

## What we do

- ◆ Infrastructure ◆ Credit
- ◆ Collaboration

- ◆ Training ◆ Sharing
- ◆ Integrating

- ◆ Practical ◆ Provenance
- ◆ Packaging

- ◆ Know How ◆ Best Practice
- ◆ Community

- ◆ Build and Leverage Networks for Research

- ◆ History of Delivery

[eScienceLab.org.uk](http://eScienceLab.org.uk)

The University of Manchester

## Infrastructure Credit Collaboration

An open source web-based catalogue for sharing heterogeneous research data.  
[seek4science.org](http://seek4science.org)

A registry of computational workflows and SOPs, with tiered attribution features  
[workflowhub.eu](http://workflowhub.eu)

## Training - Sharing - Integrating

A one-stop shop for trainers and trainees to discover and register training materials and events

[tess.elixir-europe.org](http://tess.elixir-europe.org)

Best practices and guidelines for FAIR research data management

[rdmkit.elixir-europe.org](http://rdmkit.elixir-europe.org)

## Practical Provenance Packaging

A lightweight solution for packaging research outputs with their metadata, including provenance and attribution

[researchobject.org/ro-crate/](http://researchobject.org/ro-crate/)

A resource for helping researchers improve the quality of software they write

[everse.software/RSQKit/](http://everse.software/RSQKit/)

## Build and Leverage Networks for Research

EVERSE

Australian BioCommons

Australian BioCommons
