Efficient logistics

Greenpipe Quick Eco Base™ 60/520

Eco-friendly and sustainable design, Quick Eco Base™ enables a simple & quick installation process

Tired of complex, time-consuming installations? Greenpipe Quick Eco Base™ 60/520 is your fast, reliable solution for stable post installation without the hassle.

It's not just about saving time. It's about getting the job done right – quickly and efficiently.

Greenpipe Quick Eco Base™ 108/900

Maximize stability and cable management with Greenpipe Quick Eco Base™ 108/900

Are you ready for a foundation solution that reduces installation time without compromising stability? Greenpipe Quick Eco Base™ 108/900 is designed to revolutionize the way you install posts.

This is not just a foundation – it's an innovation.

Greenpipe 1Base™

Future-proof and reliable, Greenpipe 1Base™ offers long-term flexibility

Are you looking for a solution that easily enables the expansion of chargers to meet growing demands? With its robust design, Greenpipe 1Base™ is easy to adapt and install, and is compatible with all chargers up to 22 kW.

A flexible solution for both today's and tomorrow's charging infrastructure.
