

## OC Open Consulting: Your E-learning Solution

OC Open Consulting is a company that creates tailor-made e-learning solutions to digitize corporate knowledge. From design to implementation, we support you with customizable and scalable ILIAS and MOODLE LMS platforms, perfect for every training need.

### Our main services include:

- **LMS Hosting** – We manage installations of any size with Kubernetes-optimized plans for high performance.
- **System Integration** – We connect your e-learning platform with your company systems, creating secure and scalable infrastructures.
- **Strategic Consulting** – Over 20 years of experience in managing training projects and creating innovative content.

But of course, we are much more than that, because Knowledge is Value, and we believe that your Expertise is your most important Brand.

# Knowledge is Value

## Strategic Consulting and Training Offer Analysis

In recent years, corporate training has evolved rapidly thanks to the introduction of new technologies. For this reason, it is now essential to rethink the Learning and Development sector through the lens of the “why,” rather than focusing solely on the “what” or the “how.” Training must represent a strategic investment aimed at improving team performance and creating new business opportunities. It should also be trackable and measurable.

We offer a nearly unique experience: we began developing and producing multimedia content for e-learning as early as 2004. With our team, we can help analyze the criteria for designing a corporate knowledge management project and advise you on the most suitable technological choices, based on your business needs.

We can help you calculate the value of an e-learning project: the definition of the know-how management objective must align with the real — even unspoken or unidentified — needs of the company. We support you in laying the foundation for an efficient and sustainable e-learning system, guiding you step by step. From the beginning and throughout the entire duration of the project.

### Unlimited Learning with ILIAS and MOODLE

Choose ILIAS or MOODLE for open-source training solutions:

- **Unlimited Scalability:** Ideal for SMEs and large enterprises.
- **No Licensing Costs:** Save with a flexible solution.
- **Comprehensive Support:** Setup, maintenance, and content creation.

## Content Development

We collaborate with your team to create personalized and effective training content:

- **Video Animations** – Visual explanations that simplify complex concepts.
- **Custom Illustrations** – Graphics that clearly represent technical ideas.
- **Gamification** – Game mechanics to boost engagement.
- **Augmented Reality (AR)** – Interactive experiences that enhance learning.
- **Educational Media** – Instructor-led videos and interactive multimedia content.
- **Avatars and Simulations** – Immersive learning with virtual interactions.
- **AI for Learning** – Personalized training paths powered by artificial intelligence.

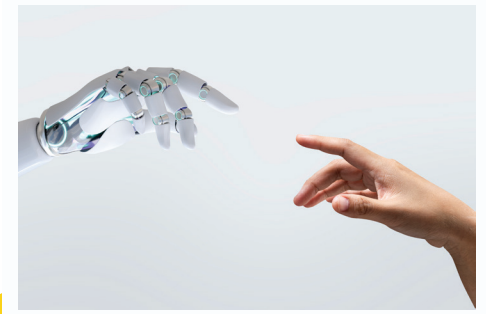

## Digitize Training with AI and Scalable Hosting

Take your corporate training to the next level with tailor-made solutions and cutting-edge technologies. Through our strategic consulting and the integration of Artificial Intelligence features, we provide solutions that streamline content creation and maximize the effectiveness of your e-learning projects.

What we offer:

- **AI Integration** – Create interactive content using the Nolej AI plugin.
- **Trainer Coaching** – Make the most of your LMS platforms' potential.
- **Collaborations** – Develop new features and integrate your systems with the support of our experts.

**we give your training  
the energy it deserves:  
personalized, efficient and scalable**

**where e-learning  
becomes value**
