# inPerson

A better alternative to Zoom / Teams / Meet

InPerson is a web-based platform that bridges the gap between physical and virtual experiences. Designed for hybrid teams and learning programs, it enables dynamic, *collaborative interactions* that feel just like being together in the same room.

WEB-BASED   **LOW BANDWIDTH**   **ONE-CLICK ACCESS**

Megan   Iman   Peter

CHALLENGE
42% of Zoom users keep their cameras off, reducing interaction.

inPerson SOLUTION
In addition to cameras, virtual avatars simluate in-person interaction and keep users active and engaged

---
