ABOUT US

Two centuries of tradition

Horchani Dattes is the inheritor of an ancestral tradition left to it by generation upon generation in the Horchani family who have grown several varieties of thousand-year-old dates for more than two centuries.

It is a family-owned and managed entreprise which has been founded upon the establishment of the largest plantation of date palms in the Tunisian Sahara, located in the valley of Saba Abar, in the heart of Djerid Oasis.

The Horchani dates are absolutely unique in terms of appearance, taste, smell and quality, which ranks them, today, as the best in the world.

ANNUAL PRODUCTION CAPACITIES

First private grower, one of the largest dates exporters

Horchani Dattes, the first private grower of dates in Tunisia, is indeed a real pioneer in the field of exporting and one of its prime leaders since 1930's. And so it happens that every year, in October, 3000 tons of sweet and pleasantly aromatic dates, exquisite fruits of modern ecological cultivations are collected by Horchani Dattes.

Today, Horchani Dattes exports to more than 50 countries in all five continents. As a company, Horchani Dattes reputation relies primarily on the ultra modern equipment of its industrial processing facilities allowing treatment and exportation of about 9500 tons of dates every year. These dates come in four trademarks well known all over the world: Palm fruit, Kartago, Eden Sultan and Nour.

Our well-deserved reputation is also the result of the hard uncompromising and rigorous work methods adopted by Horchani Dattes at the factories in the production and distribution line, thus guaranteeing the highest possible quality of products

FOOD ACCREDITATIONS

Irreproachable Quality

The processing unit is also fitted with a laboratory for physiochemical and bacteriological analyses and control, and equipped with all the necessary machines needed to control quality and check the products at all stages of processing.

Thanks to the various processes used within the processing unit, being certified ISO 9002, HACCP, BRC, Kosher, ECOCERT, BIO SUISSE and NOP the strict quality control at all stages of production remains our first and ultimate objective.

Our Responsibility

Horchani Dattes is very conscious on how its activity affects the region. That's why its activity affects the region. That's why it strives to reduce its energy consumption as low as possible by using solar panels, water purification and high efficient equipment.

Horchani Dattes is also the main employer in the Degache town employing directly and indirectly over a 1000 workers from farmers to highly qualified engineers.

Largest Organic Dates grower

Being a full owner of a palm grove certified organic, Horchani Dattes is the pioneer in this field. For eight years, Horchani Dattes has used organic agriculture based on a selection of the best date palms within the varieties of Deglet Nour certifying organization. The production is labelled AB (Agriculture Bio).

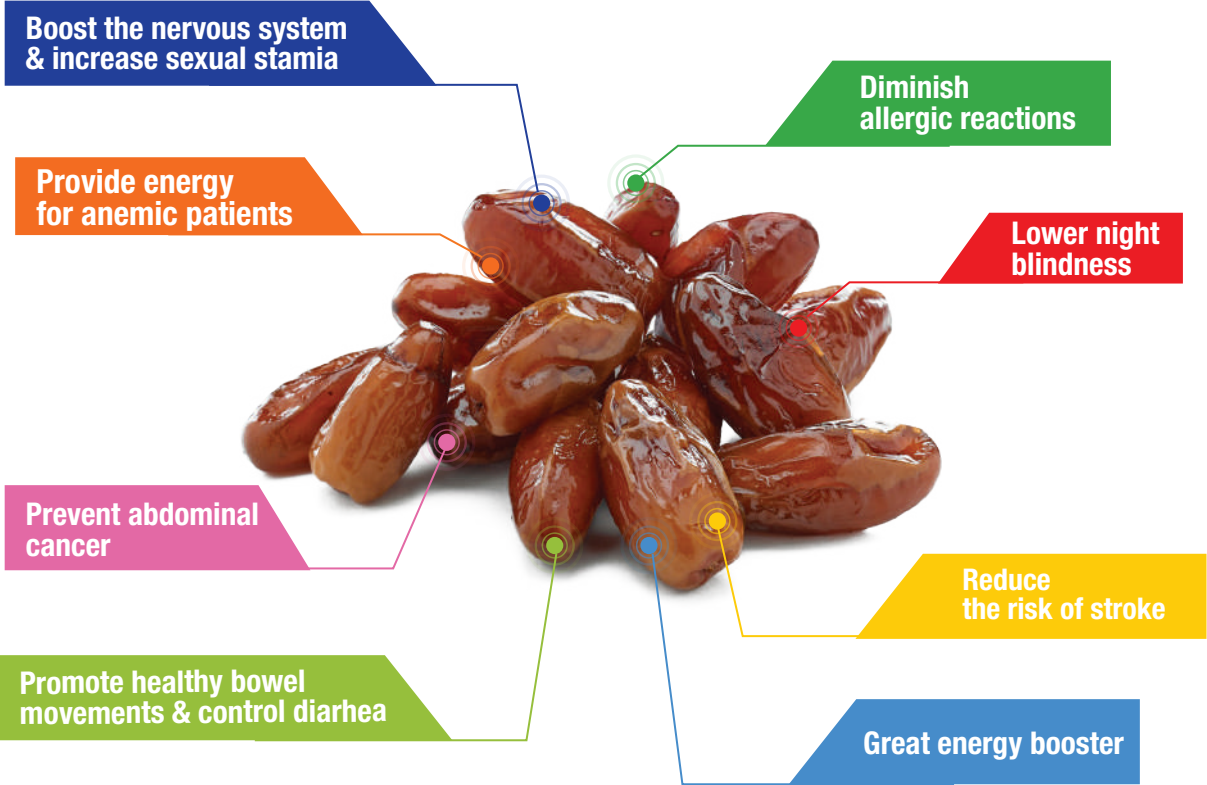

Healthier than any other fruit

The benefits of dates include relief from constipation, intestinal disorders, heart problems, anemia, sexual dysfunction, diarrhea, abdominal cancer, and many other conditions. Dates are rich in several vitamins, minerals and fiber too. These delicious fruits contain oil, calcium, sulfur, iron, potassium, phosphorus, manganese, copper and magnesium which are all beneficial for health. Some health specialists have said that eating seven dates per day is necessary for a balanced and healthy diet.

DATE VARIETIES

Deglet nour

It's the queen of all varieties of dates. Of Superior quality and with a honeyed taste unique in its kind, this variety of date is the most appreciated in the world. It is traditionally known as 'Fruit of shining light' for its translucent colour, the smooth appearance of its texture and the grace of its length.

Allig

Longish in size, soft looking and especially tasty, this type of date is harvested in November. Its colour is dark mahogany and its texture semi-soft.

Khouat Allig

Commonly known as 'the sister' for its similarity to Allig in texture, colour and taste although it has a shape slightly thinner and less sweet taste.

Kenta

Light-golden fruit with an attractive appearance, this variety of date matures early. It is less sweet than all the other varieties and its texture is semi-dry.
