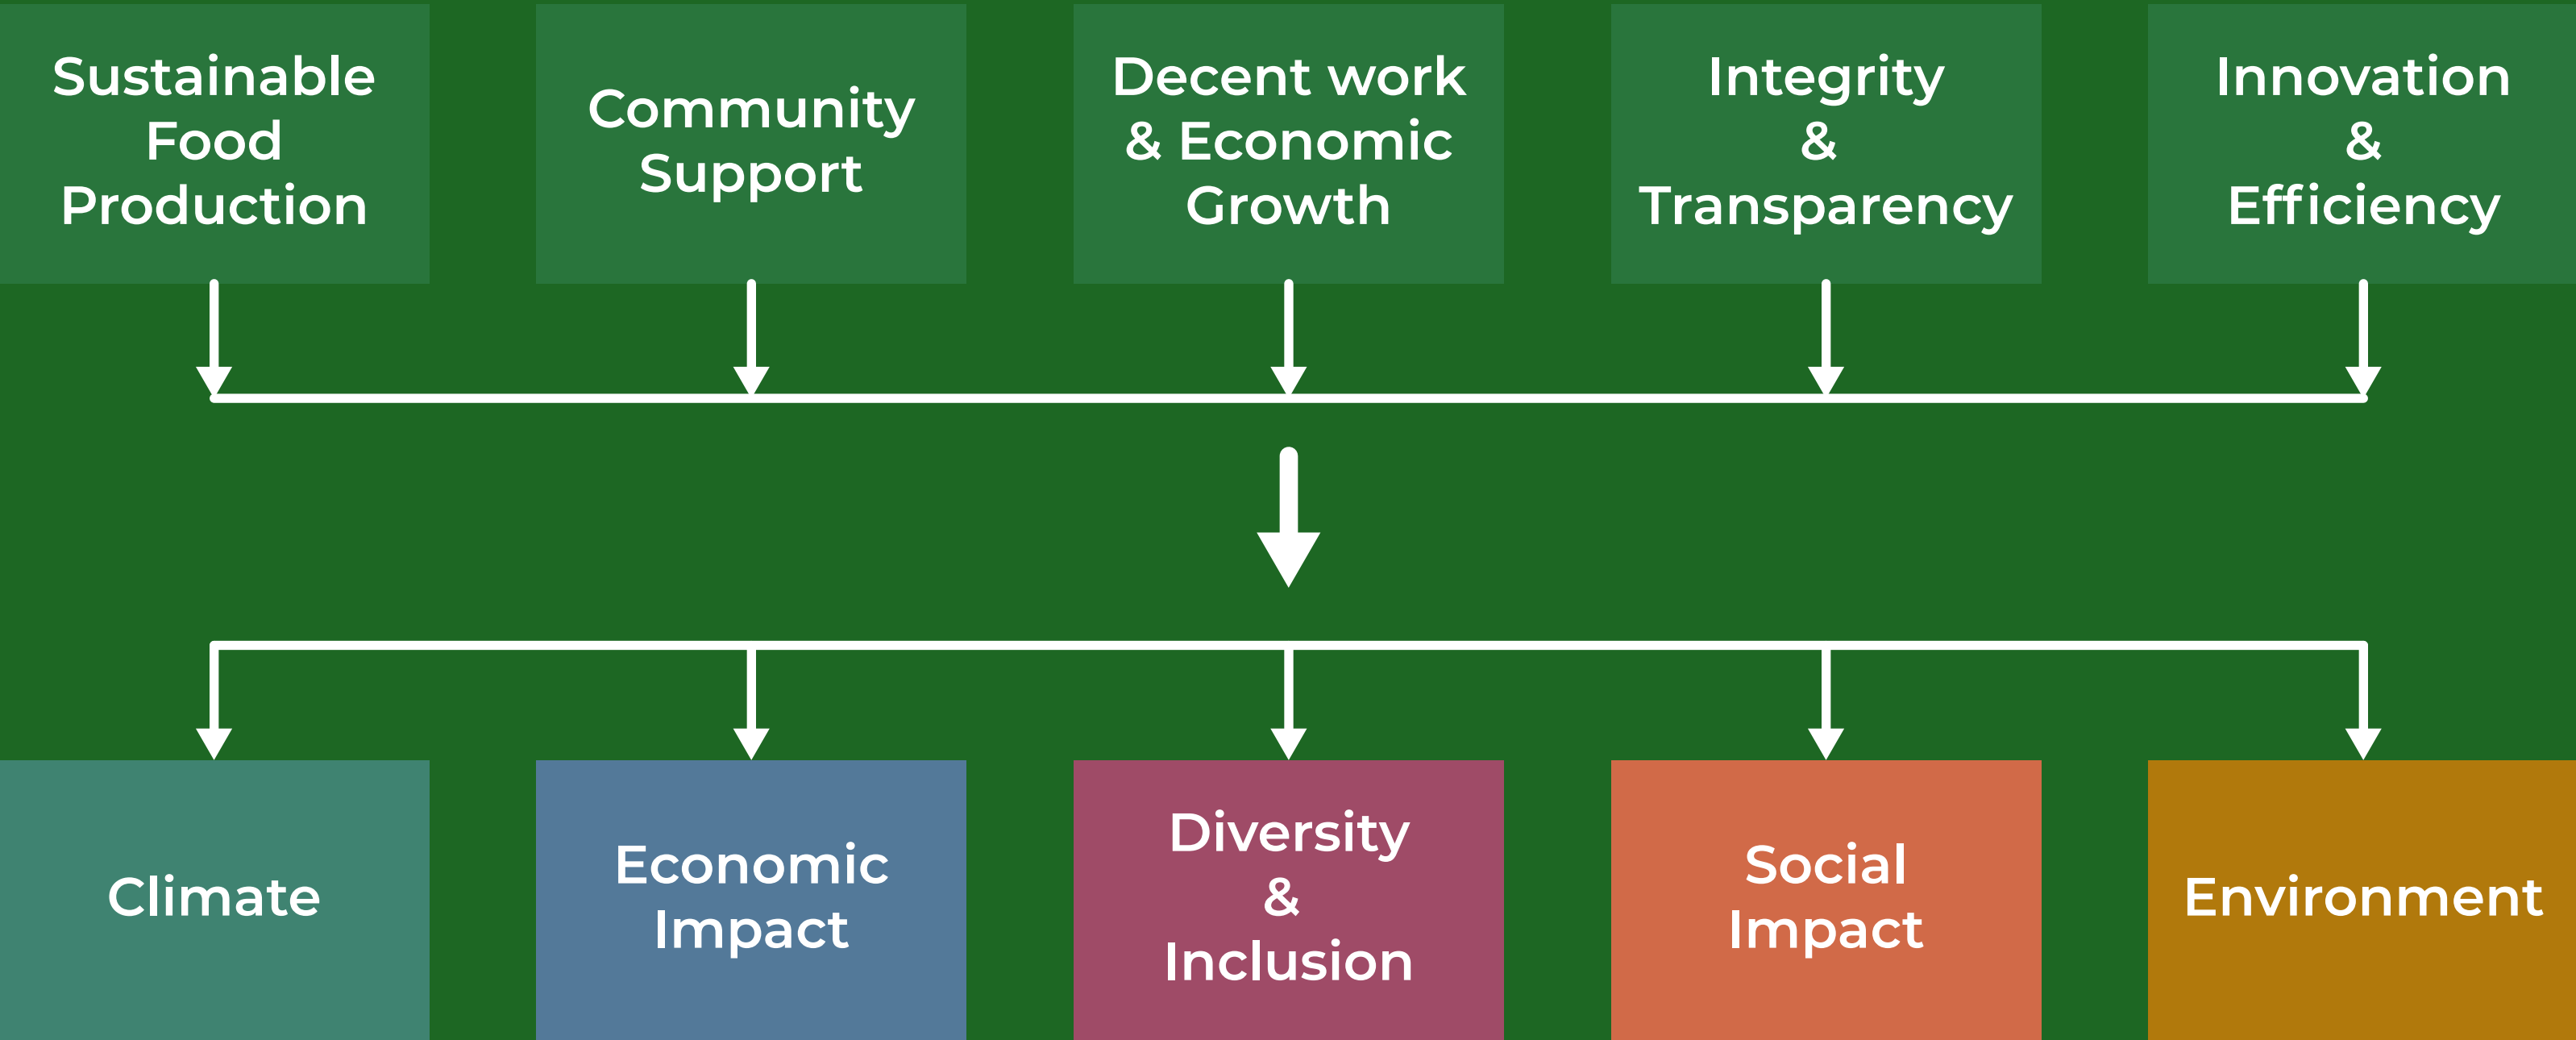

Ridne's main principles are quality, efficiency, flexibility, and the use of sustainability-grown and produced Ukrainian-made products and raw materials. As we continue to work with international organisations and funds, we realise the importance of working with partners who share these common values.

Products

RIDNE's Core Pillars of Sustainability

RIDNE has five Core Pillars of Sustainability, which map directly into the five themes of sustainability defined within the FuturePlus framework. These are outlined below. Each theme contains sustainability indicators that allow us to measure, monitor, improve and report on the consortium's sustainability progress and ambition.

At present we cooperate with:

- Global Empowerment Mission GEM (USA)
- The Howard G. Buffett Foundation (USA)
- Inter Prosperity (USA)
- USAID (USA)
- World Vision (USA)
- Health Right International (USA)
- Mission Eurasia (USA)
- Human Bridge (Sweden)
- Vinden (Sweden)
- THK (Norway)
