

YOUTH
CANCER
EUROPE

Who we are

A pan-European network of young people aged 18–39 with lived experience of cancer, ensuring they have a direct role in shaping research, healthcare and policy.

What we are working on

Turning lived experience into change across fertility, mental health, AYA and cross-border care, the Right to be Forgotten, health equity, research and policy.

What's the one thing we need next

Sustainable, long-term funding for patient-led organisations — supporting not only projects, but also the people, infrastructure and advocacy that make change possible.
