ABOUT US

We specialize in the production of foldable IBC containers for the transport and storage of solid, loose, and liquid substances. For more than three decades, we have applied our own expertise to support quick, safe, and efficient logistics. Backed by a strong R&D team, we focus on developing a range of innovative products that simplify storage, logistics, and operations.

We have implemented the international standards ISO 9001 and ISO 14001, which allow us to ensure efficient quality management and environmental protection throughout our entire production process.

IBC Container

A complete range of foldable steel IBC solutions for liquid, loose and solid materials, suitable for various industries.

They stand out for their unsurpassed lifespan and high level of recyclability.

A custom-designed filling bridge is available for easy filling and discharging, compatible with all liner bags on the market.

**Maximum Flexibility
and Easy Handling**

Simple and easy handling, optimal use of space, and maximum flexibility.

Reduced return logistics costs – FOLDABLE containers save more than two-thirds of storage space.

Efficient use of space during transport – a key factor in **saving time and money** for your business.

Long service life – thanks to strong **galvanized structural steel**.

A worldwide patented **self-locking system**.

Easy cleaning, with the option of cleaning containers in automatic lines.

MAIN PRODUCTS

Gitterboxes

Strong and highly resistant steel-fenced containers designed for the transport or storage of bulky goods and materials with a high load capacity.

- A **locking system** ensures convenient assembly and disassembly by a single operator.
- **Galvanized structure** resistant to corrosion, contamination, and other adverse environmental effects.
- **Polypropylene bottom** for the safe storage of smaller items.
- **4-way pallet base.**

**High Quality
Steel Products**

Steel Pallets

Galvanized steel pallets – a durable and robust choice for special material handling needs.

- **Highly stable and stackable**, thanks to corner stops.
- Resistant to corrosion and weathering.
- **Resistant to contamination** by microorganisms or other harmful substances.
- Fire-resistant.
- **100% recyclable.**

**High Quality
Steel Products**

MAIN PRODUCTS

Big Bag Rack 1000L

Foldable steel support structure for 1000L Big Bags.

- A handling solution for logistics and the storage of **loose materials**, such as **granulates, powders**, or other goods packed in Big Bags.
- Transport and storage of the assembled **structure in one piece**.
- Simple, **stackable** system.

**High Quality
Steel Products**

Our Services

LASER CUTTING

Laser cutting provides detailed and very precise division of metal materials made of stainless steel, steel and aluminium.

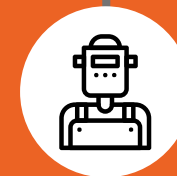

ROBOTIC WELDING

Robot ABB IRB 1600 ensures smooth weld seams and high quality of final work pieces. Precise, detailed and faultless.

CNC EDGE BENDING

The fastest press brake in the given class. TruBend 5130 has an excellent performance, accurate results and perfect angles.

LASER WELDING

Laser is a detailed and precise tool with all types of welds. Detailed accuracy, high speed and smooth, solid welds.

Additional Products

Foldable Benches

A comfortable bench for sitting or a picnic set for a garden party. Quick and easy deployment.

**3 in 1
Solution**

- **Solid and stable construction**, guaranteeing a long life and safe use.
- **Ergonomic design** for maximum comfort while sitting.
- **Quick and easy handling**, with straightforward assembly and reassembly.
- Universal use in both **interiors and exteriors**.
- **Low maintenance** requirements and compact storage.

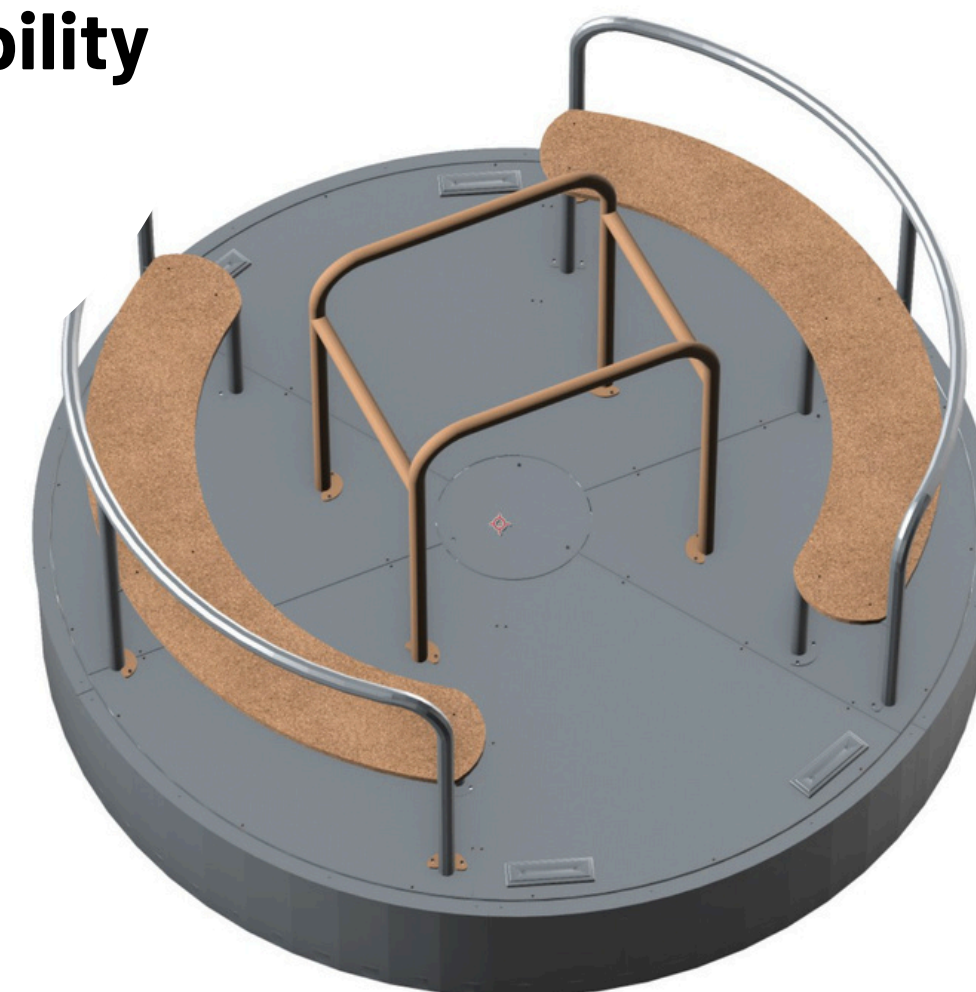

ADDITIONAL PRODUCTS

Children's Carousel Lucky

The **high-quality, perfectly crafted carousel** rotates around its own axis, with the entire visible structure moving on and above the surface of the earth. It is designed to accommodate up to 4 children sitting on benches, +2 children in wheelchairs simultaneously.

- Made of **high-quality** materials.
- **Approved for public use.**
- Fully assembled and **ready for installation.**

Suitable for Children with Limited Mobility

References

After many years of dedicated effort, we have earned the esteemed respect of our partners and established a solid presence in the global market. Our products are highly competitive and fully compliant with international quality standards. We have evolved into a robust and prosperous company, forming equal partnerships with renowned organizations worldwide.

With over **170,000 products delivered** to our partners, we are delighted to continue nurturing successful and lasting collaborations.
