and the Republic of Türkiye

ICTürkiye2025
10 April, İstanbul

PRESENTER FULL NAME: ULUÇ KARAKAŞ

ORGANIZATION: ULAK HABERLEŞME A.Ş.

WORKSHOP NAME: SMART MOBILITY

E-MAIL: ULUC.KARAKAS@ULAKHABERLESME@COM.TR

About ULAK Communications Inc.

ULAK Communications Inc. specializes in R&D, production, and services for mobile and broadband communication systems, sd-x, vertical applications and private networks.

R&D
Integration
Sales
Maintenance

Over 380 Personnel
Headquarters in Ankara
Two Branches in Ankara and İstanbul

Our R&D Scope

ULAK 4.5G / 5G
Base Station

ULAK 5G MAYA
SDN/NFV

ULAK 5G
Core Network

**VERTICAL
APPLICATIONS**
V2X, Public Safety,
Private Network

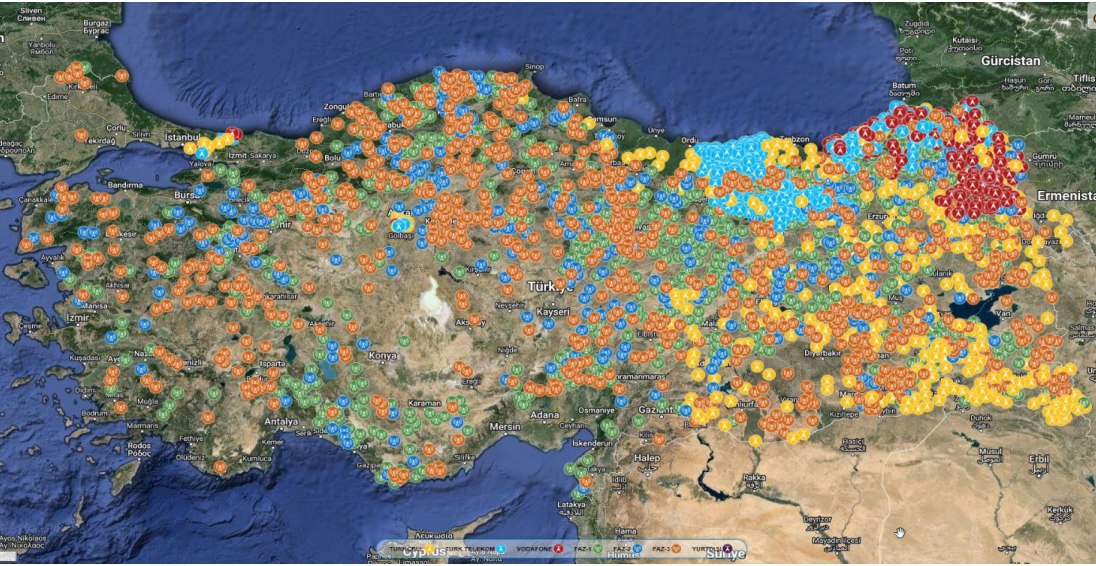

R&D Scope – V2X (Smart Mobility)

- ULAK is working on vehicle communication units based on 5G technologies to implement internationally defined scenarios, preparing them for field use.
- With domestically developed in-vehicle units, smart roadside units, and centralized management systems, ULAK offers safer transportation experiences via vehicle-to-everything (V2X) communication technologies. These systems provide early warnings about hazardous situations, ensuring driving safety.

Projects

ULAK's Role and Contributions in the Project: Supply Chain 5 – Smart City Pilots
Demonstrator 1 brings together **sea vessels, rental passenger cars and e-scooters** together in an **autonomous & tele-operated driving** by using **5G connectivity**.

ULAK's Role and Contributions in the Project: Work Package 5
The objective of **WP5** is to develop and deploy validated solutions for key application areas, including **automotive, smart cities, and autonomous mobility**.
Contributing to Smart Logistics and Smart Construction Connectivity: 5G deployment and V2X Integration

ULAK's Role and Contributions in the Project

A **fault and performance management framework** for software-defined networks to enhance data center efficiency.

AI/ML-based methodologies to enable flexible and scalable mobile networks, particularly within the SDN/NFV architecture.

Execution of **demonstration activities**

Projects to Join as a Partner

Under Cluster 5 Call Topics, ULAK Haberleşme would like to contribute to projects including:

Connected, Cooperative and Automated Mobility (CCAM)

Mobility Systems Through 5G Connectivity and V2X
