

## Who are we ?

Motion modeling experts

## What do we offer ?

High value-added  
digital twins

## What for ?

- Costs reduction
- Optimize R&D
- Facilitate innovation
- Customize products
- Reinforce safety

## How

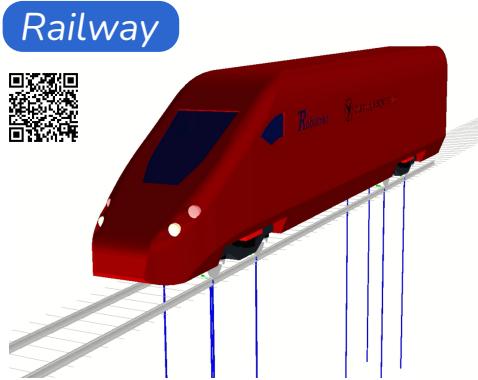

Physics-based multibody  
modeling with *Robotran*

## Why ?

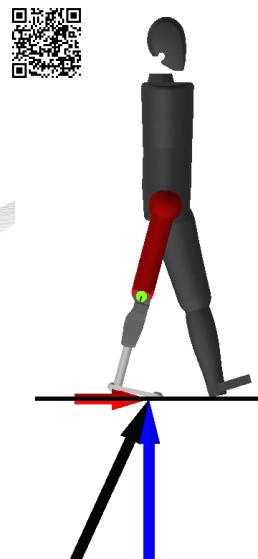

Sustainable & efficient  
systems in motion

## Fields of application

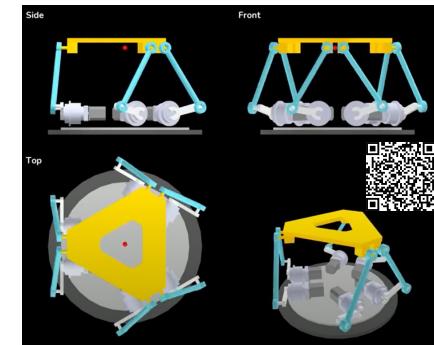

### Railway

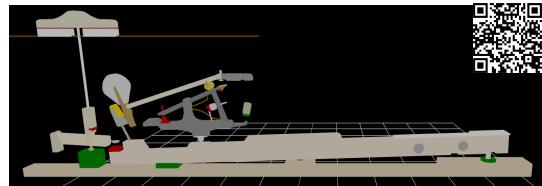

### Biomechanics

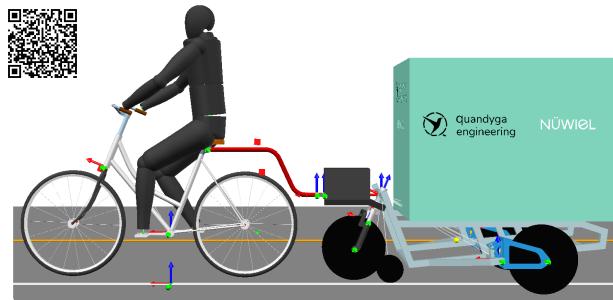

### Robotics

### Piano actions

### Cyclo-logistics

### And many more !

- Vehicles & suspensions
- Handling equipments
- High precision machines
- ...
