PMI PCB MUST

YOUR ELECTRONICS DEVELOPMENT PARTNER
FROM CONCEPT TO PRODUCTION

ELECTRONICS PRODUCT DEVELOPMENT PARTNER

Turn your ideas into reliable, production-ready electronics.

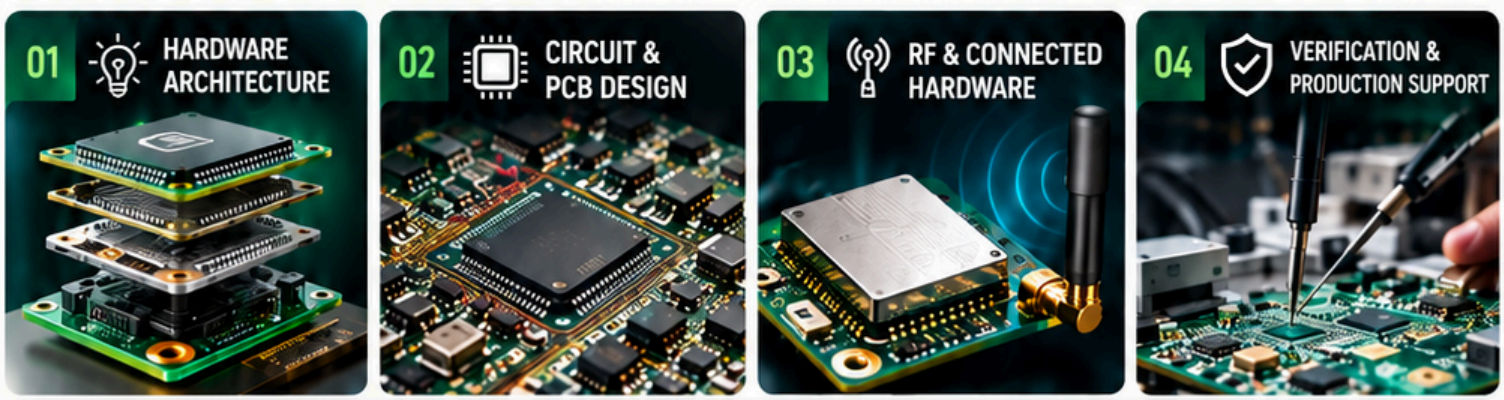

THE DEVELOPMENT JOURNEY

IDEAS INTO REAL-WORLD PRODUCTS

OUR CORE CAPABILITIES

END-TO-END HARDWARE DEVELOPMENT

500+ PROJECTS ACROSS INDUSTRIES

32 LAYERS PCB EXPERIENCE

5 GHz HIGH-SPEED PCB EXPERIENCE

INDUSTRIES WE SUPPORT

- IoT & Connected Products
- Telecom & Wireless
- Industrial & Automation
- Medical & Healthcare
- Consumer Electronics
- Robotics & Drones
- Embedded Computing
- Defence & Strategic Systems

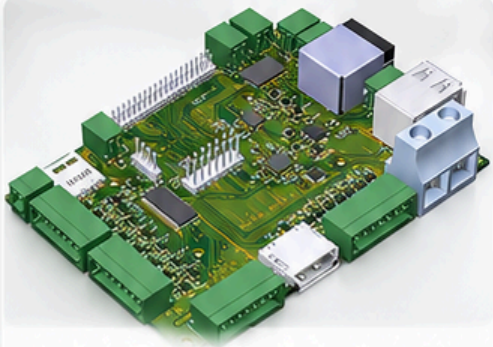

PMI PCB MUST

REAL PRODUCTS. REAL HARDWARE.

From electronics design to ship-ready products.

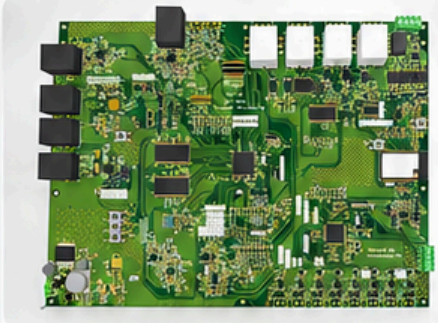

SELECTED WORK

Industrial Control Board

- Dense routing
- Multi-interface
- Production-ready

Complex Multilayer PCB

- Complex layout
- Bring-up support
- Documentation

Connected BLE Product

- Compact form factor
- BLE connectivity
- Battery product

DESIGNED BEYOND THE SCHEMATIC

Reliability — Built for real-world use

Compliance — EMI/EMC considered early

Manufacturability — DFM & DFT built in

Scalability — Ready for the next revision

ENGINEERING HANDOVER

- Schematic Source
- PCB Source
- BOM
- Manufacturing Files
- Assembly Docs
- Validation Notes
- Production Support
