STRATEGIC HEALTHCARE & DISTRIBUTION PARTNERSHIPS

Who we are

Dulaku Care+ is a Swiss Healthcare Solutions Provider focused on hydration and wellbeing in institutional care. We combine selected water systems with practical implementation and ongoing support.

What we bring to the market

- Drinking water and shower / wellbeing solutions
- Consultation, installation and staff guidance
- Service and support beyond initial implementation

Why partner with Dulaku Care+

- Hydration and wellbeing focus for healthcare portfolios
- Institution-oriented setup and practical guidance
- A structured pilot-to-implementation pathway
- Long-term service and market collaboration

Partnership opportunities

- **Distribution & reselling**
Reach institutional customers through relevant sales networks.
- **Market access & entry**
Explore new institutional markets with local expertise.
- **Strategic partnership**
Develop healthcare business opportunities and international cooperation.
- **Institutional implementation**
Introduce solutions with setup, staff guidance and ongoing support.
- **Pilot-to-scale**
Evaluate institutional fit, then explore broader implementation together.

Who we want to meet

Distributors, resellers and healthcare businesses with institutional customer access; market-access and business-development partners with local or international networks; organisations able to support implementation and long-term cooperation.

CARE HOMES / ELDERLY CARE | REHABILITATION | HEALTHCARE | WELLBEING

Focus markets: Switzerland | DACH | Selected international markets

Let's explore a strategic, distribution or market-entry partnership.
